| <b>APPLICANT:</b> John Trinh & Associates,<br>represented by Rick Grol   | <b>OWNER:</b> 2640794 Alberta Ltd., represented<br>by Rick Grol   |

**Notes:**

- Notice has been given of the hearing pursuant to the *Municipal Government Act* and Land Use Bylaw, including notices to parties who may be affected by the appeal. The final determination of whether a party is an “affected person” will be made by the Board if required.
- This Report is provided as a courtesy only. The Board’s record may include additional materials, including notifications to affected parties and correspondence of a procedural or administrative nature. The Board’s record may be viewed at the Appeal Board office at: 4<sup>th</sup> Floor, 1212 31 Avenue NE, Calgary, Alberta during regular office hours.

In accordance with Sections 678 and 686 of the Municipal Government Act and The City of Calgary Bylaw 25P95, as amended, an appeal to the Subdivision and Development Appeal Board must be filed within the legislated time frame and each Notice of Appeal must be accompanied by the legislated fee.

## APPEAL AGAINST

Required field. Check one item only: for multiple appeals you must submit another Notice of Appeal.

Development Permit Approval

I do hereby appeal the decision  
of the Subdivision/Development  
Authority for the following rea-  
sons [required]

The approved plans to not comply more than one of the the North Hill Communities  
Local Area Plan - Heritage Guidelines.

In order to assist the Board in scheduling, please answer the following questions to the best of your ability:

Estimated Presentation Time

30 minutes

Will you be using an agent/legal  
counsel? [required]

Unknown

Do you anticipate any preliminary  
issues with your appeal? (i.e.  
jurisdiction, parties status as  
affected persons, adjournment,  
etc.)? [required]

No

If yes, what are the issues?

Do you anticipate bringing any  
witnesses/experts to your hear-  
ing? [required]

Unknown

If yes, how many will you be  
bringing?

*I confirm and acknowledge that*

- *I have read and understood this form;*
- *The information I have provided is accurate to the best of my knowledge; and*
- *I am responsible for paying the appeal fee and my notice of appeal will not be considered filed until my appeal fee has been received.*

Submission Date

2025-05-19 13:59:31 MST

*This personal information is collected under the authority of the Freedom of Information and Protection of Privacy Act, section 33(c) and the Municipal Government Act, Sections 678 and 686. THIS INFORMATION WILL BE USED FOR PROCESSING YOUR APPEAL AND WILL BECOME PART OF A PUBLIC AGENDA. If you have any questions regarding the collection of this information, contact the Tribunal Coordinator, City Appeal Boards at 403-268-5312 or PO Box 2100, Stn "M", #8110, Calgary, AB, T2P 2M5.*

## CRESCENT HEIGHTS HERITAGE COMMITTEE

1101 – 2 St NW, Calgary, AB, T2M 2V7 | 403.614.2246 | heritage@crescentheightsyyc.ca

**June 2, 2025**

Calgary Subdivision and Development Appeal Board  
1212 – 31 Ave NE, 4<sup>th</sup> floor  
Calgary, AB

**Dear Mister or Madam Chair:**

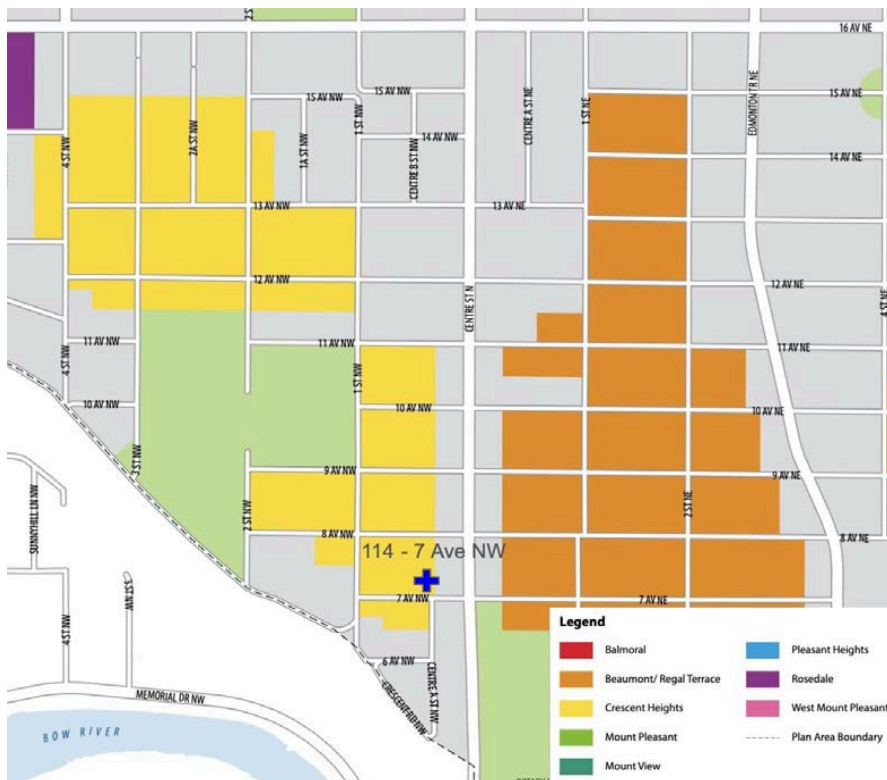

I am writing to appeal the approval of DP2024-08233 (SDAB2025-0060) at 114 - 7 Ave NW on behalf of the Crescent Heights Heritage Committee. Our Committee is tasked by the Crescent Heights Community Association Board with ensuring the best possible outcomes from the North Hill Communities Local Area Plan - Section 2.6.2 Heritage Guidelines (HGs) as they apply to new developments within our community.

The subject site currently includes a 1924 one storey house, and the proposed new development includes two 2-storey single detached dwellings (see related appeal SDAB2025-0061). Only the relevant approved development permit (DP2024-08233) will be included herein (Figure 1).

**Figure 1:** Current and proposed dwelling at 114 - 7 Ave NW

The subject site is located within the Crescent Heights Area of the HGs (Figure 2).

**Figure 2:** Location of 114 - 7 Ave NW within the Crescent Heights HG Area

The HGs were approved by the Mayor and Council in December 2022, and all renovations and developments submitted for permits are required to align with the HGs. Per the City of Calgary's Engage website<sup>1</sup>: "The Heritage Guidelines will help ensure new development respects the historic character of existing homes and positively contributes to the ongoing historic nature of these areas. When the Heritage Guidelines are in place, any plans to build or renovate homes within the boundaries must meet the Heritage Guidelines." The HGs direct designers on elements that are expected for renovations and new developments that align with existing heritage assets within communities (Appendix 1). The City also provides an implementation guide to further assist redevelopment in the applicable areas (Appendix 2).

Members of our Committee were involved in the development of the HGs and we welcomed their implementation in December 2022. We educate our residents and those interested in moving to or developing within the community by: a) placing lawn signs that indicate which blocks are within the HGs, b) maintaining a Community Planning page on the Crescent Heights Community Association website which in part includes a map and description of the HGs<sup>2</sup>, and c) working directly with applicants to understand implementation and expectations of the HGs.

Our Planning and Heritage Committees reviewed the original plans associated with the subject development permit and submitted our comments through the Development Map in December 2024. We evaluated the plans against the HGs and noted that the plans did not align with HGs 1, 4, 11, 12, 14, 15 and 16.

On May 1, 2025 our Committees received notice that the DP was approved with modified development plans. We reviewed the approved plans against a Committee-generated matrix for evaluating developments against the HGs. We found numerous aspects still do not align with the HGs (Appendix 3). Specific discrepancies are illustrated below.

---

<sup>1</sup> <https://engage.calgary.ca/NHCheritageguidelines>

<sup>2</sup> <https://crescentheightsyyc.ca/planning/developers/>

*HGA 4. Where a public boulevard with canopy trees is not present, landscaping should include at least one deciduous tree in the front setback area or within the boulevard, where feasible, that will contribute to a mature tree canopy.*

There is currently one tree within the boulevard and two trees within the front setback area of the property. All of these existing trees are slated for removal, and no new plantings are indicated in the development plans.

TREE SCHEDULE:

| Tree No. | Variety   | Trunk (#±) | Canopy (#±) | Height (±) | Location             | Disposition   |
|----------|-----------|------------|-------------|------------|----------------------|---------------|
| T1       | Deciduous | 0.40       | 6.00        | 10.00      | In Subject Property  | To Be Removed |
| T2       | Deciduous | 0.20       | 5.00        | 6.00       | In Subject Property  | To Be Removed |
| T3       | Deciduous | 0.50       | 4.00        | 10.00      | In Subject Property  | To Be Removed |
| T4       | Deciduous | 0.20       | 4.00        | 10.00      | In Subject Property  | To Be Removed |
| T5       | Bush      | -          | 4.00        | 5.00       | On Property Line     | To Be Removed |
| T6       | Deciduous | 0.40       | 6.00        | 8.00       | In Adjacent Property | To Stay       |
| T7       | Deciduous | 0.10       | 2.00        | 8.00       | In City Property     | To Stay       |
| T8       | Deciduous | 0.05       | 2.00        | 8.00       | In City Property     | T.B.R         |
| T9       | Bush      | -          | 1.00        | 2.00       | On Property Line     | To Be Removed |
| T10      | Deciduous | 0.40       | 5.00        | 8.00       | In Subject Property  | To Be Removed |
| T11      | Deciduous | 0.30       | 2.00        | 8.00       | In Subject Property  | To Be Removed |
| T12      | Bush      | -          | 1.50        | 4.00       | On Property Line     | To Be Removed |
| T13      | Bush      | -          | 3.00        | 3.00       | In Subject Property  | To Be Removed |
| T14      | Deciduous | 0.20       | 3.00        | 8.00       | In Subject Property  | To Be Removed |
| T15      | Bush      | -          | 2.00        | 3.00       | In Subject Property  | To Be Removed |
| T16      | Deciduous | 0.20       | 4.00        | 4.00       | In Subject Property  | To Be Removed |

*HGA 11. Development should provide a front projection on the main floor that may be covered or enclosed and that comprises at least a third of the width of the front main floor façade for each unit visible from the street. This front projection could include elements such as: porches, patios, verandas, or sunrooms.*

The approved development plans indicate a concrete slab at the front of the residence; however, this is neither covered or enclosed and doesn't constitute a front projection from the dwelling.

*HGA 13. Large uninterrupted floor to ceiling windows are discouraged.*

*HGA 15. Windows are encouraged to include wide casings or frames.*

The applicant has done a good job in horizontally dividing the large windows on the second storey of the dwelling. The windows on the first storey should be similarly divided. Wide casings should be added to the second storey windows.

Our Committee is eager to work with this and other developers to help them align their development plans with the HGs. Crescent Heights residents value the heritage look and feel of our community...one of the oldest in Calgary. We request that the applicant be required to amend their plans to comply with the HGs.

Sincerely,

A handwritten signature in black ink, appearing to read 'K Beavis'.

**Krista Beavis,  
on behalf of the Crescent Heights Heritage Committee**

**cc: Dan Evans, Simonetta Acteson, Brenda Erskine, Isabelle Jankovic, Adam Schwartz**

## 2.6.2 Heritage Guideline Areas

### Introduction

To celebrate the history of the North Hill Communities as some of Calgary's earliest neighbourhoods and respect the area's heritage, **Heritage Guideline Areas** have been identified for areas that have concentrated groups of **heritage assets**. **Heritage assets** are privately owned buildings, typically constructed prior to 1945, that significantly retain their original form, scale, massing, window/door pattern, and architectural details or materials. Portions of the North Hill Communities have concentrations of **heritage assets**, as identified on Map 5. These guidelines apply to block faces where more than 25% of the buildings have been identified as **heritage assets**. Buildings that qualify as **heritage assets** may be on the **Inventory of Evaluated Historic Resources** but are not required to be.

The **Heritage Guideline Areas** are named after the historic neighbourhoods that formed the urban beginnings of the individual communities that now comprise the North Hill Communities. While the names of some of these historic neighbourhoods are still reflected in many of the current communities, the exact location of these early neighbourhoods often differ from the current boundaries. Nonetheless, this historic nature of these communities help define the character for residents and visitors. The **Heritage Guideline Areas** include the historic subdivisions of:

- Balmoral;
- Beaumont / Regal Terrace;
- Crescent Heights;
- Mount Pleasant;
- Mount View;
- Pleasant Heights;
- Rosedale; and,
- West Mount Pleasant.

The Plan applies locally-specific guidelines to the identified **Heritage Guideline Areas**. These guidelines are informed by the historic building forms and elements of **heritage assets** in the area with the intent of ensuring that new development fits into the historic fabric and context. The guidelines are not meant to limit new development, but rather to ensure that new buildings in the **Heritage Guideline Areas** are designed to complement the historic form within the guideline areas. The guidelines are intended to apply primarily to new residential and mixed-use buildings in the guideline areas.

The guidelines will be applied through the development permit process, in addition to the other policies in this Plan, to ensure new development responds to and contextually fits with existing **heritage assets**. In applying the guidelines, consideration should be given to the immediate context, including **heritage assets** and **Municipal Historic Resources**. There are many design approaches that can be taken to meet the guidelines and the guidelines aren't intended to directly recreate historic architectural styles for new development. In other words, contemporary designs are appropriate provided they incorporate design elements that allow them to contribute to and enhance the historic character of the **Heritage Guideline Areas**.

### Guidelines

#### General

1. Land use redesignations that would allow for a development with permitted use dwelling units should not be supported in the **Heritage Guideline Areas**.
2. Development should draw design reference from nearby **heritage assets** within the applicable **Heritage Guideline Area**.

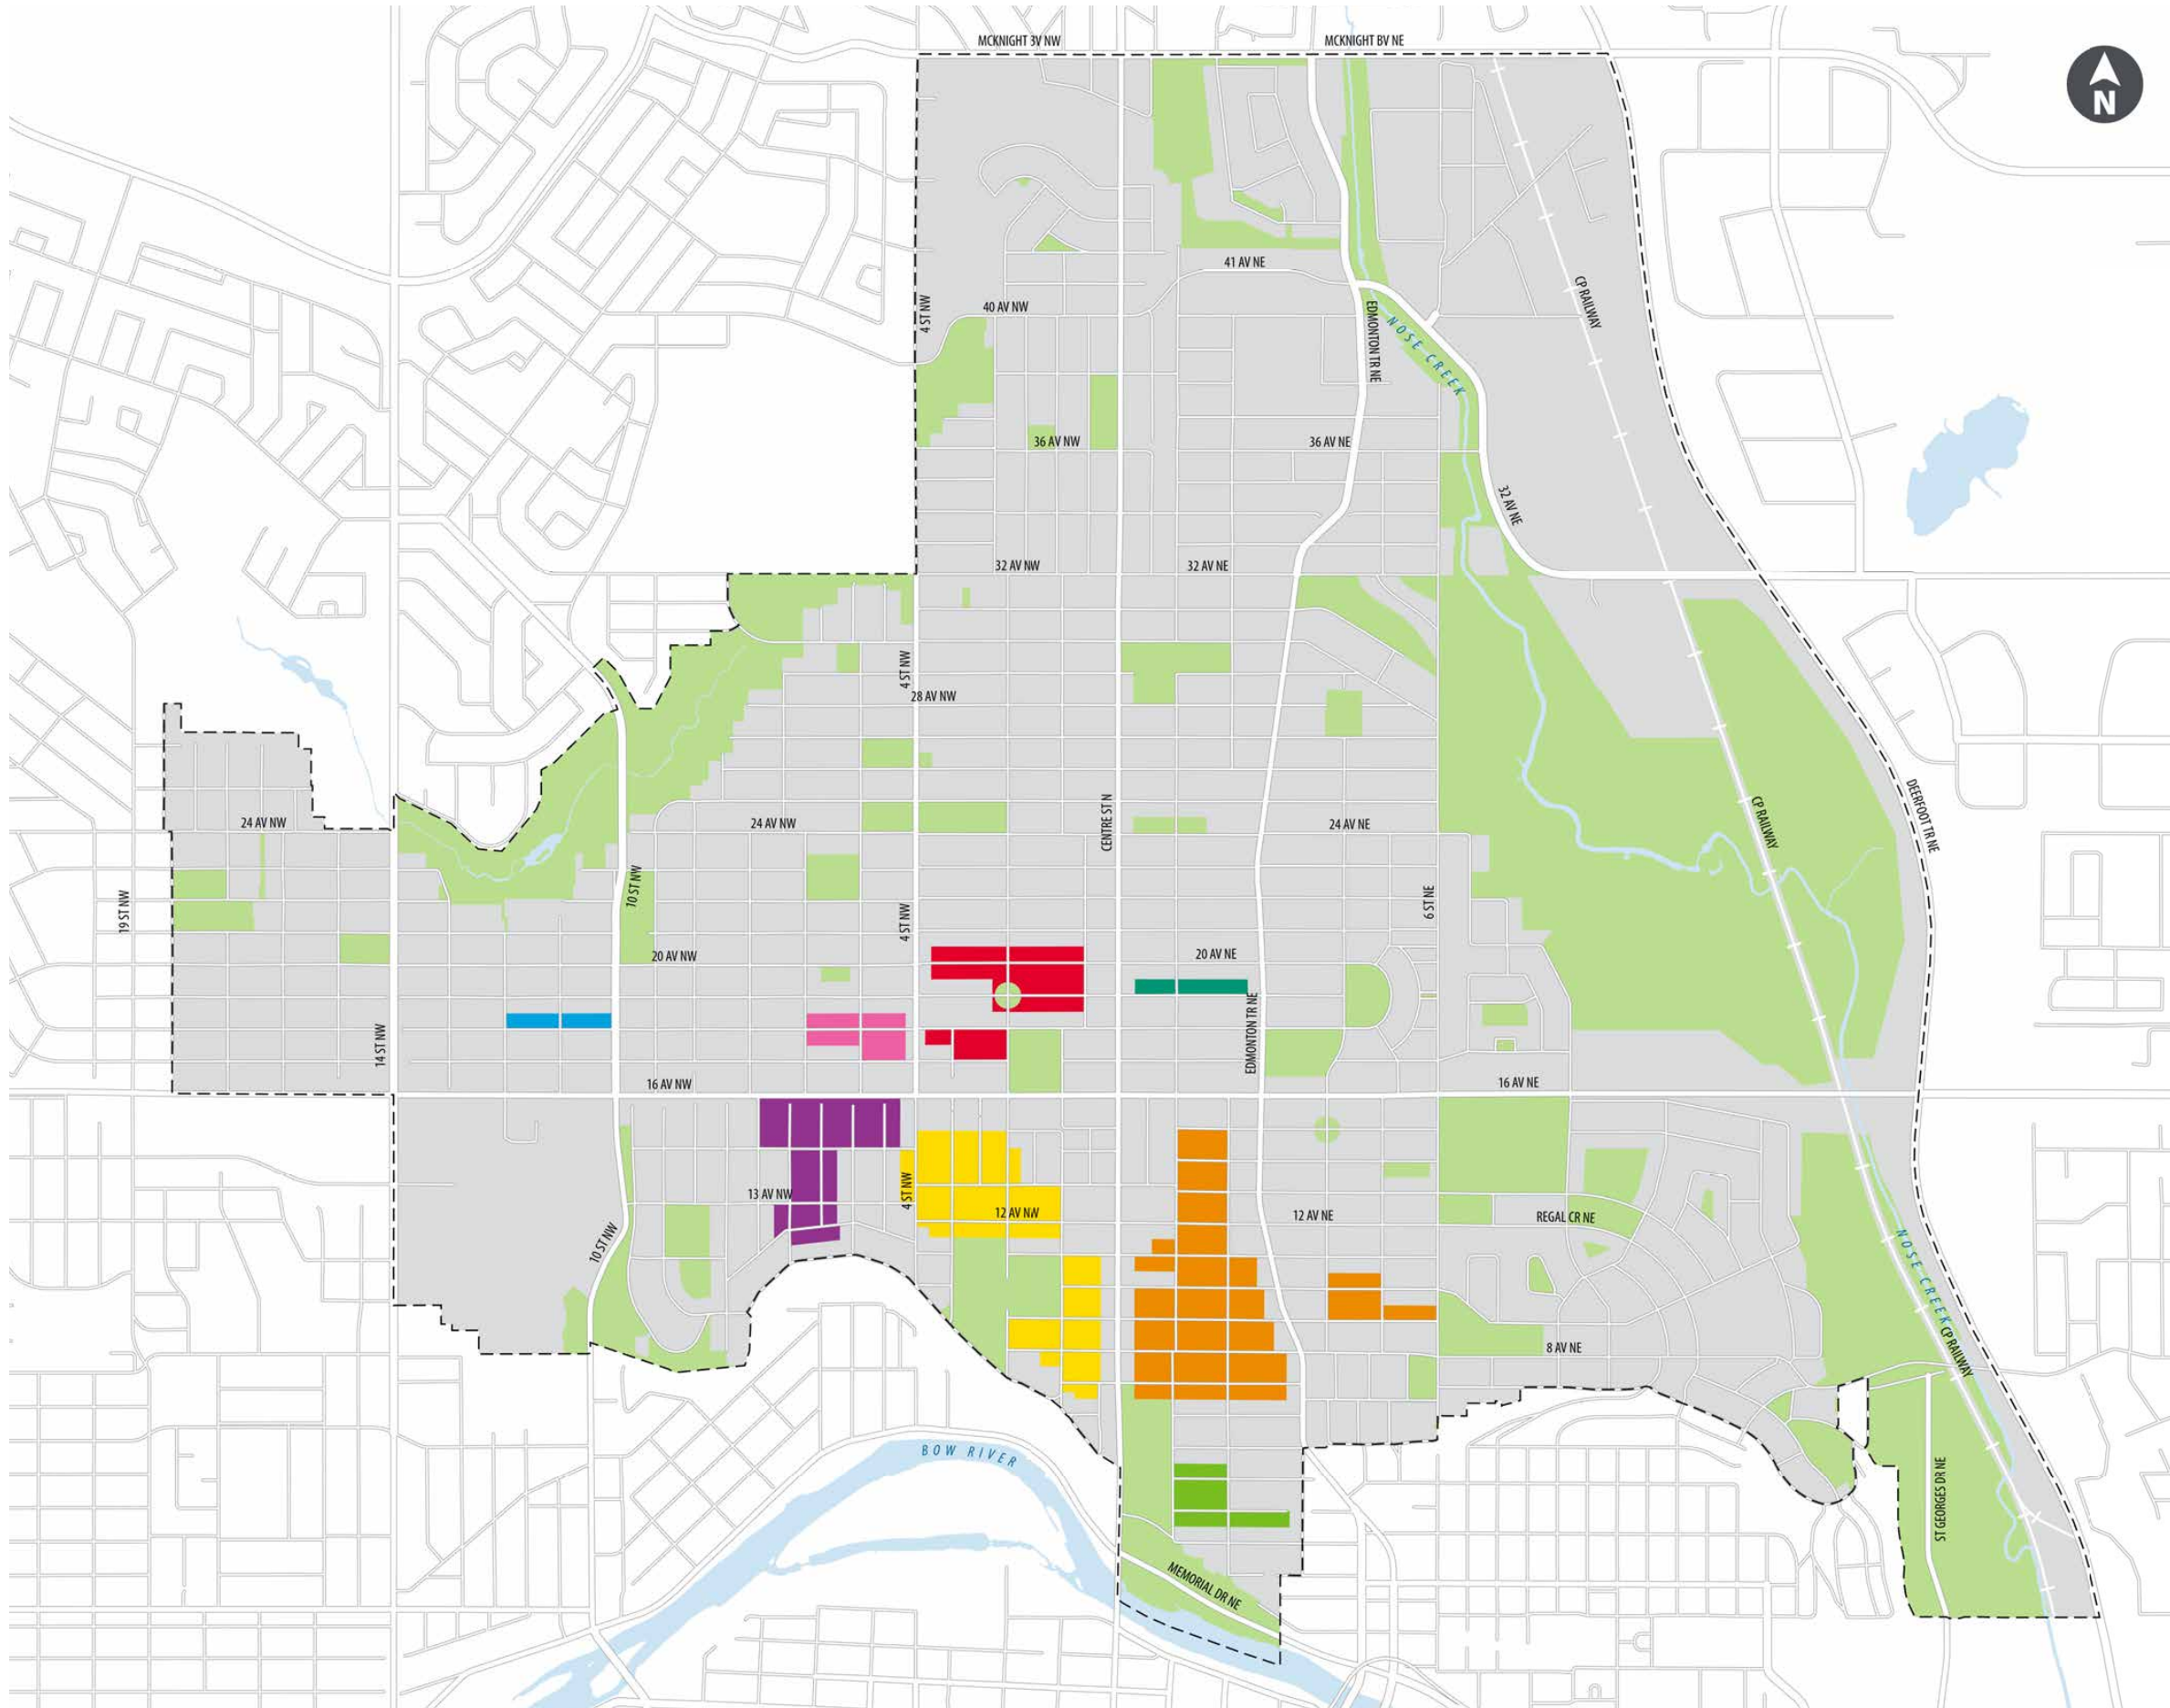

#### Site and Landscape Design

3. Notwithstanding the minimum **Land Use Bylaw** setback, front yard setbacks should be informed by the existing **heritage assets** on the block.
4. Development should provide well-defined and direct pathway connections from front doors to the sidewalk and **public realm**.
5. Where a public boulevard with canopy trees is not present, landscaping should include at least one deciduous tree in the front setback area or within the boulevard, where feasible, that will contribute to a mature tree canopy.

#### Roofs and Massing

6. Roof styles should be informed by and complement the **heritage assets** in the area.
7. Flat roofs are strongly discouraged where visible from the street.
8. The primary roofline visible from the street should have a minimum pitch of 6:12.
9. Where new development is larger than nearby **heritage assets**, the visual impact of upper storeys of buildings should be reduced by employing design measures such as:
  - a. The use of compound roofs (e.g., cross-gabled) to hide the upper storey;
  - b. Shifting massing away from smaller-scale buildings; or
  - c. Reduced building massing on upper storeys.

**Map 5:**  
Heritage  
Guideline Areas

**Legend**

- Balmoral
- Beaumont/  
Regal Terrace
- Crescent Heights
- Mount Pleasant
- Mount View
- Pleasant Heights
- Rosedale
- West Mount Pleasant
- Parks, Civic  
and Recreation
- Plan Area Boundary

Approved: 18P2020  
Amended: 65P2022

10. Developments with more than one unit should have distinct rooflines that accentuate individual units.
11. Buildings with a front façade width exceeding 12 metres or a height exceeding two storeys are encouraged to mitigate their visual impact through variations in:
  - a. massing;
  - b. rooflines; or
  - c. materials.

#### Front Facades

12. Development should provide a front projection on the main floor that may be covered or enclosed and that comprises at least a third of the width of the front

main floor façade for each unit visible from the street. This front projection could include elements such as:

- a. porches;
- b. patios;
- c. verandas; or
- d. sunrooms.

13. Front facades should reference the vertical and horizontal pattern of the streetscape, specifically existing **heritage assets** on the block.

#### Windows, Materials and Details

14. Large uninterrupted floor-to-ceiling windows are discouraged.

15. Horizontal window openings are encouraged to be divided into groupings of smaller vertically oriented windows.
16. Windows are encouraged to include wide casings or frames.
17. The use of natural or natural-looking building materials is encouraged.

18. Where multiple building materials are used, heavier-looking materials (e.g., masonry or masonry veneer) should be used on the base of the building.

## Heritage Guideline Areas

### What is a Heritage Guideline Area?

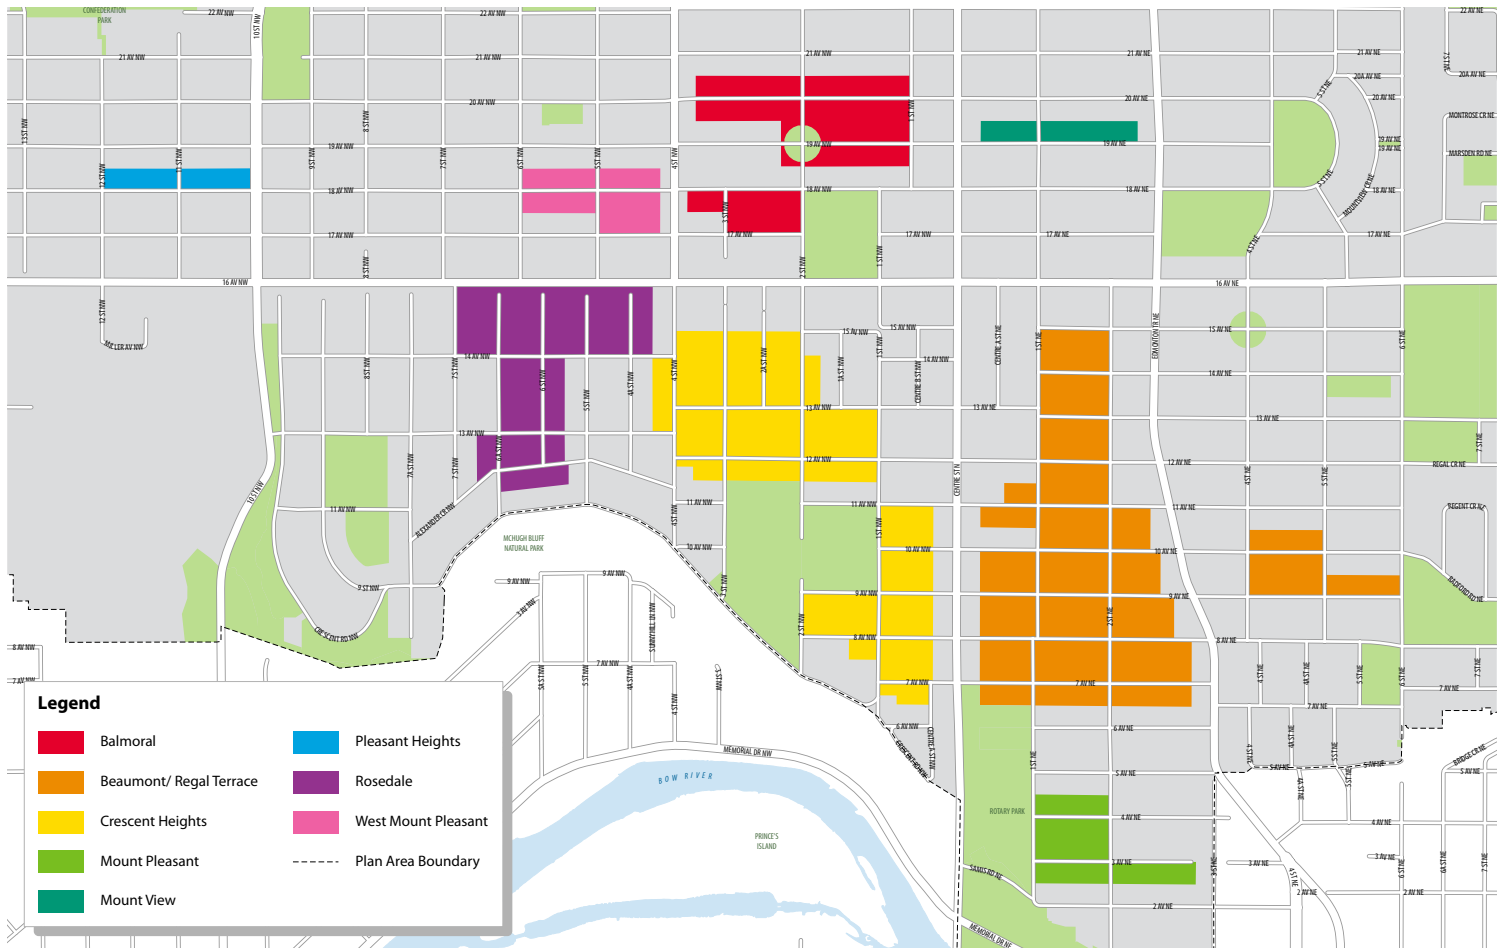

Heritage Guideline Areas are identified in a Local Area Plan and indicate where there are concentrations of **heritage assets**, sometimes referred to as “character homes.” In these areas, both new developments and major exterior renovations to existing buildings are made subject to a discretionary review and approval process by The City. The application design guidelines also promote the integration of historic design characteristics found in local **heritage assets**.

The Heritage Guidelines address general characteristics of buildings rather than enforcing strict architectural rules. Although the design of new development

needs to be sensitive to and respect the existing **heritage assets**, the intent of the guidelines is not to require new development to have a fake historic appearance. Instead, the guidelines are written to encourage modern development that is highly-contextual and echoes the past context established by **heritage assets**.

### What are heritage assets?

**Heritage assets** are privately-owned buildings, typically constructed before 1945, that retain most of their original style, design, details and construction materials as determined through a visual assessment.

## Guidelines Overview

The Heritage Guidelines apply to new development and significant exterior renovations in the Heritage Guideline Areas. They ensure that new development responds to and supports the historic character in these areas. The Heritage Guidelines address four overarching design categories:

- Site and Landscape Design
- Roofs and Massing
- Front Façades
- Windows, Materials and Details

Overall, the Heritage Guidelines encourage new development to take design inspiration from nearby **heritage assets** in ways that complement the unique and historic qualities of **heritage assets** while allowing for modern interpretations.

The images shown throughout this implementation guide show various ways that new development can respond to existing **heritage assets**. For example, various scales of development may occur in the Heritage Guideline Areas and the images included show how these varying scales can incorporate the design guidelines.

### Example block within a Heritage Guideline Area

## Site and Landscape Design

Site and landscape design are important factors in how a building fits in with the surrounding area. Proper building setbacks from the street and trees in the front yard or boulevard help a building fit in with existing homes.

### Applicable Heritage Guidelines:

- Front setbacks for new development should be generally aligned with **heritage assets** on the block.
- If a public boulevard with canopy trees is not present, at least one canopy tree should be planted in the front setback area or within the boulevard, where possible.

Example of front setback and tree planting within a Heritage Guideline Area

## Roofs and Massing

The roof style and design of a building influence how well it fits in with surrounding **heritage assets**. The intent of policies in this section are to reduce the visual impact of new development by considering roof design and building massing (e.g., size and shape), particularly in how they relate to **heritage assets**.

### Applicable heritage guidelines:

- Roof styles should be consistent with the **heritage assets** in the area.
- The primary roofline visible from the street should have a minimum pitch of 6:12.
- Flat roofs are strongly discouraged where visible from the street.
- Where new development is larger than nearby **heritage assets**, the visual impact of upper storeys of buildings should be reduced by using design measures such as:
  - Using compound roofs (e.g., cross-gabled) to hide the upper storey.
  - Shifting massing away from smaller-scale buildings.
  - Reducing building massing on upper storeys.
- Developments with more than one unit should have distinct rooflines that accentuate individual units.
- Buildings with a front façade width exceeding 12 metres or height exceeding two storeys are encouraged to minimize their visual impact through variations in massing, rooflines or materials.

### 6:12 Pitched roof example

### Example of roofs and massing within a Heritage Guideline Area

## Front Façades

The front façade of a building provides an important relationship between a building and the street. This is how the building is most often viewed and therefore it is important that the front façade take cues from surrounding **heritage assets**.

### Applicable Heritage Guidelines:

- Development should provide a front projection on the main floor, which may be covered or enclosed (with significant glazing), that makes up at least a third of the width of the front main floor façade for each unit visible from the street. This front projection could be in forms such as porches, patios, verandas or sunrooms.
- Front façades should reference the vertical and horizontal pattern of the streetscape, specifically existing **heritage assets** on the block.

### Examples of front projections

Full width verandah

Enclosed entryway

Hipped verandah

Flat verandah

Gable verandah

Shed verandah

### Example of front façades within a Heritage Guideline Area

## Windows, Materials and Details

Throughout the Heritage Guideline Areas certain defining historical details exist, visible in the **heritage assets**. The Heritage Guidelines ensure new developments include some of these details, while also allowing for modern interpretation and design.

### Applicable Heritage Guidelines:

- Where multiple building materials are used, heavier-looking materials (e.g., masonry or masonry veneer) should be used on the base of the building.
- Large uninterrupted floor-to-ceiling windows are discouraged.
- Horizontal window openings are encouraged to be divided into groupings of smaller vertically oriented windows.
- Windows are encouraged to include wide casings or frames.
- The use of natural or natural-looking building materials is encouraged.

JOHN TRINH & ASSOCIATES

Dear Applicant:

**RE: Notification of Decision: DP2024-08233**

**Subject: New: Single Detached Dwelling (east lot)**

**Address: 114 7 AV NW**

This is your notification of decision by the Development Authority to approve the above noted application on April 28, 2025.

Read all of the Permanent Conditions of approval carefully as they form part of the approval decision. The Prior to Release Requirements must be met to the satisfaction of the Development Authority before your Development Permit will be released to you. The Permanent Conditions form part of the approval decision. Advisory Comments, if applicable, are also attached and are intended to be of assistance in obtaining additional permits and supplementary information for the successful completion of your development.

Development approved by this permit must commence by April 28, 2027 or the development permit shall cease to be valid. The decision will be advertised beginning May 1, 2025 at [www.calgary.ca/publicnotices](http://www.calgary.ca/publicnotices), which is the start of the mandatory 21-day appeal period. This appeal period will conclude at midnight May 22, 2025. Release of the permit will occur within 2-4 business days following the conclusion of the appeal period and upon receipt of all Prior to Release requirements.

If you wish to appeal, submit your appeal with reasons and the \$200.00 filing fee to the Subdivision and Development Appeal Board within 21 days of this notice of decision being given. The appeal may be filed online at [www.calgarysdab.ca](http://www.calgarysdab.ca) or in person or by mail.

Please note that this letter is to advise you of the conditions of approval, the mandatory advertising appeal period and the timeframe in which you may appeal this decision. If no appeals have been filed during the appeal period, and the Prior to Release conditions have been met, your Development Permit will be released. Should you require clarification of the above or further information, please contact me at 403-333-5407 or by email at [daniel.bronson@calgary.ca](mailto:daniel.bronson@calgary.ca) and assist me by quoting the Development Permit number.

Yours truly,

Daniel Bronson  
Senior Planning Technician  
Planning and Development

**DEVELOPMENT PERMIT  
LAND USE BYLAW NO 1P2007**

**DP2024-08233**

This permit relates to land in the City of Calgary municipally described as:

**114 7 AV NW**

Community: **Crescent Heights**

L.U.D.: **R-CG**

and legally described as:

**4456R;30;25,26**

and permits the land to be used for the following development:

**New: Single Detached Dwelling (east lot)**

The present owner and any subsequent owner of the above described land must comply with any attached conditions.

The development has been approved subject to any attached conditions and to full compliance with the approved plans bearing the stamp of approval and the above development permit number.

Decision By: **Development Authority**

Date of Decision: **April 28, 2025**

Development Authority: **Maurie Loewen**

File Manager: **Daniel Bronson**

Release Date: \_\_\_\_\_

**This permit will not be valid if development has not commenced by: April 28, 2027**

This Development Permit was advertised on: **May 01, 2025**

**This is NOT a Building Permit**

In addition to your Development Permit, a Building Permit may be required, prior to any work commencing. further information, you should contact the City of Calgary, Planning, Development & Assessment - Building Regulations Division.

**WARNING**

**This permit does not relieve the owner or the owner's authorized agent from full compliance with the requirements of any federal, provincial or other municipal legislation, or the terms and conditions of any easement, covenant, building scheme or agreement affecting the building or land.**

---

## Prior to Release Requirements

---

The following requirements shall be met prior to the release of the permit. All requirements shall be resolved to the satisfaction of the Approving Authority:

### Planning

1. Submit a letter from ENMAX Corporation, and any associated plans, indicating that the conflict has been resolved. If you have questions regarding the conflict, please contact Will Du at [wdu@enmax.com](mailto:wdu@enmax.com).

## Permanent Conditions

---

The following permanent conditions shall apply:

### Planning

2. The development shall be completed in its entirety, in accordance with the approved plans and conditions. The stamped and signed plans are a legal document.
3. No changes to the approved plans shall take place unless authorized by the Development Authority. If changes to the development occur or are proposed, a new development permit or revised plan application may be required.
4. A Development Completion Permit is required prior to the development being occupied.
5. When the main floor is constructed, submit the surveyed geodetic elevation to [Geodetic.Review@Calgary.ca](mailto:Geodetic.Review@Calgary.ca)

## Advisory Comments

---

The following advisory comments are provided as a courtesy to the Applicant and registered property owner. The comments represent some, but not all of the requirements contained in the Land Use Bylaw that must be complied with as part of this approval.

### Planning

6. The Applicant may appeal the decision of the Development Authority, including any of the conditions of the development permit. If you decide to file an appeal, please refer to the notification of decision letter for the appropriate appeal body and appeal process.
7. The approval of this development permit does not limit in any way the application of any federal, provincial, or municipal law, policy, code, regulation, bylaw, and/or guideline, nor does it constitute any permit or permission under any federal, provincial, or municipal law, policy, code, regulation, bylaw, and/or guideline.
8. In addition to this development permit, building permits may also be required. Building permit applications may be submitted upon approval of the associated development permit. Contact Building Regulations at 403-268-5311 for further information.
9. This development permit has not been reviewed for potential issues with the National Building Code - current Alberta Edition. You may require a Building Permit in addition to this development permit in which case compliance with the Code will be assessed through a Building Permit application. Should a Building Permit review require changes to the approved development permit, the changes must be to the satisfaction of the Development Authority and are potentially subject to a new development permit.
10. All plumbing services including sanitary, storm and water must be verified onsite by the owner and/or builder to ensure the size and location is compliant with the National Plumbing Code of Canada for the number of fixtures being installed. The waterline must be of the size that is indicated on the grade slip, but in no case smaller than 1 in size.
11. A minimum of two trees must be planted on the parcel. This may be accomplished by planting new trees or preserving existing trees. The trees must be of a species capable of healthy growth in Calgary and must conform to the standards of the Canadian Nursery Landscape Association. To satisfy the requirement of one tree, the following sizes must be met:
  - a. A deciduous tree with a minimum calliper of 50.0mm; or
  - b. A coniferous tree with a minimum height of 2.0 metres.To satisfy the requirement of two trees, the following sizes must be met:
  - a. A deciduous tree with a minimum calliper of 85.0mm; or
  - b. A coniferous tree with a minimum height of 4.0 metres.The required trees must be provided on the parcel within 12 months of issuance of the development completion permit (DCP) and maintained for a minimum of 24 months after issuance of the DCP.

Track your application on-line with VISTA. Go to: [www.calgary.ca/vista](http://www.calgary.ca/vista) and enter your JOB ACCESS CODE (JAC) from the application form or call Planning Services Counter at (403) 268-5311.

Page 3 of 4

12. There are many types of caveats and other agreements that can be registered on the title of the property that can restrict the ability to develop. The City has not reviewed or considered all instruments registered on the title to this property. Property owners must evaluate whether this development is in compliance with any documents registered on title.

## Reasons for Approval for DP2024-08233

---

The Reasons for Approval document is intended to provide a short summary of the development permit process, responses to concerns raised by neighbours, Community Associations, and other affected parties, and rationale for any relaxations of the Land Use Bylaw granted by the Development Authority. Only the approved plans and conditions of approval are the subject of an appeal.

---

## Scope and Process

---

### Development Scope:

The application is for a discretionary Single Detached Dwelling at 114 7 Avenue NW in the community of Crescent Heights. The site is surrounded by Single Detached Dwellings to the north, south, east and west. Primary access for adjacent residences along 7 Avenue NW is via the rear lane.

### Circulation and Notice Posting:

The following referees were circulated:

1. **Enmax** – Original design conflicts with required clearance area. Partially resolved with conditional release.
2. **Ward Councillor** – No comments provided.
3. **Community Association** – Comments provided:
  - Objects to the rear attached garage – feels it is inconsistent with the community
  - Feels the design is “boring”
  - Felt it did not meet the Heritage Guidelines
4. **Building Regulations** – No comments provided.
5. As per Land Use Bylaw requirements, the application was notice posted for a 1-week period. The following comments were submitted:
  - Feels house clashes with neighbourhood
  - Feels house does not meet the Heritage Guidelines

The above comments were addressed by the following:

- A Detailed Review was sent to the applicant requiring them to better comply with the Heritage Guidelines in the North Hill Communities Local Area Plan.
- Amended plans were submitted which significantly improved compliance with the policy.

## The City of Calgary

### Planning and Development

#### Development and Subdivision Application Services

- Enmax conflict resolution will be made a prior-to-release condition.

The Development Authority also notes:

- The tree requirement is captured under the Advisory Conditions section of the Conditions of Approval and full landscape plans are not reviewed for low density residential development.
- Drainage is not reviewed as part of the Development Permit approval. The applicant, builder and owner are responsible to ensure that the parcel drains properly. There were no indications or red flags on the plans that the drainage would be a concern.

---

## Comments on Relevant City Policies

---

### North Hill Communities Local Area Plan

#### Guidelines

##### General

2. Development should draw design reference from nearby heritage assets within the applicable Heritage Guideline Area.

##### Site and Landscape Design

3. Notwithstanding the minimum Land Use Bylaw setback, front yard setbacks should be informed by the existing heritage assets on the block.
4. Development should provide well-defined and direct pathway connections from front doors to the sidewalk and public realm.
5. Where a public boulevard with canopy trees is not present, landscaping should include at least one deciduous tree in the front setback area or within the boulevard, where feasible, that will contribute to a mature tree canopy.

##### Roofs and Massing

6. Roof styles should be informed by and complement the heritage assets in the area.
7. Flat roofs are strongly discouraged where visible from the street.
8. The primary roofline visible from the street should have a minimum pitch of 6:12.
9. Where new development is larger than nearby heritage assets, the visual impact of upper storeys of buildings should be reduced by employing design measures such as:
  - a. The use of compound roofs (e.g., cross-gabled) to hide the upper storey;
  - b. Shifting massing away from smaller-scale buildings; or
  - c. Reduced building massing on upper storeys
10. Developments with more than one unit should have distinct rooflines that accentuate individual units.
11. Buildings with a front façade width exceeding 12 metres or a height exceeding two storeys are encouraged to mitigate their visual impact through variations in:
  - a. massing;
  - b. rooflines; or
  - c. materials.

## The City of Calgary

Planning and Development

Development and Subdivision Application Services

### Front Facades

12. Development should provide a front projection on the main floor that may be covered or enclosed and that comprises at least a third of the width of the front main floor façade for each unit visible from the street. This front projection could include elements such as:

- a. porches;
- b. patios;
- c. verandas; or
- d. sunrooms.

13. Front facades should reference the vertical and horizontal pattern of the streetscape, specifically existing heritage assets on the block.

### Windows, Materials and Details

14. Large uninterrupted floor-to-ceiling windows are discouraged.

15. Horizontal window openings are encouraged to be divided into groupings of smaller vertically oriented windows.

16. Windows are encouraged to include wide casings or frames.

17. The use of natural or natural-looking building materials is encouraged.

18. Where multiple building materials are used, heavier looking materials (e.g., masonry or masonry veneer) should be used on the base of the building.

### Low Density Residential Housing Guidelines for Established Communities (Infill Guidelines):

- **4.2 Context**

New development should be designed in a manner which is responsive to the local context.

- **4.3 Parcel Layout**

The setbacks of new development should respect the established street pattern.

One side setback should be kept clear in order to provide an unobstructed exterior access from the front to the rear of the house.

The rear setback area, in addition to being the garage and/or other accessory building location, is an important amenity space that should allow for outdoor activity and maintain the pattern of rear amenity space typical of the surrounding community.

Two on-site parking spaces should be provided to each new dwelling unit.

- **4.4 Building Mass**

New development should respect the existing scale and massing of its immediate surroundings.

- **4.5 Privacy**

The privacy of adjacent residences should be respected.

The principal entry should be clearly identifiable from the street and located in a manner which respects the privacy of the neighbours.

**The proposed infill development complies with the "Low Density Residential Housing Guidelines for Established Communities" and "North Hill Communities"**

## The City of Calgary

Planning and Development

Development and Subdivision Application Services

Local Area Plan” by adhering to principles of appropriate height, massing, aesthetics, and parcel siting. The design respects privacy by carefully positioning windows to avoid direct sightlines into adjacent properties, and the building’s height and massing are consistent with the zoning regulations, ensuring it does not overwhelm the streetscape. The siting of the structure maintains appropriate setbacks, ensuring it integrates harmoniously with the existing homes while allowing for modern updates that reflect evolving community needs. This balance of scale and sensitivity aligns with the intent of the guidelines to encourage contemporary development while preserving the established character of the neighbourhood.

### Land Use Bylaw 1P2007:

The existing land use for the site is Residential – Grade-Oriented Infill (R-CG). The R-CG district is intended to accommodate existing residential development, a wide range of grade-oriented development, Secondary Suites and Backyard Suites with new and existing residential development, and site and building design that is adaptable to the functional requirements of evolving household needs.

A Bylaw check of the proposed development identified one discrepancy which is highlighted in the chart below. This discrepancy does not interfere with the amenities of the neighbourhood or negatively affect the use, enjoyment, or value of neighbouring parcels of land. The proposed development meets the intent of the land use district.

| Bylaw Discrepancies               |  |   |
|-----------------------------------|--|---|
| Regulation                        | Standard   | Provided  |
| 535 Building Depth and Separation | (1) Unless otherwise referenced in subsections (2) and (3) the maximum building depth is 65.0% of the parcel depth for a building containing a unit. | Plans indicate a building depth of 32.47m (+8.67m) or 88.80% (+23.80%) of the parcel depth. |

## Planning Review

During the review, the Development Authority considered the Land Use Bylaw rules and the appropriateness of the proposed development in the context of the neighbourhood.

A relaxation is required for a building depth of 32.5 metres, exceeding the permitted maximum of 23.8 metres. This increased depth is due to a rear-attached garage and breezeway, which extend the building footprint. However, the massing of these rear elements is minimal and will not adversely affect adjacent properties or the surrounding neighbourhood. Importantly, the main two-storey portion of the building maintains a rear setback that is consistent with comparable developments on the block, ensuring compatibility with the existing streetscape. The relaxation is supported by the Development Authority.

The Development Authority has determined that the proposal is in keeping with the character of the surrounding area. Since the relaxation will have minimal impact upon

## The City of Calgary

Planning and Development

Development and Subdivision Application Services

the adjacent properties, the proposed development respects the intent of the Low Density Residential Housing Guidelines, the North Hill Communities Local Area Plan, and Land Use Bylaw 1P2007.

## Site Contamination Statement

Application # \_\_\_\_\_  
for office use only

Site Address: 114 7 Ave NW, Calgary, AB T2M 0A2

Legal Description: Plan:4456R;Block:30;Lot:25-26

The information provided in this disclosure statement will assist the Development, Land Use and Subdivision Authorities in processing planning applications. The Authorities rely on the information provided in this statement to assist in determining the potential for site contamination, which may have been caused by current or historic activities.

You are responsible for the accuracy of the information provided in this statement. The questions must be answered to the best of your knowledge based upon diligent inquiry and the thorough inspection and review of all documents and other information pertaining to the subject property.

**Please be aware that further site assessments may be required as part of the review of your application.**

1. Are you aware of any environmental investigations (audits, assessments, tests, surveys or studies) for this site?

☐ Yes ☐ No

If yes, please provide copy(s).

2. Are you aware of any environmental requirements associated with any previous planning applications on this site?  
(i.e. development permit, land use redesign or subdivision)

☐ Yes ☐ No

If yes please provided a brief description and the associated development application number(s):

3. Has there been site remediation or a request for such on the site?

☐ Yes ☐ No

If yes, please provide a brief description:

4. Are you aware of any regulatory actions, past or current, which have been applied to this site?

☐ Yes ☐ No

Examples include (but are not limited to):

- Environmental Protection Orders
- Reclamation Orders or Certificates
- Control / Stop Orders, fines, tickets or prosecutions
- Violations of environmental statutes, regulations and bylaws
- Administrative penalties and warning letters

If yes, please describe and provide copies of relevant documents:

5. Have any permits been issued or are you currently operating under a license or approval issued by federal or provincial authorities or the Calgary Fire Department for activities which may impact the property?  
(e.g. certificates of approval, storage tank regulations, plant operating permits)

☐ Yes ☐ No

If yes, please describe:

6. Has there been contact with Alberta Environment or Calgary Regional Health Authority regarding possible contamination on the site?

☐ Yes ☐ No

If yes, please provided a brief description:

**NOTE:** This form is to be signed by the titled owner(s) of the property or their authorized agents or consultants.

***I, the ☐ owner, ☐ authorized agent, ☐ authorized consultant, state that, to the best of my knowledge, the information provided in this statement is accurate, complete and is based on diligent inquiry and thorough inspection and review of all the documents and other information reasonably available pertaining to the subject property. I am not aware of any other information that may indicate that the subject property is potentially contaminated.***

**FOIP DISCLAIMER:** The personal information on this form is being collected under the authority of The Freedom of Information and Protection of Privacy (FOIP) Act, Section 33(c). It will be used to provide operating programs, account services and to process payments received for said services. It may also be used to conduct ongoing evaluations of services received from Planning, Development & Assessment. Please send inquiries by mail to the FOIP Program Administrator, Planning, Development & Assessment, PO Box 2100, Station M, Calgary, AB T2P 2M5 or contact us by phone at 311.

## Public Tree Disclosure Statement

The City of Calgary Street Bylaw (20M88) and the Tree Protection Bylaw (23M2002) protect trees growing on City (public) land. An approved Tree Protection Plan is required when construction activities occur within 6m of a public tree. More information regarding protecting trees during construction and development is found here. Public trees are required to be shown on plans submitted for this application.

- 
1. Are there public trees on the City lands within six meters of and/or overhanging the development site? Yes    No

**If you answered yes, ensure all trees identified are shown on the submitted plans.**

Note: if you are not sure how to determine which trees are yours and which are public, you can:

- a. Use the [City's tree map](#) (may not be up to date for your property)
- b. Contact 3-1-1 to put in a "development tree inquiry" to get confirmation from an Urban Forester
- c. Send inquiries to [tree.protection@calgary.ca](mailto:tree.protection@calgary.ca)

2. Who will be submitting the Tree Protection Plan for this development?

Applicant      Owner      Builder      Other:

If Other:      Name: \_\_\_\_\_ Phone: \_\_\_\_\_  
 Email: \_\_\_\_\_

The Tree Protection Plan must be submitted directly to Urban Forestry at [tree.protection@Calgary.ca](mailto:tree.protection@Calgary.ca) following the [Tree Protection Plan Guidelines](#).

---

**FOIP DISCLAIMER:** The personal information on this form is being collected under the authority of The Freedom of Information and Protection of Privacy (FOIP) Act, Section 33(c). It will be used to provide operating programs, account services and to process payments received for said services. It may also be used to conduct ongoing evaluations of services received from Planning, Development & Assessment. Please send inquiries by mail to the FOIP Program Administrator, Planning, Development & Assessment, PO Box 2100, Station M, Calgary, AB T2P 2M5 or contact us by phone at 311.

## Abandoned Well Declaration

Application # \_\_\_\_\_  
for office use only

Site Address: 114 7 Ave NW, Calgary, AB T2M 0A2

Legal Description: Plan:4456R;Block:30;Lot:25-26

The *Municipal Government Act's Subdivision and Development Regulations (Alberta Regulation 160/2012)* requires developers to identify abandoned oil and gas wells and, where present, to comply with setback requirements as identified in the Energy Resources Conservation Board (ERCB) [Directive 079: Surface Development in Proximity to Abandoned Wells](#).

You are responsible for the accuracy of the information provided in this statement. The questions must be answered to the best of your knowledge based upon diligent inquiries and a thorough inspection and review.

1. Provide a map of the subject parcel showing the presence or absence of abandoned wells.

- [User Guide to Finding Abandoned Wells on GeoDiscover Alberta's Map Viewer](#)
- [Abandoned Well Locations on GeoDiscover Alberta's Map Viewer](#)

**NOTE:** The map must show the actual well location, as identified in the field, including the surface coordinates (available on the Abandoned Well Map Viewer or by contacting the ERCB Customer Contact Centre at 1-855-297-8311) and the 5 metre setback established in [ERCB Directive 079](#) in relation to existing or proposed building sites.

2. Are there abandoned Oil/Gas wells located within 5 m of the site? ☐ Yes ☐ No  
**If you answered 'yes', please answer question 3 and include the well location(s) on the site plan.**
3. Have you contacted the licensee of the well(s) to confirm the exact location? ☐ Yes ☐ No  
**If you answered 'yes', you must have written confirmation included with your application.**

Licensee Company Name \_\_\_\_\_ Licensee Contact \_\_\_\_\_

**NOTE:** Where a well is identified, the Development Authority must refer a copy of the application to the Licensee(s) of Record. The referral will include the applicant's contact information.

4. Who is submitting the Abandoned Well Declaration for this development?

☐ Applicant ☐ Owner ☐ Builder ☐ Other \_\_\_\_\_

Company Name \_\_\_\_\_ Contact Person \_\_\_\_\_

Address \_\_\_\_\_

Phone \_\_\_\_\_

5. Will the development result in construction activity within the setback area?

☐ Yes ☐ No

If you answered 'yes':

- Provide a statement confirming that the abandoned wells will be temporarily marked with on-site identification to prevent contact during construction; and
- Describe what measures will be taken to prevent contact during construction.

**NOTE:** This form is to be signed by the titled owner(s) of the property or their authorized agents or consultants.

***I, the ☐ owner, ☐ authorized agent, ☐ authorized consultant, state that, to the best of my knowledge, the information provided in this statement is accurate, complete and is based on diligent inquiry and thorough inspection and review of all the documents and other information reasonably available pertaining to the subject property.***

JOHN TRINH & ASSOCIATES

Dear Applicant:

**RE: Detailed Review (DR)**

**Development Permit Number: DP2024-08233**

Based on the plans received, your application has been reviewed in order to determine compliance with the Land Use Bylaw and applicable City policies. Any variance from the Land Use Bylaw or City policies may require further discussion or revision prior to a decision being rendered.

The City endeavors to render decisions on applications within specific service standards. Please assist us in meeting these targets by ensuring your resubmission is complete and made in a timely manner. Please submit a digital set of the amended plan, in PDF format, along with a detailed response letter on how each of the Prior to Decision and/or Prior to Release conditions have been addressed and/or resolved.

This information must be received, in its entirety, no later than March 1, 2025. If a complete submission is not received by this date, the development permit may be inactivated and subject to a reactivation fee. If the development permit application is not reactivated, it may be cancelled by Administration as per Land Use Bylaw 1P2007, Section 41.1. If you require additional time to respond to the conditions outlined in this Detailed Review document, please let me know by contacting me.

Should you have any questions or concerns, please contact me at 403-333-5407 or by email at [daniel.bronson@calgary.ca](mailto:daniel.bronson@calgary.ca).

Sincerely,

**DANIEL BRONSON**

Senior Planning Technician

## General Comments

---

The proposed development is generally supported; however, several revisions will be necessary to secure approval. Notably, the Enmax conflict will likely require a significant redesign. Please contact Enmax directly for further details if necessary (see below).

The application was posted for public notice, and the following feedback was received from the Community Association and nearby residents:

- “Overall exterior colour scheme is boring. The two houses should be staggered at the front, to allow for some variability. It would be nice to break up the monotony of the entire east, west and north walls.”
- The site is located within a heritage district and does not fully comply with all relevant policies.

Please revise the design to ensure greater alignment with the applicable heritage guidelines and bylaws (see details below).

## Comments on Relevant City Policies

---

### North Hill Communities Local Area Plan

#### Guidelines

Track your application on-line with VISTA. Go to: [www.calgary.ca/vista](http://www.calgary.ca/vista) and enter your JOB ACCESS CODE (JAC) from the application form or call Planning Services Counter at (403) 268-5311.

## General

2. Development should draw design reference from nearby heritage assets within the applicable Heritage Guideline Area.

## Site and Landscape Design

3. Notwithstanding the minimum Land Use Bylaw setback, front yard setbacks should be informed by the existing heritage assets on the block.

Complies with policy.

4. Development should provide well-defined and direct pathway connections from front doors to the sidewalk and public realm.

Complies with policy.

5. Where a public boulevard with canopy trees is not present, landscaping should include at least one deciduous tree in the front setback area or within the boulevard, where feasible, that will contribute to a mature tree canopy.

Not required to be shown on development permit drawings.

## Roofs and Massing

6. Roof styles should be informed by and complement the heritage assets in the area.

Complies with policy.

7. Flat roofs are strongly discouraged where visible from the street.

Complies with policy.

8. The primary roofline visible from the street should have a minimum pitch of 6:12.

Complies with policy.

9. Where new development is larger than nearby heritage assets, the visual impact of upper storeys of buildings should be reduced by employing design measures such as:

- a. The use of compound roofs (e.g., cross-gabled) to hide the upper storey;
- b. Shifting massing away from smaller-scale buildings; or
- c. Reduced building massing on upper storeys

Complies with policy.

## Front Facades

12. Development should provide a front projection on the main floor that may be covered or enclosed and that comprises at least a third of the width of the front main floor façade for each unit visible from the street. This front projection could include elements such as:

- a. porches;
- b. patios;
- c. verandas; or
- d. sunrooms.

A façade projection is provided; however, the policy could be better met with inclusion of a porch, veranda, or sunroom.

13. Front facades should reference the vertical and horizontal pattern of the streetscape, specifically existing heritage assets on the block.

Complies with policy.

Windows, Materials and Details

14. Large uninterrupted floor-to-ceiling windows are discouraged.

Floor-to-ceiling windows are included in the design; however they are not excessive. They do not span the entire façade.

15. Horizontal window openings are encouraged to be divided into groupings of smaller vertically oriented windows.

Complies with policy.

16. Windows are encouraged to include wide casings or frames.

Windows do not include wide casings or frames. Recommended to add these elements to better match the heritage assets in the neighbourhood.

17. The use of natural or natural-looking building materials is encouraged.

The materials themselves comply, but the colour scheme of the materials is not natural (black and white). Please modify the colour scheme to better match the heritage assets in the neighbourhood.

18. Where multiple building materials are used, heavier looking materials (e.g., masonry or masonry veneer) should be used on the base of the building.

It is recommended to concentrate the heavier brick elements around the main floor/base of the building rather than extending them to the second storey.

| Bylaw Discrepancies               |  |   |
|-----------------------------------|--|---|
| Regulation                        | Standard   | Provided  |
| 535 Building Depth and Separation | (1) Unless otherwise referenced in subsections (2) and (3) the maximum building depth is 65.0% of the parcel depth for a building containing a unit.   | Plans indicate a building depth of 32.62m (+8.82m) or 89.21% (+24.21%) of the parcel depth.<br><br>Relaxation supported.            |
| 534 Parcel Coverage               | (2) Unless otherwise referenced in subsection (3), the maximum cumulative building coverage over all the parcels subject to a single development permit containing a Contextual Semi-Detached Dwelling, Contextual Single Detached Dwelling, Cottage Housing Cluster, Rowhouse Building, Semi- | Plans indicate a parcel coverage of 45.18% (+0.18%) or 150.99m <sup>2</sup> (+0.60m <sup>2</sup> ).<br><br>Please reduce to comply. |

Track your application on-line with VISTA. Go to: [www.calgary.ca/vista](http://www.calgary.ca/vista) and enter your JOB ACCESS CODE (JAC) from the application form or call Planning Services Counter at (403) 268-5311.

|  |   |  |
|--|---|--|
|  | Detached Dwelling, Single Detached Dwelling or Townhouse is:<br>(a) 45.0% of the area of the parcels subject to a single development permit for a development with a density of less than 40 units per hectare; |  |
|--|---|--|

## Prior to Decision Requirements

---

The following issues must be addressed by the Applicant through a written submission and amended plans prior to a decision by the Approving Authority:

### Planning

1. Upload a complete set of the amended plans in PDF format, into the ePermit system. The submitted plans must address the requirements listed in this document. Ensure that all plans affected by the revisions are amended accordingly, including all issues outlined in the Bylaw Discrepancies and Relevant City Policies.
2. Submit a letter from ENMAX Corporation, and any associated plans, indicating that the conflicts, noted above/attached, have been addressed. If you have questions regarding the conflicts, please contact the ENMAX Representative indicated in the letter above/attached.

ENMAX Power Corporation  
141 – 50 Avenue SE  
Calgary, AB T2G 4S7  
Tel (403) 514-3000  
enmax.com

December 12, 2024

**File No: DP2024-08233**

Development Circulation (#8201)

Location: **114 7 AV NW**

We would like to advise you that the proposed development does not meet "Alberta Electrical Utility Code" under the Alberta Safety Codes Act and/or ENMAX Power Corporation requirements.

We have identified the following conflict:

**The proposed development conflicts with the existing ENMAX power line on the east side of the property. Please see attached "ELEVATIONS – FRONT & REAR" for detailed clearance violations.**

**Please contact Will Du at [wdu@enmax.com](mailto:wdu@enmax.com) at (403) 689 - 4736 to further discuss resolution options for this conflict.**

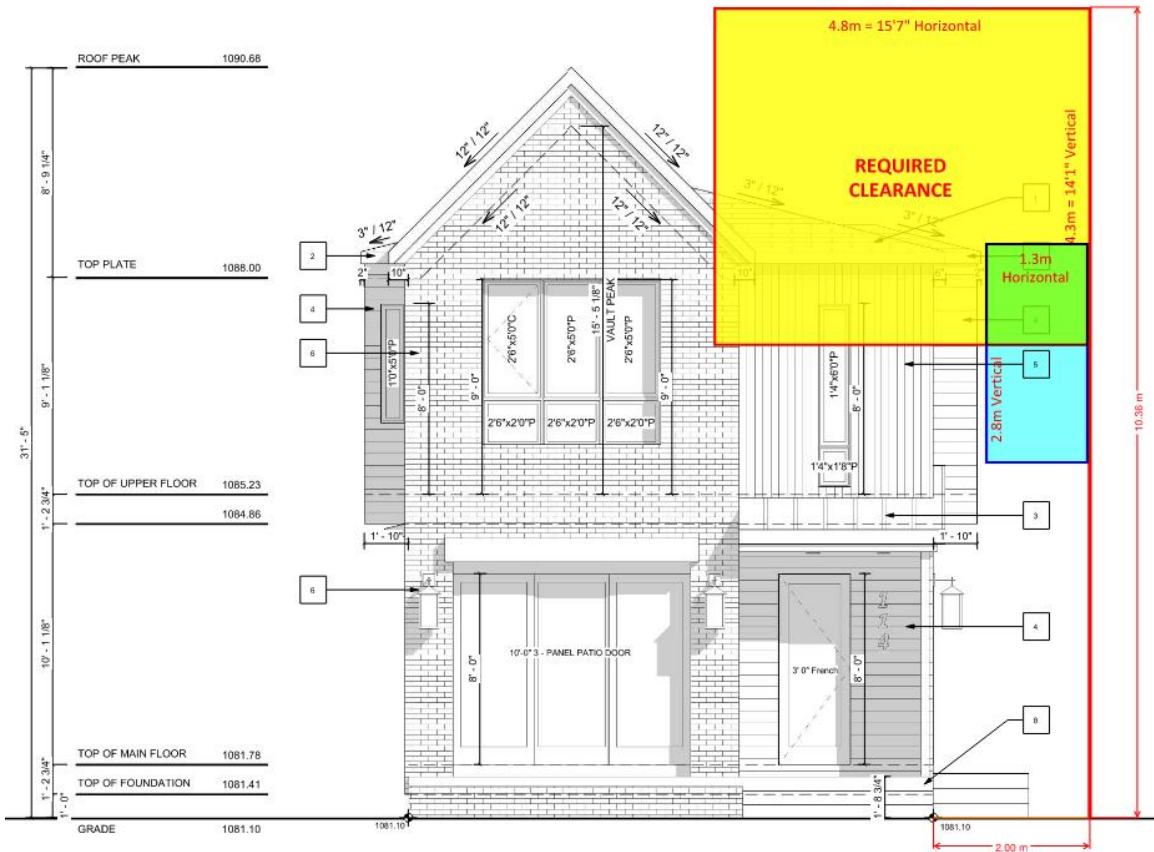

Until the above noted safety concerns are adequately addressed, this Development permit is not acceptable to ENMAX Power Corporation. Please contact the Project administrator at [EPC\\_Permits@enmax.com](mailto:EPC_Permits@enmax.com) if you have any further concerns, or require additional information regarding this Development Permit.

Sincerely,

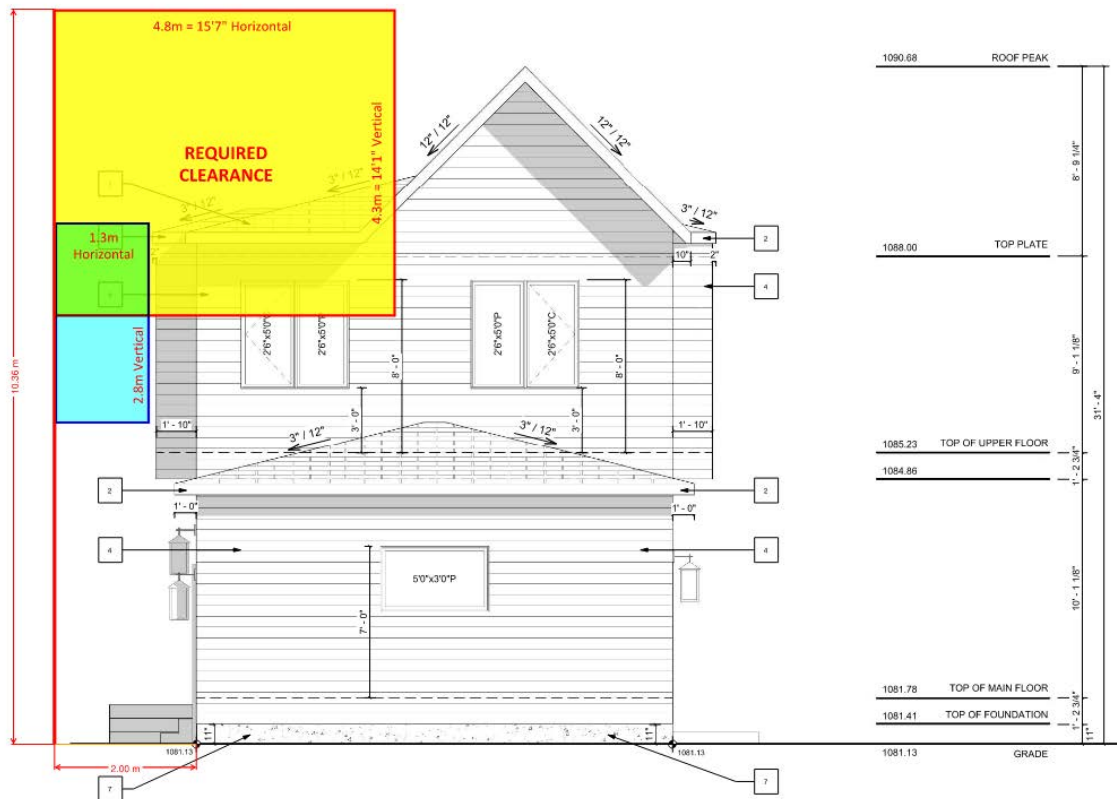

A handwritten signature in dark ink, appearing to be "W Du", written in a cursive style.

Will Du, P.Eng  
Distribution Engineering

## General Comments

The proposed development is generally supported; however, several revisions will be necessary to secure approval. Notably, the Enmax conflict will likely require a significant redesign. Please contact Enmax directly for further details if necessary (see below).

The application was posted for public notice, and the following feedback was received from the Community Association and nearby residents:

- “Overall exterior colour scheme is boring. The two houses should be staggered at the front, to allow for some variability. It would be nice to break up the monotony of the entire east, west and north walls.”
- The site is located within a heritage district and does not fully comply with all relevant policies.

Please revise the design to ensure greater alignment with the applicable heritage guidelines and bylaws (see details below).

## Comments on Relevant City Policies

### North Hill Communities Local Area Plan

Guidelines

Track your application on-line with VISTA. Go to: [www.calgary.ca/vista](http://www.calgary.ca/vista) and enter your JOB ACCESS CODE (JAC) from the application form or call Planning Services Counter at (403) 268-5311.

## General

2. Development should draw design reference from nearby heritage assets within the applicable Heritage Guideline Area.

## Site and Landscape Design

3. Notwithstanding the minimum Land Use Bylaw setback, front yard setbacks should be informed by the existing heritage assets on the block.

Complies with policy.

4. Development should provide well-defined and direct pathway connections from front doors to the sidewalk and public realm.

Complies with policy.

5. Where a public boulevard with canopy trees is not present, landscaping should include at least one deciduous tree in the front setback area or within the boulevard, where feasible, that will contribute to a mature tree canopy.

Not required to be shown on development permit drawings.

## Roofs and Massing

6. Roof styles should be informed by and complement the heritage assets in the area.

Complies with policy.

7. Flat roofs are strongly discouraged where visible from the street.

Complies with policy.

8. The primary roofline visible from the street should have a minimum pitch of 6:12.

Complies with policy.

9. Where new development is larger than nearby heritage assets, the visual impact of upper storeys of buildings should be reduced by employing design measures such as:

- a. The use of compound roofs (e.g., cross-gabled) to hide the upper storey;
- b. Shifting massing away from smaller-scale buildings; or
- c. Reduced building massing on upper storeys

Complies with policy.

## Front Facades

12. Development should provide a front projection on the main floor that may be covered or enclosed and that comprises at least a third of the width of the front main floor façade for each unit visible from the street. This front projection could include elements such as:

- a. porches;
- b. patios;
- c. verandas; or
- d. sunrooms.

A façade projection is provided; however, the policy could be better met with inclusion of a porch, veranda, or sunroom.

13. Front facades should reference the vertical and horizontal pattern of the streetscape, specifically existing heritage assets on the block.

Complies with policy.

#### Windows, Materials and Details

14. Large uninterrupted floor-to-ceiling windows are discouraged.

Floor-to-ceiling windows are included in the design; however they are not excessive. They do not span the entire façade.

15. Horizontal window openings are encouraged to be divided into groupings of smaller vertically oriented windows.

Complies with policy.

16. Windows are encouraged to include wide casings or frames.

Windows do not include wide casings or frames. Recommended to add these elements to better match the heritage assets in the neighbourhood. We have wide trim on top of the patio doors. We like a cleaner look so the brick can shine.

17. The use of natural or natural-looking building materials is encouraged.

The materials themselves comply, but the colour scheme of the materials is not natural (black and white). Please modify the colour scheme to better match the heritage assets in the neighbourhood. We have changed the white brick to a more natural red/brown color.

18. Where multiple building materials are used, heavier looking materials (e.g., masonry or masonry veneer) should be used on the base of the building.

It is recommended to concentrate the heavier brick elements around the main floor/base of the building rather than extending them to the second storey. We have met a lot of heritage policies although not all we feel as if this design fits the context of the neighborhood. Thank you for taking the time to comment and provide suggestions. We hope the changes we made can satisfy the requirements of North Hill LAP.

Development Circulation (#8201)

Location: **114 7 AV NW**

We would like to advise you that the proposed development does not meet "Alberta Electrical Utility Code" under the Alberta Safety Codes Act and/or ENMAX Power Corporation requirements.

We have identified the following conflict:

**The proposed development conflicts with the existing ENMAX power line on the east side of the property. Please see attached "ELEVATIONS – FRONT & REAR" for detailed clearance violations.**

**Please contact Will Du at [wdu@enmax.com](mailto:wdu@enmax.com) at (403) 689 - 4736 to further discuss resolution options for this conflict.**

Until the above noted safety concerns are adequately addressed, this Development permit is not acceptable to ENMAX Power Corporation. Please contact the Project administrator at [EPC\\_Permits@enmax.com](mailto:EPC_Permits@enmax.com) if you have any further concerns, or require additional information regarding this Development Permit.

Sincerely,

A handwritten signature in black ink, appearing to be "W Du", written in a cursive style.

Will Du, P.Eng  
Distribution Engineering

|---|------------|---|-------------------|-----|-----|-----|
| Section / Use                           | Type       | Requirements  | Evaluation        |     |     |     |
| 153.1 Backyard Suite                    | Compulsory | (iii) is located in a detached building located behind the front façade of the main residential building;   | C                 | N/C | N/A | N/I |
|   |            | (vi) Must not be located on the same parcel or bare land unit as either a Rowhouse Building or a Townhouse use;   | C                 | N/C | N/A | N/I |
| 170.2 Contextual Semi-detached Dwelling | Compulsory | (i) contains two Dwelling Units located side by side and separated by a common party wall extending from foundation to roof;  | C                 | N/C | N/A | N/I |
| 187 Duplex Dwelling                     | Compulsory | (a) means a building which contains two Dwelling Units, one located above the other, with each having a separate entrance;  | C                 | N/C | N/A | N/I |
| 287 Rowhouse                            | Compulsory | (i) contains three or more Dwelling Units, located side by side and separated by common party walls extending from foundation to roof;                                      | C                 | N/C | N/A | N/I |
|   |            | (ii) where one façade of each Dwelling Unit directly faces a public street;   | C                 | N/C | N/A | N/I |
|   |            | (iii) where no intervening building is located between the street facing façade of each Dwelling Unit and the adjacent public street;                                       | C                 | N/C | N/A | N/I |
|   |            | (iv) where each Dwelling Unit has a separate direct entry from grade to an adjacent public sidewalk or an adjacent public street;   | C                 | N/C | N/A | N/I |
|   |            | (v) where no Dwelling Unit is located wholly or partially above another Dwelling Unit; and  | C                 | N/C | N/A | N/I |
|   |            | (vi) may contain a Secondary Suite within a Dwelling Unit in a district where a Secondary Suite is a listed use and conforms with the rules of the district;                | C                 | N/C | N/A | N/I |
| 295 Secondary Suite                     | Compulsory | (i) contains two or more rooms used or designed to be used as a residence by one or more persons;   | C                 | N/C | N/A | N/I |
|   |            | (ii) contains a kitchen, living, sleeping and sanitary facilities;  | C                 | N/C | N/A | N/I |
|   |            | (iii) is self-contained and located within a Dwelling Unit;   | C                 | N/C | N/A | N/I |
|   |            | (iv) must not be located in a Dwelling Unit where another Dwelling Unit is located wholly or partially above or below the Dwelling Unit containing the Secondary Suite; and | C                 | N/C | N/A | N/I |
|   |            | (v) is considered part of and secondary to a Dwelling Unit;   | C                 | N/C | N/A | N/I |
| 297 Semi-Detached Dwelling              | Compulsory | (a) means a use where a building contains two Dwelling Units located side by side and separated by a common party wall extending from foundation to roof;                   | C                 | N/C | N/A | N/I |
| 319 Townhouse                           | Compulsory | (i) comprising three or more Dwelling Units;  | C                 | N/C | N/A | N/I |
|   |            | (ii) where each Dwelling Unit has a separate direct entry from grade;   | C                 | N/C | N/A | N/I |
|   |            | (iii) where no Dwelling Unit is located wholly or partially above another Dwelling Unit; and  | C                 | N/C | N/A | N/I |
|   |            | (iv) that does not include a Rowhouse Building;   | C                 | N/C | N/C | N/I |

|   | property line   |  |   |                |                       |                   |  |

|  |  |  |  |       |                |        |                |       |
|--|--|--|--|-------|----------------|--------|----------------|-------|
| 339.1 Porches<br>(must meet all requirements to be exempt) | In a Developed Area, a porch is exempt from parcel coverage where:   | (a) the porch is located between the façade of the main residential building and:  | (i) the front property line, or                                    |       | C              | N/C    | N/A            | N/I   |
|  |  |  | (ii) the side property line on the street side of a corner parcel; |       | C              | N/C    | N/A            | N/I   |
|  |  | (b) the porch is unenclosed on a minimum of two sides, other than by a railing, balustrade, or privacy walls located on porches between attached units when the porch is at or exceeds the contextual front setback; and |  |       | C              | N/C    | N/A            | N/I   |
|  |  | (c) there is no enclosed floor area or balcony located directly above the roof of the porch.   |  |       | C              | N/C    | N/A            | N/I   |
| 534 Parcel Coverage  | (2) Unless otherwise referenced in subsection (3), the maximum cumulative building coverage over all the parcels subject to a single development permit containing a Contextual Semi-Detached Dwelling, Contextual Single Detached Dwelling, Cottage Housing Cluster, Rowhouse Building, Semi-Detached Dwelling, Single Detached Dwelling or Townhouse is: | (a) 45.0% of the area of the parcels subject to a single development permit for a development with a density of less than 40 units per hectare;  |  |       | Applies        |        | Does Not Apply |       |
|  |  | (b) 50.0% of the area of the parcels subject to a single development permit for a development with a density 40 units per hectare or greater and less than 50 units per hectare;   |  |       | Applies        |        | Does Not Apply |       |
|  |  | (c) 55.0% of the area of the parcels subject to a single development permit for a development with a density of 50 units per hectare or greater and less than 60 units per hectare; or                                   |  |       | Applies        |        | Does Not Apply |       |
|  |  | (d) 60.0% of the area of the parcels subject to a single development permit for a development with a density of 60 units per hectare or greater.   |  |       | Applies        |        | Does Not Apply |       |
|  | (3) The maximum parcel coverage referenced in subsections (1) and (2), must be reduced by:   | (a) 21.0m <sup>2</sup> where one motor vehicle parking stall is required on a parcel that is not located in a private garage; and  |  |       | Applies        |        | Does Not Apply |       |
|  |  | (b) 19.0m <sup>2</sup> for each required motor vehicle parking stall that is not located in a private garage where more than one motor vehicle parking stall is required on a parcel.                                    |  |       | Applies        |        | Does Not Apply |       |
|  | (4) For all other uses, the maximum parcel coverage is 45.0%   |  |  |       | Applies        |        | Does Not Apply |       |
|  | Determine correct percentage of parcel coverage and input values below   |  |  |       | %              |        | %              |       |
|  | <div> <div>1</div> <div>334.20</div> <div>45.0%</div> </div> <div> <div>Number of Units</div> <div>Parcel Area (m<sup>2</sup>)</div> </div> <div>minus</div> <div> <div></div> <div>Required Stalls</div> </div> <div>=</div> <div> <div>150.39</div> <div>Max. Coverage</div> </div>  |  |  |       | 44.74%         |        | -0.26%         |       |
|  | Parcel Coverage Totals   |  |  |       | m <sup>2</sup> |        | m <sup>2</sup> |       |
|  | House  | Proj. > 1.0m   | Garage(s)  | Other | Total          |        |                |       |
|  | 146.85   | 2.66   |  |       | 149.51         | 149.51 |                | -0.88 |
| 347 Contextual Single Detached Dwelling                    | (6) Where a private garage is attached to a Contextual Single-Detached Dwelling the maximum building coverage is the maximum parcel coverage which must be reduced by 21m <sup>2</sup> for each required parking stall   |  |  |       | m <sup>2</sup> |        | m <sup>2</sup> |       |
|  | <div> <div>150.39</div> <div>Max. Coverage</div> </div> <div>minus</div> <div> <div>1</div> <div>Required Stalls</div> </div> <div>X 21m<sup>2</sup></div> <div>=</div> <div> <div>129.39</div> <div>Max. Coverage</div> </div>  |  |  |       | 149.51         |        | 20.12          |       |
|  | (5) Where a Contextual Single Detached Dwelling is located on a parcel with a parcel width greater than 10.0m, the maximum area of a horizontal cross section through each storey above the first storey must not exceed the building coverage   |  |  |       | Complies       |        |                |       |

| 153.1 Backyard Suite                    | Compulsory | (iii) is located in a detached building located behind the front façade of the main residential building;   | C                 | N/C | N/A | N/I |
|   |            | (vi) Must not be located on the same parcel or bare land unit as either a Rowhouse Building or a Townhouse use;   | C                 | N/C | N/A | N/I |
| 170.2 Contextual Semi-detached Dwelling | Compulsory | (i) contains two Dwelling Units located side by side and separated by a common party wall extending from foundation to roof;  | C                 | N/C | N/A | N/I |
| 187 Duplex Dwelling                     | Compulsory | (a) means a building which contains two Dwelling Units, one located above the other, with each having a separate entrance;  | C                 | N/C | N/A | N/I |
| 287 Rowhouse                            | Compulsory | (i) contains three or more Dwelling Units, located side by side and separated by common party walls extending from foundation to roof;                                      | C                 | N/C | N/A | N/I |
|   |            | (ii) where one façade of each Dwelling Unit directly faces a public street;   | C                 | N/C | N/A | N/I |
|   |            | (iii) where no intervening building is located between the street facing façade of each Dwelling Unit and the adjacent public street;                                       | C                 | N/C | N/A | N/I |
|   |            | (iv) where each Dwelling Unit has a separate direct entry from grade to an adjacent public sidewalk or an adjacent public street;   | C                 | N/C | N/A | N/I |
|   |            | (v) where no Dwelling Unit is located wholly or partially above another Dwelling Unit; and  | C                 | N/C | N/A | N/I |
|   |            | (vi) may contain a Secondary Suite within a Dwelling Unit in a district where a Secondary Suite is a listed use and conforms with the rules of the district;                | C                 | N/C | N/A | N/I |
| 295 Secondary Suite                     | Compulsory | (i) contains two or more rooms used or designed to be used as a residence by one or more persons;   | C                 | N/C | N/A | N/I |
|   |            | (ii) contains a kitchen, living, sleeping and sanitary facilities;  | C                 | N/C | N/A | N/I |
|   |            | (iii) is self-contained and located within a Dwelling Unit;   | C                 | N/C | N/A | N/I |
|   |            | (iv) must not be located in a Dwelling Unit where another Dwelling Unit is located wholly or partially above or below the Dwelling Unit containing the Secondary Suite; and | C                 | N/C | N/A | N/I |
|   |            | (v) is considered part of and secondary to a Dwelling Unit;   | C                 | N/C | N/A | N/I |
| 297 Semi-Detached Dwelling              | Compulsory | (a) means a use where a building contains two Dwelling Units located side by side and separated by a common party wall extending from foundation to roof;                   | C                 | N/C | N/A | N/I |
| 319 Townhouse                           | Compulsory | (i) comprising three or more Dwelling Units;  | C                 | N/C | N/A | N/I |
|   |            | (ii) where each Dwelling Unit has a separate direct entry from grade;   | C                 | N/C | N/A | N/I |
|   |            | (iii) where no Dwelling Unit is located wholly or partially above another Dwelling Unit; and  | C                 | N/C | N/A | N/I |
|   |            | (iv) that does not include a Rowhouse Building;   | C                 | N/C | N/C | N/I |

| 347 Contextual Single Detached Dwelling       | ( Front A 80.99 + Front B 80.80 ) / 2 = Front Average Building Reference Point  |  |   |  |       | 80.9              |        |     |            |     |
|   | ( Rear A 80.97 + Rear B 80.85 ) / 2 = Rear Average Building Reference Point   |  |   |  |       | 80.91             |        |     |            |     |
|   | (1) A Contextual Single Detached Dwelling:<br>(e) must not be located on a parcel where the difference between the average building reference points is greater than 2.4m; and      |  |   |  |       |                   |        |     |            |     |
|   | Difference between Front & Rear Average Building Reference Points =   |  |   |  |       | 0.01              | C      | N/C | N/A        | N/I |
| 537 Building Setback from Front Property line | The minimum building setback from a front property line is 3.0m   |  |   |  | South | 7.33              | 4.33   |     |            |     |
| 347 Contextual Single Detached Dwelling       | (1) A contextual Single Detached Dwelling   | (a) must have:   | (i) a portion of the front façade with an area less than or equal to 50% of the area of all front facades, recessed or projecting forward from the remaining façade that has a minimum dimension of:<br>(A) 2.0m in width;<br>(B) 0.6m in depth; and;<br>(C) 2.4m in height; or |  |       | C                 | N/C    | N/A | N/I        |     |
|   |   |  | (ii) a porch projecting from the front façade with a minimum dimension of:<br>(A) 2.0m in width; and<br>(B) 1.2m in depth   |  |       | C                 | N/C    | N/A | N/I        |     |
|   |   |  |   |  |       |                   |        |     |            |     |
|   |   |  |   |  |       |                   |        |     |            |     |
| 334 Projections into Setback Areas            | (3) Portions of a building below the surface of the ground may extend without any limits into a setback area, with the exception of the required front setback area.                |  |   |  |       | C                 | N/C    | N/A | N/I        |     |
| 336 Projections Into Front Setback Area       | (1) Unless otherwise referenced in subsection (6), bay windows and eaves may project a max. of 0.6 m into the front setback area.   |  |   |  |       | N/A               |        |     |            |     |
|   | (2) Landings, ramps other than wheelchair ramps and stairs may project into a front setback area provided:  | (a) they provide access to the main floor or lower level of the building; and  |   |  |       |                   |        |     |            |     |
|   |   | (b) the area of a landing does not exceed 2.5m²  |   |  |       |                   |        |     |            |     |
|   | (5) In a Developed Area, a porch may project a maximum of 1.8m into a front setback area where:   |  |   |  |       |                   |        |     |            |     |
|   | (a) it forms an entry to the main floor of a Dwelling Unit of a main residential building;  |  |   |  |       |                   |        |     |            |     |
|   |   | (b) the setback of the porch from the front property line is not less than the minimum setback in the district;                        |   |  |       |                   |        |     |            |     |
|   |   | (c) the maximum height of the porch platform is 1.2m measured from grade, excluding stairs and a landing area not exceeding 2.5m²; and |   |  |       |                   |        |     |            |     |
|   | (d) the portion of the porch that projects into a front setback area is unenclosed, other than by a railing, balustrade or privacy walls located on porches between attached units. |  |   |  |       |                   |        |     |            |     |
|   |   |  |   |  |       |                   |        |     |            |     |
|   |   |  |   |  |       |                   |        |     |            |     |

|   |  |  |   |         |                             |      |        |       |        |  |
|---|--|--|---|---------|-----------------------------|------|--------|-------|--------|--|
|   | (6) Eaves may project an additional 0.6m from a porch into the front setback area, as described in subsection (5).   |  |   |         |                             |      |        |       |        |  |
| 335 Length of Portions of a Building in Setback Areas (Front) | (1) On each storey, the total combined length of all projections into any setback area must not exceed 40% of the length of the façade<br><i>(Does not apply to decks , eaves, porches, ramps, and stairs)</i>   |  |   |         | PROVIDE LENGTH AND % VALUES | %    | Length | %     | Length |  |
|   | 1st st   |  |   | X 40% = |                             | N/A  |        |       |        |  |
|   | 2nd st   |  |   | X 40% = |                             |      |        |       |        |  |
|   | (2) The max. length of an individual projection into any setback area is 3.1m  |  |   |         |                             |      |        |       |        |  |
| 539 Building Setback from Side Property Line                  | (1) Subject to subsections (3) through (9), the minimum building setback from any side property line is 1.2m   |  |   |         | West                        | 1.22 |        | 0.02  |        |  |
|   |  |  |   |         | East                        | 1.22 |        | 0.02  |        |  |
|   |  |  |   |         |                             |      |        |       |        |  |
|   |  |  |   |         |                             |      |        |       |        |  |
|   | (2) Subject to subsections (3) through (7), for a laneless parcel, the minimum building setback from any side property line is:  |  | (a) 1.2m; or  |         |                             |      |        |       |        |  |
|   |  |  | (b) 3.0m on one side of the parcel when no provision is made for a private garage on the front or side of a building.   |         |                             |      |        |       |        |  |
|   | (3) There is no requirement for a building setback from a property line upon which a party wall is located.  |  |   |         |                             |      |        |       |        |  |
|   | (4) The minimum building setback from a side property line may be reduced to a zero setback where:   |  | (a) the owner of the parcel proposed for development and the owner of the adjacent parcel register, against both titles, a 1.2m private maintenance easement. |         |                             |      |        |       |        |  |
|   |  |  |   |         |                             |      |        |       |        |  |
|   | (5) The minimum building setback from a side property line may be reduced to a zero setback where the main residential building on the adjoining parcel has a zero setback.  |  |   |         |                             |      |        |       |        |  |
|   |  |  |   |         |                             |      |        |       |        |  |
|   | (6) For a corner parcel, the minimum building setback from a side property line shared with a street is 0.6m   |  |   |         |                             |      |        |       |        |  |
|   |  |  |   |         |                             |      |        |       |        |  |
|   | (7) The building setback from a side property line of 3.0m required in subsection 2(b) may be reduced to zero metres where the owner of the parcel proposed for development and the owner of the adjacent parcel registers, against both titles, a private access easement:  |  | (a) where the width of the easement, in combination with the reduced building setback, must be at least 3.0 metres;   |         |                             |      |        |       |        |  |
|   |  |  |   |         |                             |      |        |       |        |  |
|   |  |  | (b) that provides unrestricted vehicle access to the rear of the parcel.  |         |                             |      |        |       |        |  |
|   |  |  |   |         |                             |      |        |       |        |  |
|   | (8) Unless otherwise referenced in subsection (9), on a laned parcel the minimum building setback from a side property line for a private garage attached to a main residential building is 0.6m   |  |   |         |                             |      |        |       |        |  |
|   |  |  |   |         |                             |      |        |       |        |  |
|   | (9) On a laned parcel, the minimum building setback for a private garage attached to a main residential building that does not share a side or rear property line with a street may be reduced to zero metres where the wall of the portion of the building that contains the private garage is constructed of maintenance-free materials and there is no overhang of eaves onto an adjacent parcel. |  |   |         |                             |      |        |       |        |  |
|   |  |  |   |         |                             |      |        |       |        |  |
|   | (1.1) Portions of a building greater than or equal to 2.4m above grade may project a max of 0.6m into any side setback area.   |  |   |         | West - 2F Cant x 2          | 0.54 |        | -0.06 |        |  |
|   |  |  |   |         | East - 2F Cant x 2          | 0.54 |        | -0.06 |        |  |
|   |  |  |   |         |                             |      |        |       |        |  |
|   | (1.2) Portions of a building less than 2.4m above grade may project a maximum of 0.6m,   |  |   |         |                             |      |        |       |        |  |
|   |  |  |   |         |                             |      |        |       |        |  |
|   |  |  |   |         |                             |      |        |       |        |  |

|  |   |   |  |         |      |                             |       |      |        |       |        |
|--|---|---|--|---------|------|-----------------------------|-------|------|--------|-------|--------|
| 337 Projections Into Side Setback Area                               | (1.2) (b) for all other uses:   |   | (i) when located on a corner parcel;   |         |      |                             | N/A   |      |        |       |        |
|  |   |   | (ii) where at least one side setback area is clear of all portions of the building measured from grade to a height of 2.4m; or   |         |      |                             |       |      |        |       |        |
|  |   |   |  |         |      |                             |       |      |        |       |        |
|  |   |   | (iii) where the side setback area contains a private maintenance easement required by this Bylaw and no portion of the building projects into the required private maintenance easement. |         |      |                             |       |      |        |       |        |
|  |   |   |  |         |      |                             |       |      |        |       |        |
|  | (1.3) Window wells may project a maximum of 0.8m into any side setback area.  |   |  |         |      | West - WW x 2               |       | 0.74 | -0.06  |       |        |
|  |   |   |  |         |      | East - WW x 1               |       | 0.74 | -0.06  |       |        |
|  | (2) Window wells and portions of a building, other than eaves, must not project into a 3.0 metre setback required on a laneless parcel.   |   |  |         |      |                             | C     | N/C  | N/A    | N/I   |        |
|  | (3) Eaves may project a max. of 0.6m into any side setback area.  |   |  |         |      | West                        |       | 0.59 | -0.01  |       |        |
|  |   |   |  |         |      | East                        |       | 0.59 | -0.01  |       |        |
|  | (5) Landings, ramps other than wheelchair ramps and stairs may project in a side setback area provided:   |   | (a) they provide access to the main floor or lower level of the building;  |         |      |                             | N/A   |      |        |       |        |
|  |   |   | (b) the area of a landing does not exceed 2.5m <sup>2</sup>  |         |      |                             |       |      |        |       |        |
|  |   |   | (c) the area of any portion of a landing that projects into the side setback area does not exceed 1.8m <sup>2</sup>  |         |      |                             |       |      |        |       |        |
|  |   |   | (d) they are not located in a 3.0m side setback area required on a laneless parcel; and  |         |      |                             |       |      |        |       |        |
|  |   |   | (e) they are not located in a side setback area required to be clear of projections, unless pedestrian access from the front to the rear   |         |      |                             |       |      |        |       |        |
|  |   |   |  |         |      |                             |       |      |        |       |        |
|  | (10) Central air conditioning equipment may project a maximum of 1.0m into a side setback area:   |   |  |         |      |                             |       |      |        |       |        |
|  | (8) Any portion of a building that projects into a side setback area, other than eaves, landings, window wells, ramps and stairs, must not be located closer than 0.9m from the nearest front façade.           |   |  |         |      | Closest Portion             |       | 1.52 | 0.62   |       |        |
|  |   |   |  |         |      |                             |       |      |        |       |        |
| (9) Balconies and decks must not project into any side setback area; |   |   |  |         |      | C                           | N/C   | N/A  | N/I    |       |        |
|  |   |   |  |         |      |                             |       |      |        |       |        |
| 335 Length of Portions of a Building in Setback Areas (Side)         | (1) On each storey, the total combined length of all projections into any setback area must not exceed 40% of the length of the façade<br><i>(Does not apply to decks , eaves, porches, ramps, and stairs)</i>  |   |  |         |      | PROVIDE LENGTH AND % VALUES |       | %    | Length | %     | Length |
|  | 2nd st  | West  | 15.70  | X 40% = | 6.28 |                             | 30.06 | 4.72 | -9.94  | -1.56 |        |
|  | 2nd st  | East  | 15.70  | X 40% = | 6.28 |                             | 29.04 | 4.56 | -10.96 | -1.72 |        |
|  | __st  |   |  | X 40% = |      |                             |       |      |        |       |        |
|  | __st  |   |  | X 40% = |      |                             |       |      |        |       |        |
|  | (2) The max. length of an individual projection into any setback area is 3.1m<br><i>(Includes Window Wells)</i>   |   |  |         |      | Longest Projection          |       | 2.74 | -0.36  |       |        |
|  |   |   |  |         |      |                             |       |      |        |       |        |
| 540 Building Setback from Rear Property Line                         | (1) Unless otherwise referenced in subsection (2) the minimum building setback from a rear property line is 7.5m  |   |  |         |      |                             | N/A   |      |        |       |        |
|  |   |   |  |         |      |                             |       |      |        |       |        |
|  | (2) On a laned or corner parcel, the minimum building setback from a rear property line is 1.2m   |   |  |         |      | North                       |       | 3.96 | 2.76   |       |        |
|  |   |   |  |         |      |                             |       |      |        |       |        |
|  | (2) Awnings, balconies, bay windows, canopies, chimneys, decks, eaves, fireplaces, fire escapes, landings, porches, and ramps other than wheelchair ramps may project a max of 1.5m into any rear setback area. |   |  |         |      |                             |       |      |        |       |        |
|  |   |   |  |         |      |                             |       |      |        |       |        |
|  |   |   |  |         |      |                             |       |      |        |       |        |
|  |   |   |  |         |      |                             |       |      |        |       |        |
|  | (3) A private garage attached to a building   | (a) does not exceed 4.6m in height, measured from the finished floor of the private garage; |  |         |      |                             |       |      |        |       |        |
| (b) does not exceed 75.0m <sup>2</sup> in gross floor area for each  |   |   |  |         |      |                             |       |      |        |       |        |

|  |   |  |   |                             |         |         |        |     |        |
|--|---|--|---|-----------------------------|---------|---------|--------|-----|--------|
| 338 Projections Into Rear Setback Area                       | may project without limits into a rear setback area provided it:  |  | Dwelling Unit located on the parcel.  |                             |         | N/A     |        |     |        |
|  |   |  | (c) has no part that is located closer than 0.60m to the rear property line; and                      |                             |         |         |        |     |        |
|  |   |  | (d) has no eave closer than 0.6m to a side property line.   |                             |         |         |        |     |        |
|  | (4) When an attached private garage has a balcony or deck, the balcony or deck must not be located within 6.0 m of a rear property line or 1.2m of a side property line.                                      |  | Rear<br>Side<br>Side  |                             |         |         |        |     |        |
| 347 Contextual Single Detached Dwelling                      | (1) A contextual Single Detached Dwelling   | (b) must not have vehicular access from the lane to an attached private garage   |   |                             |         | C       | N/C    | N/A | N/I    |
|  |   |  |   |                             |         | Applies |        | N/A | N/I    |
|  |   | (c) must not have windows that are located beyond the rear façade of a main residential building on an adjoining parcel unless:            | (i) the window is located below the second storey;  |                             | Applies |         | N/A    | N/I |        |
|  |   |  | (ii) the window is located on the rear façade;  |                             | Applies |         | N/A    | N/I |        |
|  |   |  | (iii) the glass in the window is entirely obscured; or  |                             | C       | N/C     | N/A    | N/I |        |
|  |   |  | (iv) there is a minimum distance of 1.5m between the finished floor and the bottom of the window sill |                             | C       | N/C     | N/A    | N/I |        |
|  |   |  |   |                             |         |         |        |     |        |
|  |   |  |   |                             |         |         |        |     |        |
| 335 Length of Portions of a Building in Setback Areas (Rear) | (1) On each storey, the total combined length of all projections into any setback area must not exceed 40% of the length of the façade<br><i>(Does not apply to decks, eaves, porches, ramps, and stairs)</i> |  |   | PROVIDE LENGTH AND % VALUES |         | %       | Length | %   | Length |
|  | 1st st  |  |   | X 40% =                     |         | N/A     |        |     |        |
|  | 2nd st  |  |   | X 40% =                     |         |         |        |     |        |
|  | (2) The max. length of an individual projection into any setback area is 3.1m   |  |   |                             |         |         |        |     |        |
| 339 Decks  | (2) The height of a deck in the Developed Area must not exceed:   | (a) 1.5m above grade at any point, except where the deck is located on the same façade as the at-grade entrance to a walkout basement; and |   |                             | N/A     |         |        |     |        |
|  |   | (b) 0.3m above the main floor level of the closest main residential building on the parcel.  |   |                             |         |         |        |     |        |
|  | (2.1) Unless otherwise referenced in subsection (3), a privacy wall located on a deck:  | (a) must not exceed 2.0m in height when measured from the surface of the deck; and   |   |                             |         |         |        |     |        |
|  |   | (b) must not be located between the foremost front façade of the main residential building and the front property line.                    |   |                             |         |         |        |     |        |
|  |   |  |   |                             |         |         |        |     |        |
|  |   |  |   |                             |         |         |        |     |        |
| 340 Balconies  | (1) Unless otherwise referenced in this Part, an open balcony must not project more than 1.85m from the building façade to which it is attached.  |  |   |                             | N/A     |         |        |     |        |
|  | (2) Unless otherwise referenced in this Part, the floor area of a recessed balcony must not exceed 10.0m²   |  |   |                             |         |         |        |     |        |
|  | (2.1) Unless otherwise referenced in this Part, a privacy wall located on a balcony:  | (a) must not exceed 3.0m in height when measured from the surface of the balcony; and  |   |                             |         |         |        |     |        |
|  |   | (b) must not be located between the foremost front façade of the main residential building and front property line.                        |   |                             |         |         |        |     |        |
|  |   |  |   |                             |         |         |        |     |        |
|  |   |  |   |                             |         |         |        |     |        |
|  | (a) may have a balcony located on a side façade:  | (i) where it forms part of the front façade and is not recessed back more than 4.5m from the front façade; or                              |   |                             |         |         |        |     |        |
|  |   | (ii) where it is on the street side of a corner parcel   |   |                             |         |         |        |     |        |
|  |   |  |   |                             |         |         |        |     |        |
|  |   |  |   |                             |         |         |        |     |        |

|  |  |  |  |                           |                  |       |      |       |  |
|--|--|--|--|---------------------------|------------------|-------|------|-------|--|
| 347 Contextual Single Detached Dwelling  | (2) Unless otherwise referenced in this Part, a Contextual Single Detached Dwelling:   | (b) may have a balcony located on a rear façade where:   | (i) it does not form part of the side façade unless the side façade is on the street side of a corner parcel                       |                           | N/A              |       |      |       |  |
|  |  |  | (ii) a privacy wall is provided where the balcony is facing a side property line shared with a parcel; and                         |                           |                  |       |      |       |  |
|  |  |  | (iii) the privacy wall is a minimum of 2.0m in height and a maximum of 3.0m in height  |                           |                  |       |      |       |  |
|  |  | (c) must not have a balcony with a height greater than 6.0m, measured vertically at any point from grade to the platform of the balcony                          |  |                           |                  |       |      |       |  |
|  |  |  |  |                           |                  |       |      |       |  |
| 544 Balconies  | (1) Where a balcony is located on the roof of the first or second storey of a main residential building and does not overhang any façade of the storey below, the balcony may have a maximum floor area that equals 50.0 per cent of the horizontal cross section of the storey below. |  |  |                           | N/A              |       |      |       |  |
|  | Area of Storey Below Balcony (m²)  |  |  |                           |                  |       |      |       |  |
|  | (2) A balcony attached to a Contextual Single Detached Dwelling, Contextual Semi-detached Dwelling, or Rowhouse Building that is a permitted use:  | (a) may be located on a side façade of a building:   | (i) where it forms part of the front façade and is not recessed back more than 4.5m from the front façade; or                      |                           |                  |       |      |       |  |
|  |  |  | (ii) where it is on the street side of a corner parcel;  |                           |                  |       |      |       |  |
|  |  | (b) may be located on a rear façade of a building where:   | (i) it does not form part of the side façade unless the side façade is on the street side of a corner parcel;                      |                           |                  |       |      |       |  |
|  |  |  | (ii) a privacy wall is provided where the balcony is facing a side property line shared with a contextually adjacent building; and |                           |                  |       |      |       |  |
|  |  |  | (iii) the privacy wall is a minimum of 2.0m in height and a maximum of 3.0m in height; and   | Minimum                   |                  |       |      |       |  |
|  |  |  |  | Maximum                   |                  |       |      |       |  |
|  |  | (c) must not have a balcony on the rear façade with a height greater than 6.0m, when measured vertically at any point from grade to the platform of the balcony. |  |                           |                  |       |      |       |  |
|  |  |  |  |                           |                  |       |      |       |  |
|  |  |  |  |                           |                  |       |      |       |  |
|  | 541 Building Height  | (1) Unless otherwise referenced in subsections (2), (3) and (4), the maximum building height is 11.0m measured from grade.                                       |  |                           |                  | Front | 9.59 | -1.41 |  |
|  |  |  |  |                           |                  | Left  | 9.59 | -1.41 |  |
| Right  |  |  |  |                           | 9.59             | -1.41 |      |       |  |
| Rear   |  |  |  |                           | 9.56             | -1.44 |      |       |  |
| (2) Where a building setback is required from a property line shared with another parcel designated with a low density residential district, the M-CG District or H-GO District, the max building height:  |  | (a) is the greater of:   | (i) the highest geodetic elevation of a main residential building on the adjoining parcel; or                                      |                           | C                | N/C   | N/A  | N/I   |  |
|  |  |  | (ii) 7.0m from grade; measured at the shared property line; and  |                           |                  |       |      |       |  |
|  |  | (b) increases at a 45 degree angle to a max of 11.0m measured from grade.  |  |                           |                  |       |      |       |  |
|  |  |  |  |                           |                  |       |      |       |  |
| (3) On a corner parcel, the max area of a horizontal cross section through a building at 9.5m above average grade must not be greater than 75.0% of the max area of a horizontal cross section through the building between average grade and 8.6m |  |  |  |                           |                  |       |      |       |  |

|   | (3) Where a contextual Single Detached Dwelling is located on a parcel with a parcel width less than or equal to 10.0m the maximum building depth is the greater of:   |  |                    |       |
|   | 65% x  | 36.57                                      | =                  | 23.8  |
| 535 Building Depth and Separation       | Parcel Depth   |  | Max Building Depth |       |
|   | (b) the contextual building depth average  |  |                    |       |
|   | Contextual Building Depth Avg. =   |  | 28.2               |       |
|   | (4) Where a Contextual Single Detached Dwelling is located on a parcel with a parcel width greater than 10.0m the maximum building depth is the contextual building depth average  |  |                    |       |
|   | Contextual Building Depth Average =  |  | 28.2               |       |
| 535 Building Depth and Separation       | (1) Unless otherwise referenced in subsections (2) and (3) the maximum building depth is 65.0% of the parcel depth for a building containing a unit.   |  |                    |       |
|   | 65% x  |  | 36.57              | 23.80 |
|   | Parcel Depth   |  | Max Bldg Depth     |       |
|   | (a) there is more than one main residential building on the parcel;  |  |                    |       |
|   | (b) 50.0% or more of the units on the parcel are contained in main residential buildings located within the first 60.0% of the parcel depth; and   |  |                    |       |
|   | (2) On a laned parcel, there is no maximum building depth for a main residential building wholly contained to the rear of 40.0% parcel depth where:  |  |                    |       |
|   | Note: The Main Residential Building exempt from Building Depth must be WHOLLY contained within rear 60.0%; otherwise see subsection (1).   |  |                    |       |
|   | (c) where the minimum separation distance of the main residential buildings on the front portion of the parcel and the main residential buildings contained on the rear portion of the parcel is 6.5m  |  |                    |       |
|   | (a) 50.0 per cent parcel depth; or   |  |                    |       |
|   |  |  |                    |       |

|   |   |  |   |       |                  |         |       |                |     |
|---|---|--|---|-------|------------------|---------|-------|----------------|-----|
| Page 1  | (3) For a main residential building that is located on a corner parcel there is no maximum building depth where the minimum building setback from the side property line shared with another parcel is 3.0m for any portion of the building located between the rear property line and:                                 |  | <div>Parcel Depth</div> <div>(b) the building depth of the main residential building on the adjoining parcel;</div> <div>C.A.B. Building Depth</div> <div>whichever is closer to the rear property line.</div> <div>3.0m Building Side Setback Required beyond</div> <div>0.00 m and the rear property line</div> |       | N/A Interior Lot |         |       |                |     |
| 529 Density   | For parcels designated R-CG use this calculation:   |  |   |       |                  |         |       |                |     |
|   | The maximum density for parcels designated R-CG District is 75 units per hectare.   |  |   |       | Units            | 1       | -1    |                |     |
|   | 75  | 334.20   | (m²)  | 2.00  |                  |         |       |                |     |
|   |   | 0.0334204  | (ha)  | =     | Units            | U.P.H   | 29.92 | -45.08         |     |
|   | U.P.H   |  |   |       |                  |         |       |                |     |
|   | For multi-residential parcels reverting to low density uses in section 573, use the density maximum for that multi-residential district:  |  |   |       |                  |         |       |                |     |
|   | Enter UPH of MDR district below: The max density for parcels designated multi-residential is the density requirement of that district.  |  |   |       | Units            | N/A     |       |                |     |
|   |   |  | (m²)  |       |                  |         |       |                |     |
|   | Enter m² Above  | (ha)   | =   | Units | U.P.H            |         |       |                |     |
| U.P.H   |   |  |   |       |                  |         |       |                |     |
| 365 Exempt Addition   | In order for the exemption in section 25(2)(a) to apply to an exterior alteration or addition to an existing Duplex Dwelling, Semi-detached Dwelling or Single Detached Dwelling:<br>(b) the addition may be a maximum of:  |  |   |       |                  |         |       |                |     |
|   | (i) 40.0m² in floor area for any portion at a height less than or equal to:   | (A) 7.5m measured from grade where the existing building has a walkout basement; or<br>(B) 6.0m measured from grade where the existing building does not have a walkout basement; and                                    |   |       |                  | N/A     |       |                |     |
|   |   |  |   |       |                  |         |       |                |     |
|   |   |  |   |       |                  |         |       |                |     |
| (ii) 10.0m² in floor area for any portion not exceeding the highest point of the existing roof; |   |  |   |       |                  |         |       |                |     |
| 339.1 Porches<br><i>(must meet all requirements to be exempt)</i>                               | In a Developed Area, a porch is exempt from parcel coverage where:  | (a) the porch is located between the façade of the main residential building and:  | (i) the front property line; or   |       |                  | C       | N/C   | N/A            | N/I |
|   |   |  | (ii) the side property line on the street side of a corner parcel;  |       |                  | C       | N/C   | N/A            | N/I |
|   |   | (b) the porch is unenclosed on a minimum of two sides, other than by a railing, balustrade, or privacy walls located on porches between attached units when the porch is at or exceeds the contextual front setback; and |   |       |                  | C       | N/C   | N/A            | N/I |
|   |   |  |   |       |                  |         |       |                |     |
|   |   | (c) there is no enclosed floor area or balcony located directly above the roof of the porch.   |   |       |                  | C       | N/C   | N/A            | N/I |
|   |   |  |   |       |                  |         |       |                |     |
|   |   |  |   |       |                  |         |       |                |     |
|   |   |  |   |       |                  |         |       |                |     |
|   | (2) Unless otherwise referenced in subsection (3), the maximum cumulative building coverage over all the parcels subject to a single development permit containing a Contextual Semi-Detached Dwelling, Contextual Single Detached Dwelling, Cottage Housing Cluster, Rowhouse Building, Semi-Detached Dwelling, Single | (a) 45.0% of the area of the parcels subject to a single development permit for a development with a density of less than 40 units per hectare;  |   |       |                  | Applies |       | Does Not Apply |     |
|   |   |  |   |       |                  |         |       |                |     |
|   |   | (b) 50.0% of the area of the parcels subject to a single development permit for a development with a density 40 units per hectare or greater and less than 50 units per hectare;   |   |       |                  | Applies |       | Does Not Apply |     |
|   |   |  |   |       |                  |         |       |                |     |
|   |   |  |   |       |                  |         |       |                |     |
|   |   | (c) 55.0% of the area of the parcels subject to a single development permit for a development with a density of 50 units per hectare or greater and less than 60 units per hectare; or                                   |   |       |                  | Applies |       | Does Not Apply |     |
|   |   |  |   |       |                  |         |       |                |     |
|   |   |  |   |       |                  |         |       |                |     |
|   |   |  |   |       |                  |         |       |                |     |

|   |  |   |           |         |                |                |                |
|---|--|---|-----------|---------|----------------|----------------|----------------|
| 534 Parcel Coverage   | Detached Dwelling or Townhouse is:   | (d) 60.0% of the area of the parcels subject to a single development permit for a development with a density of 60 units per hectare or greater.                                      |           | Applies | Does Not Apply |                |                |
|   | (3) The maximum parcel coverage referenced in subsections (1) and (2), must be reduced by:   | (a) 21.0m <sup>2</sup> where one motor vehicle parking stall is required on a parcel that is not located in a private garage; and   |           | Applies | Does Not Apply |                |                |
|   |  | (b) 19.0m <sup>2</sup> for each required motor vehicle parking stall that is not located in a private garage where more than one motor vehicle parking stall is required on a parcel. |           | Applies | Does Not Apply |                |                |
|   | (4) For all other uses, the maximum parcel coverage is 45.0%   |   |           | Applies | Does Not Apply |                |                |
|   | Determine correct percentage of parcel coverage and input values below   |   |           | %       | %              |                |                |
|   | <div> <div>45.0%</div> <div> <div>1</div> <div>334.20</div> <div>Parcel Area (m<sup>2</sup>)</div> </div> <div>minus</div> <div> <div></div> <div>Required Stalls</div> </div> <div>=</div> <div> <div>150.39</div> <div>Max. Coverage</div> </div> </div> |   |           | 45.18%  | 0.18%          |                |                |
| Parcel Coverage Totals  |  |   |           |         | m <sup>2</sup> | m <sup>2</sup> |                |
|   | House  | Proj. > 1.0m  | Garage(s) | Other   | Total          |                |                |
|   | 148.33   | 2.66  |           |         | 150.99         | 150.99         | 0.60           |
| 347 Contextual Single Detached Dwelling                             | (6) Where a private garage is attached to a Contextual Single-Detached Dwelling the maximum building coverage is the maximum parcel coverage which must be reduced by 21m <sup>2</sup> for each required parking stall                                     |   |           |         |                | m <sup>2</sup> | m <sup>2</sup> |
|   | <div> <div>150.39</div> <div>Max. Coverage</div> </div> <div>minus</div> <div> <div>1</div> <div>Required Stalls</div> </div> <div>x 21m<sup>2</sup></div> <div>=</div> <div> <div>129.39</div> <div>Max. |   | (5) Where a Contextual Single Detached Dwelling is located on a parcel with a parcel width greater than 10.0m, the maximum area of a horizontal cross section through each storey above the first storey must not exceed the building coverage             |   |           |         |                | Complies       |                |
| Accessory Building  | If applicable please refer to Accessory Residential Building Form  |   |           |         | See Attached   | N/A            | N/I            |
| 542 Landscaping Requirements<br><i>Applies with 3 or more units</i> | (3) All areas of a parcel, except for those portions specifically required for motor vehicle access, motor vehicle parking stalls, loading stalls, garbage facilities, or any purpose allowed by the Development Authority, must be a landscaped area.     |   |           |         |                |                |                |
|   | (4) All setback areas adjacent to a street, except for those portions specifically required for motor vehicle access, must be a landscaped area.   |   |           |         |                |                |                |
|   | (5) Amenity space provided outdoors at grade must be included in the calculation of a landscaped area.   |   |           |         |                |                |                |
|   | (6) Any part of the parcel used for motor vehicle access, motor vehicle parking stalls, loading stalls and garbage or recycling facilities must not be included in the calculation of a landscaped area.   |   |           |         |                |                |                |
|   | (7) A minimum of 30.0% of the landscaped area must be covered with soft surfaced landscaping.  |   |           |         |                |                |                |
|   | <div></div> <div>Landscaped Area (m<sup>2</sup>)</div>   |   |           |         |                |                |                |
|   | (8) All soft surfaced landscaped area must be irrigated by an underground irrigation system, unless otherwise provided by a low water irrigation system.   |   |           |         |                |                |                |
|   | (9) Mechanical systems or equipment that are located outside of a building must be screened.   |   |           |         |                |                |                |
|   | (4) The requirement for the provision of 1.0 tree is met where:  | <div> <div>(a) a deciduous tree has a minimum calliper of 60mm;</div> <div></div> <div># Provided</div> </div>  |           |         |                |                |                |
|   |  | (b) a coniferous tree has a minimum height of 2.0m  |           |         |                |                |                |

|  |  |   |  |      |      |
|--|--|---|--|------|------|
| 542.2 Planting Requirements<br><i>Applies with 3 or more units</i> | B  | (b) a coniferous tree has a minimum height of 2.0m  |  | N/A  |      |
|  |  | <input type="text"/> # Provided   |  |      |      |
|  | (5) The requirement for the provision of 2.0 trees is met where:   | (a) a deciduous tree has a minimum calliper of 85mm;  |  |      |      |
|  |  | <input type="text"/> # Provided   |  |      |      |
|  |  | (b) a coniferous tree has a minimum height of 4.0m  |  |      |      |
|  |  | <input type="text"/> # Provided   |  |      |      |
|  | (6) The requirement for the provision of 3.0 trees is met where an existing deciduous tree with a calliper greater than 100mm is preserved.  |   |  |      |      |
|  |  | <input type="text"/> # Provided   |  |      |      |
|  | (2) A minimum of 1.0 tree and 3.0 shrubs must be provided for each 110.0m <sup>2</sup> of parcel area.   |   |  |      |      |
|  | <input type="text"/> 0   | Required Trees  | <input type="text"/>   |      |      |
| 341 Driveways  | <input type="text"/> 0   | Required Shrubs   | Parcel Area (m <sup>2</sup> )  | N/A  |      |
|  | (3) Shrubs must be a minimum height or spread of 0.6m at the time of planting.   |   |  |      |      |
|  | (7) For landscaped areas with a building below, planting areas must have the following minimum soil depths:  | (a) 1.2m for trees;   |  |      |      |
|  |  | (b) 0.6m for shrubs; an   |  |      |      |
|  |  | (c) 0.3m for all other planting areas.  |  |      |      |
|  | (8) The soil depths referenced in (7) must cover an area equal to the mature spread of the planting material.  |   |  |      |      |
|  | (1) A driveway must not have direct access to a major street unless:   | (a) there is no practical alternative method of vehicular access to the parcel; and                   |  |      |      |
|  |  | (b) a turning space is provided on the parcel to allow all vehicles exiting to face the major street. |  |      |      |
|  | (2) A driveway connecting a street to a private garage must:   | (a) be a min of 6.0m in length along the intended direction of travel for vehicles measured from:     | (i) the back of the public sidewalk to the door of the private garage; or          |      |      |
|  |  |   | (ii) a curb where there is no public sidewalk to the door of a private garage, and |      |      |
|  |  | (b) contain a rectangular area measuring 6.0m in length and 3.0m in width.                            |  |      |      |
|  | (3) A driveway connecting a lane to a private garage must be a min of 0.60m in length along the intended direction of travel for vehicles, measured from the property line shared with the lane to the door of a private garage. |   | East   | 1.22 | 0.62 |
|  | (5) That portion of a driveway including a motor vehicle parking stall within 6.0m of a public sidewalk, or a curb on a street where there is no public sidewalk, must not exceed a width of:                                    | (a) 6.0m where the parcel width is 9.0m or less; or   |  | N/A  |      |
|  |  | (b) 7.0m for parcel width > than 9.0m and < than 15.0m  |  |      |      |
|  | (6) In the developed area a driveway accessing a street must not be constructed, altered or replaced except where:   |   |  |      |      |
|  | (a) located on a laneless parcel; (b) located on a laned parcel and 50.0% or more parcels on same block face have an existing driveway accessing a street; or (c) legally existing driveway not being relocated or widened.      |   |  |      |      |

| Page 14  |   | Number of Parcels along Block Face |   |  |         |     |     |     |
|--|---|------------------------------------|---|--|---------|-----|-----|-----|
| 342 Retaining Walls                                    | (1) A retaining wall must be less than 1.2m in height when measured from the lowest grade at any point adjacent to the retaining wall to the highest grade retained by the retaining wall.  |                                    |   |  | C       | N/C | N/A | N/I |
|  | (2) A min horizontal separation of 1.0m must be maintained between retaining walls on the same parcel.  |                                    |   |  | C       | N/C | N/A | N/I |
|  |   |                                    |   |  |         |     |     |     |
| 338.1 Patios   | (1) Unless otherwise referenced in subsections (2) and (3), a privacy wall may be located on a patio, provided it does not exceed a height of 2.0m from the surface of the patio.   |                                    |   |  | C       | N/C | N/A | N/I |
|  | (2) A privacy wall located on a patio must not exceed 2.0m in height, when measured from grade and when the privacy wall is located within: (a) a side setback area; or (b) 6.0m of a rear property line.   |                                    |   |  | C       | N/C | N/A | N/I |
|  | (3) A privacy wall located on a patio must not exceed 1.2m in height when measured from grade when the privacy wall is located between the foremost front façade of the main residential building and the front property line.                    |                                    |   |  | C       | N/C | N/A | N/I |
|  |   |                                    |   |  |         |     |     |     |
|  |   |                                    |   |  |         |     |     |     |
|  |   |                                    |   |  |         |     |     |     |
| 540.1 Fences   | The height of a fence above grade at any point along a fence line must not exceed 1.2m for any portion of a fence extending between the foremost front façade of the immediately adjacent main residential building and the front property line.  |                                    |   |  | C       | N/C | N/A | N/I |
| <i>Note: Only apply fence rules to proposed fences</i> |   |                                    |   |  |         |     |     |     |
| 343 Fences   | The height of a fence above grade at any point along a fence line must not exceed:  |                                    | (b) 2.0m in all other cases, and  |  | C       | N/C | N/A | N/I |
| <i>Note: Only apply fence rules to proposed fences</i> |   |                                    | (c) 2.5m at the highest point of a gate that is not more than 2.5m in length. |  | C       | N/C | N/A | N/I |
| 348 Visibility Setback                                 | Within a corner visibility triangle, buildings, fences, finished grade of a parcel and vegetation must not exceed the lowest elevation of the street by more than 0.75m above lowest elevation of the street.                                     |                                    |   |  | C       | N/C | N/A | N/I |
|  |   |                                    |   |  |         |     |     |     |
|  |   |                                    |   |  |         |     |     |     |
| 546.3 Waste, Recycling and Organics                    | For developments of three or more units, garbage, recycling, and organics must be stored in a screened location approved by the Development Authority   |                                    |   |  | C       | N/C | N/A | N/I |
| <i>*Note: Applies when there are 3 or more Units</i>   |   |                                    |   |  |         |     |     |     |
| 171 Contextual Single Detached Dwelling                | (c) requires a minimum of 1.0 motor vehicle parking stalls per Dwelling Unit; and   |                                    |   |  | 2       |     | 1   |     |
| 546 Motor Vehicle Parking Stalls                       | (1) The minimum number of motor vehicle parking stalls is calculated based on the sum of all units and suites at a rate of 1.0 stalls per unit or suite.  |                                    | <i>*See Communities Tab to Adjust Parking Rate</i>                            |  |         |     |     |     |
|  | (2) Notwithstanding subsection (1), the minimum number of motor vehicle parking stalls is calculated based on the sum of all units and suites at a rate of 0.5 stalls per unit or suite for the area listed in Table 2.1 below.                   |                                    | Parking Rate: 0.50 Stall per Unit & Suite                                     |  |         |     |     |     |
|  | 2 Number of Units   |                                    |   |  | 2       |     | 1   |     |
|  | Stalls Within a Private Garage 2  |                                    |   |  |         |     |     |     |
|  | Stalls provided on Parking Pad 0  |                                    |   |  |         |     |     |     |
| 546.1 Mobility Storage                                 | (2) Notwithstanding subsection (1), there is no requirement for mobility storage lockers for parcels with two or less Dwelling Units.   |                                    |   |  | Applies |     | N/A | N/I |
|  | The minimum number of mobility storage lockers is calculated based on the sum of all units and suites at a rate of 0.5 lockers per unit or suite where a unit or suite is not provided a motor vehicle parking stall located in a private garage. |                                    |   |  | N/A     |     |     |     |
|  | 0 Number of Units   |                                    |   |  |         |     |     |     |
|  |   |                                    |   |  |         |     |     |     |
|  |   |                                    |   |  |         |     |     |     |
|  | (2) Notwithstanding subsection (1), there is no requirement for a bicycle parking stall – class 1 for parcels with two or less Dwelling Units.  |                                    |   |  | Applies |     | N/A | N/I |

|  |  |   |     |     |     |     |  |
|--|--|---|-----|-----|-----|-----|--|
| 546.2 Bicycle Parking Stalls                   | (1) The minimum number of bicycle parking stalls – class 1 is calculated based on the sum of all units and suites at a rate of 1.0 stall per unit or suite where a unit or suite is not provided a motor vehicle parking stall located in a private garage or mobility storage locker. |   | N/A |     |     |     |  |
|  |  |   |     |     |     |     |  |
|  |  |   |     |     |     |     |  |
|  |  |   |     |     |     |     |  |
|  |  |   |     |     |     |     |  |
| 13(90.3) Mobility Storage Locker               | (a) has a door with a minimum width of 0.9m that has direct access to grade;   |   | N/A |     |     |     |  |
|  | (b) has a minimum length of 2.8m;  |   |     |     |     |     |  |
|  | (c) has a minimum width of 1.2m;   |   |     |     |     |     |  |
|  | (d) has a minimum height of 1.8m   |   |     |     |     |     |  |
|  |  |   |     |     |     |     |  |
| 122 Standards for Motor Vehicle Parking Stalls | (3) The minimum depth of a motor vehicle parking stall is 5.9m where it is required for:   |   | C   | N/C | N/A | N/I |  |
|  | (a) a Contextual Single Detached Dwelling, Duplex Dwelling, Secondary Suite, Semi-detached Dwelling or Single Detached Dwelling  |   |     |     |     |     |  |
|  |  |   |     |     |     |     |  |
|  | (4) The minimum width of a motor vehicle parking stall required for a Dwelling Unit is:  |   | C   | N/C | N/A | N/I |  |
|  | (a) 3.0m where both sides of a stall abut a physical barrier;  |   |     |     |     |     |  |
|  | (b) 2.85m where one side of a stall abuts a physical barrier; and  |   |     |     |     |     |  |
|  | (c) 2.5m in all other  |   |     |     |     |     |  |
|  | (15) Motor vehicle parking stalls for a Backyard Suite, Contextual Semi-detached Dwelling, Contextual Single Detached Dwelling, Duplex Dwelling, Secondary Suite, Semi-detached Dwelling and Single Detached Dwelling must be:   |   | C   | N/C | N/A | N/I |  |
|  |  | (a) hard surfaced; and                    |     |     |     |     |  |
|  |  | (b) located wholly on the subject parcel. |     |     |     |     |  |
|  |  |   |     |     |     |     |  |
|  |  |   |     |     |     |     |  |

**Re: DP2024-08233 COMPLETENESS REVIEW - 114 7 AV NW**

---

I am the file manager who will be reviewing your development permit application. The application has been accepted and is now under review. The review process will take approximately 3-6 weeks depending on the complexity of the application and need for notice posting and circulation.

For more information about the development permit process please visit [www.calgary.ca/dpprocess](http://www.calgary.ca/dpprocess).

Please track your application, using your Job Access Code (JAC [REDACTED]), at [www.calgary.ca/vista](http://www.calgary.ca/vista).

Should you have any questions or concerns, please contact me at your convenience.

Regards,

Daniel Bronson  
Senior Planning Technician

| Overall: | In opposition of this application                         |                      |                   |

**Area of Concern**

Building (massing, façade, height, shadowing, etc.)  
 Landscaping plans  
 Environmental preservation  
 Site layout

**General Comment**

Reject, due to the following:

No Permeable surfaces: concern due to storm run-off.

Attached Garage: not consistent with the neighbourhood, and have not been allowed, so we question why it would be allowed for this DP. If the garage is detached there could at least be some space for greenery in the amenity area.

No Landscaping: These two DPs for 114 7 Ave NW are among the worst we've seen in terms of habitat destruction. No effort to provide a landscaping plan, all existing trees to be removed, including a city-owned tree, with no room for new plantings.

- We request that more be done to retain mature canopy trees and shrubs/hedges as they provide significant benefits in combating the City's declared climate emergency: natural cooling and shade, habitat and biodiversity, CO2 absorption. They also provide privacy which is of benefit to the current house and adjacent property owners.

- Due to the large building footprint and multiple paved pathways, there is limited space for permeable landscaping. We request that more be done to increase permeable landscaping and decrease concrete and building footprint to allow for greater draining area on-site to avoid potential ground saturation issues that could lead to flooding in neighbouring homes and increased pressure on storm water systems.

- We encourage any new development to meet and exceed the planting requirements and maintain mature trees wherever possible. As a community we are eager to save as much of our mature tree canopy as possible, especially considering relatively rapid redevelopment.

- In the case that mature boulevard trees may be impaired because of utility installation methods requiring excavation within 2.5m or more of the canopy drip line, and it is required that either of two methods be used to the approval of the City Urban Forester:

1. Horizontal drilling

2. Root pruning and canopy pruning in the prior dormant season to excavation.

\*tree removal with financial compensation is not acceptable.

Parking: will be an issue with basement suites and attached garage.

Design: Overall exterior colour scheme is boring. The two houses should be staggered at the front, to allow for some variability. It would be nice to break up the monotony of the entire east, west and north walls.

The site is in the heritage district and attached is the Heritage Committee review and assessment of the project.

The CHCA Heritage Committee assessed the development plans for alignment with the Heritage Guidelines and found that 7 of the guidelines have not been met. Specifically, the guidelines that address tree planting, front projection, window arrangement and design, and building materials require modification to align with the Heritage Guidelines and Heritage Assets in Crescent Heights.

The overall project design does not meet the spirit of the guidelines and could be vastly improved.

Development Circulation (#8201)

Location: **114 7 AV NW**

We would like to advise you that the proposed development does not meet “Alberta Electrical Utility Code” under the Alberta Safety Codes Act and/or ENMAX Power Corporation requirements.

We have identified the following conflict:

**The proposed development conflicts with the existing ENMAX power line on the east side of the property. Please see attached “ELEVATIONS – FRONT & REAR” for detailed clearance violations.**

**Please contact Will Du at [wdu@enmax.com](mailto:wdu@enmax.com) at (403) 689 - 4736 to further discuss resolution options for this conflict.**

Until the above noted safety concerns are adequately addressed, this Development permit is not acceptable to ENMAX Power Corporation. Please contact the Project administrator at [EPC\\_Permits@enmax.com](mailto:EPC_Permits@enmax.com) if you have any further concerns, or require additional information regarding this Development Permit.

Sincerely,

A handwritten signature in black ink, appearing to be "W Du", written in a cursive style.

Will Du, P.Eng

**Area of Concern**

Building (massing, façade, height, shadowing, etc.)

Landscaping plans

Environmental preservation

Site layout

**General Comment**

The new proposed development is in a Heritage Guideline area and does not meet several of the guidelines:

There is no design reference to the adjoining heritage assets. The new building stands out and clashes with the houses it is facing, and those houses it is directly beside

The lack of a Proposed Streetscape Drawing hides that fact that this house overpowers the neighboring houses in its height. It towers over the adjacent properties by at least 2 meters

The visual impact of the upper story is exacerbated by the chosen building materials and the full front wall of masonry. The flat horizontal trim features do not visually reduce the size the front façade, and actually appear to make the house look larger and more modern

The window directly above the front doorway has no casings or awnings and is directly under a flat roof. This gives it a much more modern look than suggested by the Heritage Guidelines

The setback indicated is 4.99 meters, which makes it jut out in front of the adjacent properties. The adjoining properties setbacks are much deeper at 8.68 meters and 7.69 meters

The submitted plans do not conform to Heritage Landscape Design requirements: Where a public boulevard with canopy trees is not present, landscaping should include at least one deciduous tree in the front setback area or within the boulevard, where feasible, that will contribute to a mature tree canopy.

There is no Landscape Design diagram

There is no city tree on the boulevard in front of this property

There are 4 existing trees on this property. The lot coverage of this new building would require the removal

|  | Date Reviewed:   | December 11, 2024  |                         |   |
| Guideline  | Requirement  | Notes  | Evaluation              | Remedy  |
| <b>General</b>   |  |  |                         |   |
|  | Development should draw design reference from nearby heritage assets within the applicable Heritage Guideline Area.  | See comments below.  | Does Not Comply         |   |
| <b>Site and Landscape Design</b>                               |  |  |                         |   |
|  | Notwithstanding the minimum Land Use Bylaw setback, front yard setbacks should be informed by the existing heritage assets on the block.   |  | Complies with Guideline |   |
|  | Development should provide well-defined and direct pathway connections from front doors to the sidewalk and public realm.  |  | Complies with Guideline |   |
|  | Where a public boulevard with canopy trees is not present, landscaping should include at least one deciduous tree in the front setback area or within the boulevard, where feasible, that will contribute to a mature tree canopy.   | There is a boulevard present with one tree on the property line with the lot to the west. This tree, T8, is slated to be removed. Trees T11 and T12, in the front setback are also slated to be removed. | Does Not Comply         | Add at least one deciduous canopy tree planting to the front setback area.                              |
| <b>Roofs and Massing</b>                                       |  |  |                         |   |
|  | Roof styles should be informed by and complement the heritage assets in the area.  |  | Complies with Guideline |   |
|  | Flat roofs are strongly discouraged where visible from the street.   |  | Complies with Guideline |   |
|  | The primary roofline visible from the street should have a minimum pitch of 6:12.  |  | Complies with Guideline |   |
|  | Where new development is larger than nearby heritage assets, the visual impact of upper storeys of buildings should be reduced by employing design measures such as: compound roofs (eg. cross-gabled) to hide the upper story, shifting massing away from smaller scale buildings, or reducing building massing on upper storeys. |  | Complies with Guideline |   |
|  | Developments with more than one unit should have distinct rooflines that accentuate individual units.  |  | Does Not Apply          |   |
|  | Buildings with a front facade width exceeding 12 metres or a height exceeding two storeys are encouraged to mitigate their visual impact through variations in massing, rooflines, or materials.   |  | Does Not Apply          |   |
| <b>Front Facades</b>   |  |  |                         |   |
|  | Development should provide a front projection on the main floor that may be covered or enclosed and that comprises at least a third of the width of the front main floor façade for each unit visible from the street. This front projection could include elements such as: porches, patios, verandas, or sunrooms.               | The development does not have a front projection, only a front step that is in line with the front of the building.  | Does Not Comply         | Add a covered or enclosed front projection/porch.   |
|  | Front facades should reference the vertical and horizontal pattern of the streetscape, specifically existing heritage assets on the block  |  | Complies with Guideline |   |
| <b>Windows, Materials and Details</b>                          |  |  |                         |   |
|  | Large uninterrupted floor to ceiling windows are discouraged.  | The main floor window at the front of the development is essentially floor-to-ceiling and not subdivided horizontally.   | Does Not Comply         | Add a horizontal subdivision to the front main floor window, similar to that above on the second floor. |

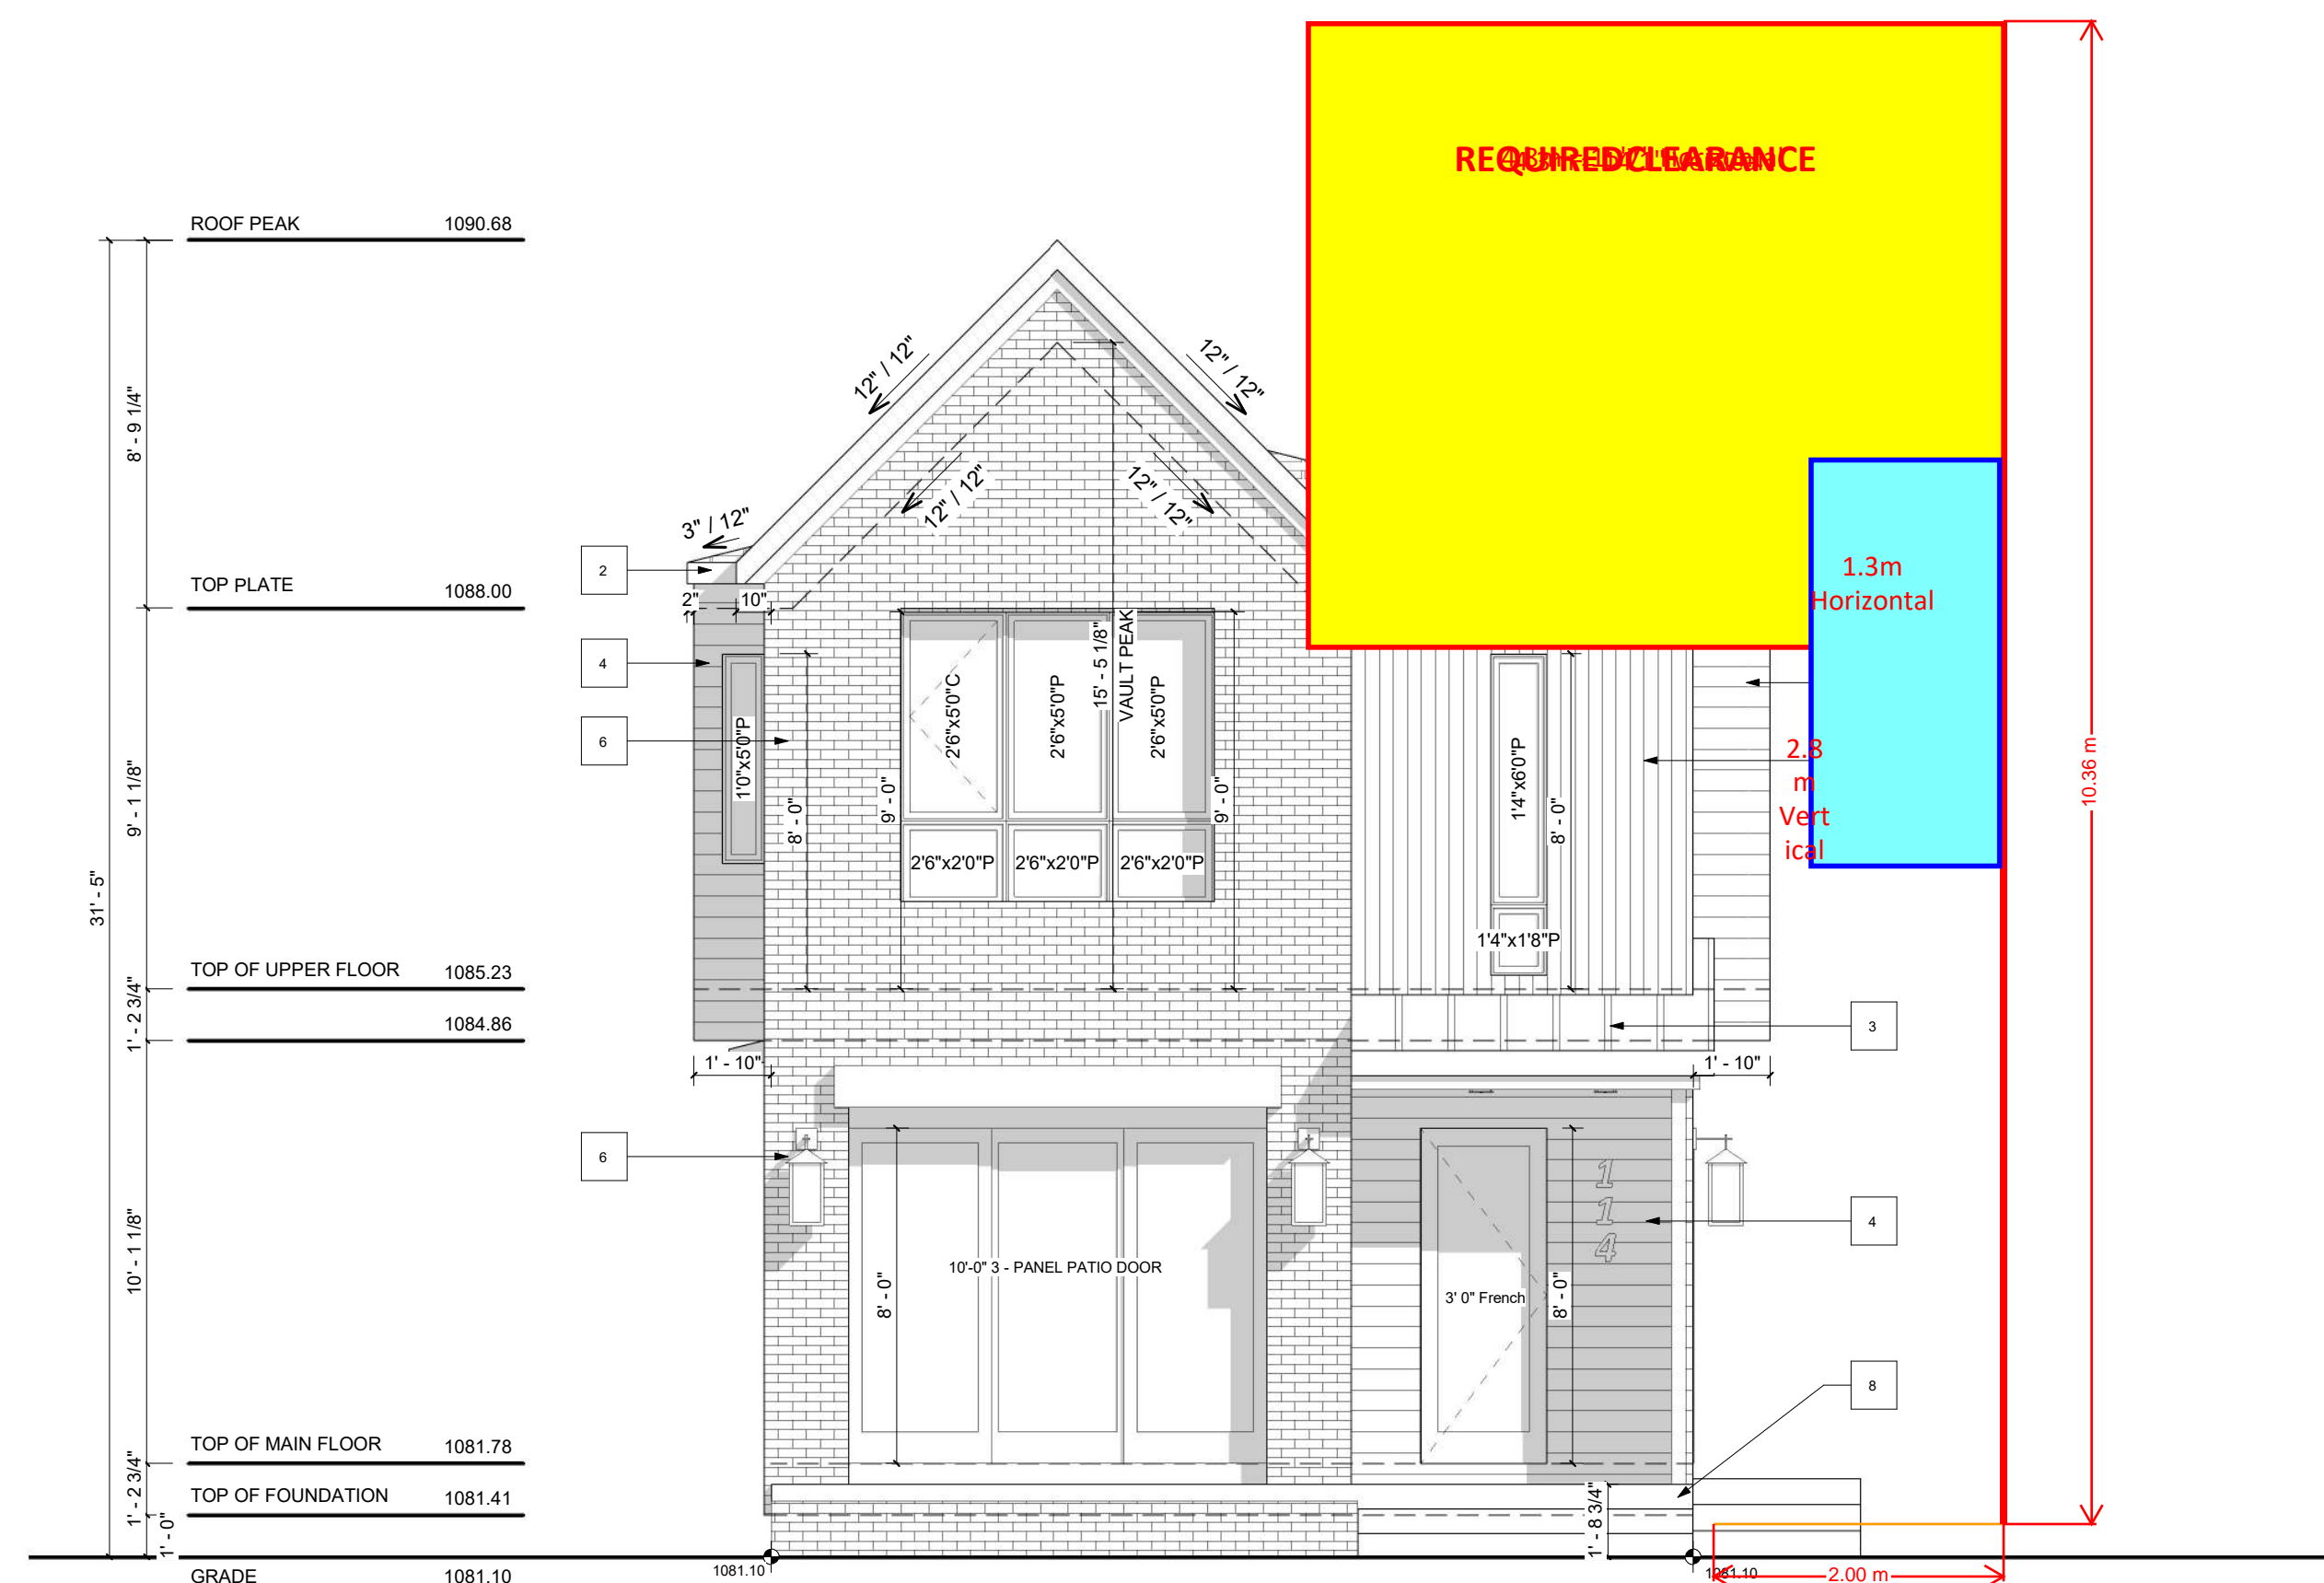

|  |  |  |                         |   |
|--|--|--|-------------------------|---|
|  | <i>Horizontal window openings are encouraged to be divided into groupings of smaller vertically oriented windows.</i>                                    |  | Complies with Guideline |   |
|  | <i>Windows are encouraged to include wide casings or frames.</i>   |  | Does Not Comply         | <b>Add wide casings to the street-facing windows.</b>   |
|  | <i>Use of natural or natural looking building materials is encouraged.</i>   | <b>The materials themselves comply, but the the colour scheme of the materials is not natural (white and black).</b> | Does Not Comply         | <b>Modify the colour scheme.</b>  |
|  | <i>Where multiple building materials are used, heavier-looking materials (eg. masonry or masonry veneer) should be used on the base of the building.</i> | <b>Brick is used from the ground to the top of the second storey.</b>  | Does Not Comply         | <b>Reconfigure the exterior building materials to concentrate the brick at the base and the siding above.</b> |

Tel (403) 514-3000  
enmax.com

March 28, 2025

**File No: DP2024-08233**

**Location: 114 7 AV NW**

ENMAX Power Corporation (EPC) has reviewed the above permit application dated [application date ] and based on the information provided and as of the above noted date the proposed development does not conflict with ENMAX facilities in respect of the requirements set forth in 10-002 Overhead System (Table 7) and 12-002 Underground Systems of the Alberta Electrical Utility Code (AEUC) under the Safety Codes Act (Alberta). This non-conflict letter does not reduce or limit responsibility to comply with all laws and regulations regarding utility facilities and all requirements under the Alberta Occupational Health & Safety Act (OHS) (including any code or regulations thereunder)(OHS) and the applicant shall observe all such laws and regulations when commencing any work related to the permit application. If a situation arises where there is a discrepancy between ENMAX required setbacks and the AEUC or the OHS, the stricter set of requirements shall govern. Please refer to ENMAX Ground Disturbance Guidelines while working near ENMAX Facilities.

Pursuant to Section 225(1) of Part 17 of the OHS Code, anyone working near overhead powerlines must maintain safe limits of approach as provided in Schedule 4, Table 1 of the OHS Code or Table 1 in the AEUC. Anyone excavating must contact Utilities Safety Partners for locations of all buried facilities. All contractors, prime or sub (excavating company) must contact hotdigs@enmax.com to obtain a permission letter prior to disturbing the ground within 2 metres of any ENMAX underground facility. As a condition of this no-conflict letter, and despite any existence of a permit, the applicant must contact EPC Lineinspection@enmax.com or call (403) 514-3117 prior to the commencement of any construction where any workers or equipment will be within 7.0m of existing overhead EPC facilities. If EPC is contacted in accordance with the above, no construction work shall be commenced thereafter unless and until EPC determines the minimum safe limit of approach distance in relation to the overhead facilities present at the project site.

**CONFLICT RESOLVED – CONDITIONAL RELEASE/PRIOR TO RELEASE:**

**ENMAX agrees to release the applicant from previously noted conflict(s) dated December 12<sup>th</sup>, 2024, if the following conditions are fully satisfied under PWO# 21795813:**

- **Direct replacement of STR#1, STR#2, STR#3 and STR#4.**
- **Install taller poles to resolve overhead clearance issue.**

**\*\*NOTE:** This letter provided by ENMAX Power Corporation is intended for information purposes only and is not in any manner intended to nor shall be construed to derogate from applicant's obligations to follow any applicable law. The provision of this no-conflict letter is not a representation that work will meet any legislative or regulatory obligations. This no-conflict letter is provided as of the date first note above – the applicant is still

**SDAB2025-0060**

required to perform their own due diligence prior to any development activities and resolve any conflicts (new or existing) at the Developer's sole expense. ENMAX expressly disclaims any liability related to applicant's responsibility to comply with such laws and regulations and ENMAX's required setbacks.

If you require any additional information regarding this Development Permit, please contact the Project Administrator at [EPC\\_Permits@enmax.com](mailto:EPC_Permits@enmax.com).

Sincerely,

# Development Authority Appeal Response

**Appeal Number:** SDAB2025-0060

**Development Permit Number:** DP2024-08233

**Address:** 114 7 AV NW

**Description:** New: Single Detached Dwelling (east lot)

**Land Use:** Residential – Grade-Oriented Infill (R-CG)

**Community:** Crescent Heights

**Identified Appeal Body:**

Subdivision and Development Appeal Board (SDAB)

**Development Authority Attendance:** No

**Use:** Discretionary

**Notice Posted:** Completed as per Bylaw

**Public Response(s) Received?** Yes, responses included in the Board Report

**Applicable Planning Policies:**

- North Hill Communities Local Area Plan (the Plan)
- The Low Density Residential Guidelines for Established Communities (Infill Guidelines)

**Bylaw Relaxations:**

The development requires the following Land Use Bylaw relaxations:

| Regulation                        | Standard   | Provided  |
|-----------------------------------|--|---|
| 535 Building Depth and Separation | (1) Unless otherwise referenced in subsections (2) and (3) the maximum building depth is 65.0% of the parcel depth for a building containing a unit. | Plans indicate a building depth of 32.47m (+8.67m) or 88.80% (+23.80%) of the parcel depth. |

**Additional Factors, Considerations, and/or Rationale:**

1. Please see the Reasons for Approval.
2. The Development Authority may provide additional materials prior to the merits hearing.

Subdivision and Development Appeal Board  
P.O. Box 2100, Station M, #8110  
Calgary, AB T2P 2M5

Dear Mr. Chair and Board Members,

**RE: Appeal SDAB2025-0060 / DP2024-08233; New: Single Detached Dwelling (east lot);  
Property 114 7 Avenue NW.  
Procedural & Jurisdictional Hearing June 12, 2025**

With respect to abovementioned matter, I represent the development permit Applicant and the Property Owner/Developer, who are the Respondents to the appeal.

The Respondents respectfully request that at the Procedural and Jurisdictional Hearing on June 12, 2025 the Board deal with the preliminary issue of “affected person” status regarding Ms. Krista Beavis, the Appellant.

In this regard the Respondents submit the following:

1. The Appellant, Ms. Krista Beavis, resides at 305 7 Avenue NE. The subject development site is located at 114 7 Avenue NW. The Appellant’s residence is on the east side of Centre N, while the subject development site is on the west side of Centre N. According to measurements from Google Maps, the Appellant lives more than **430 metres** from the development (radial distance). [See Map in Appendix A]
2. It is the Respondents’ position that the Appellant is not an affected person as contemplated in section 685(2) of the *Municipal Government Act*, RSA 2000, c M-26, as amended (MGA or Act).
3. Section 685(2) of the MGA states that “[...] any **person affected** by an order, decision, or development permit made or issued by a development authority may appeal in accordance with section 2.1. [Emphasis added]
4. The Respondents submit that section 685(2) is a threshold provision. If an appellant is not an affected person as contemplated in the Act, the appellant has no right to an appeal. This is a jurisdictional matter, which needs to be decided before the Board can determine the appeal pursuant to section 687(3) of the MGA.

5. Under the MGA the test of affected party status for an appellant is well settled in law. Several decisions of the Alberta Court of Appeal indicate that an “affected person” in terms of the MGA is someone who is:

(a) “injuriously” affected, some affect which is greater than the average person (*Re Clarendon Development Ltd.* (1965), [1965 CanLII 619 \(NS CA\)](#), 51 M.P.R. 108, 50 D.L.R. (2d) 521 (N.S.C.A.)

(b) “genuinely and relevantly affected” (*Bowen v. Edmonton* (1977), [1977 CanLII 1642 \(AB CA\)](#), 2 Alta. L.R. (2d) 112, 3 A.R. 63, 75 D.L.R. (3d) 131 (C.A.);

(c) “not an apparent busy body” (*Re Actus Management Ltd. v. Calgary (City)*, [1975 CanLII 982 \(ABCA\)](#), [1975] 6 W.W.R. 739, 62 D.L.R. (3d) 421 (Alta. C.A.); and

(d) “not someone who lives miles away and only occasionally visits, walks or drives by the subject development” (*Pension Fund Properties Ltd. v. Calgary (City)*, (1981), M.P.L.R. 193, 127 D.L.R. (3), 477, [1981 ABCA 195 \(CanLII\)](#), 31 A.R. 66 (C.A).

6. The onus is on an appellant to establish or demonstrate that they are materially affected and “affected” must be interpreted in a reasonable fashion so as not to make the MGA unworkable (*Pension Fund Properties*).
7. The Board has accepted the case law in many of its decisions where affected person status was an issue.
8. Applying the plain and ordinary meaning of the words in section 685 of the Act, the scheme of the MGA, and a purposive and contextual approach to the interpretation of the MGA, it is clear that the legislature intended that section 685 of the MGA only gives a right to appeal to those affected persons that can demonstrate a material affect from the proposed development.
9. Whether a person is affected sufficiently to be given status to appeal to the Board is a jurisdictional matter. If the Board determines the appellant is not an affected person, then there is no valid appeal and the Board has no jurisdiction to hear the appeal (*Pension Fund Properties Ltd.*, at paras [15 and 16](#)). In decision 2021-0048 ([2021 CGYSDAB 48 \(CanLII\)](#)), at para 40 the Board ruled that:

40. Not everyone is an “affected person”. The appellant is only an “affected person” if his business is in close proximity to the proposed development and if the use, enjoyment or value of such property could be affected by the proposed development itself. The affected person must satisfy the Board that there will be an impact from the proposed development which is significant. The Board heard no such persuasive evidence from the appellant. The Alberta courts have

interpreted [section 685](#) of the [MGA](#) to dismiss appeals where persons are unable to demonstrate either injurious affection or a relevant nexus greater than that of other members of the public.

10. Past decisions of the Board are useful to analyze the affected person status of an appellant. The Board in numerous decisions over the years has determined who is an affected person. While the Board is not bound by its previous decisions, the Board has been consistent in applying the case law.
11. In decision SDAB2016-0118, ([2016 CGYSDAB 118 \(CanLII\)](#)), the Board determined that an appellant residing at a distance of 175 metres from a proposed development was not an affected person. Likewise, in decision SDAB2018-0177, ([2018 CGYSDAB 177 \(CanLII\)](#)), at paras 30 – 35, the Board found that an appellant living fourteen properties away from a proposed development was not an affected person. While the Board is not bound by precedent, previous Board decisions are important for the analysis of the applicable legislation.
12. In accordance with the case law, the Board has ruled in the aforementioned SDAB decisions that only when an appellant or affected person overcomes the hurdle of affected person status, they are entitled to a full hearing and are able to challenge and argue the merits of any potential concerns regarding the approval of a development or issuance of a development permit. The Board has the right to make a determination of affected person status as a preliminary jurisdictional matter prior to hear the merits of the appeal. The Court of Appeal confirmed this in *Dimant v Calgary (City)*, [2021 ABCA 396 \(CanLII\)](#). The Court held at paras 15 – 16:

[15] This argument attempts to frame the question as one of law by narrowly interpreting the Board’s reasons to allege that the Board restricted the criteria solely to proximity. The Board had regard to *Pension Fund Properties Limited v Calgary (Development Appeal Board)*, [1981 ABCA 195](#), the leading authority on “a person affected” by a development permit. The Board correctly stated the legal test for determining whether someone is an “affected person” when it stated at paragraph 21 of its reasons:

The test for determining whether an individual is an “affected person” is enumerated under section 685 of the MGA and has been interpreted by the Courts in various cases. That a person believes he is affected is not enough; an “affected person” must demonstrate that he is genuinely and relevantly or seriously affected by the proposed development. The Board, in many of its decisions, has stated that the further away a person is from a development, the less likely or significantly affected the person would be and the less likely he would avail himself of an appeal.

[Emphasis added]

[16] Proximity is an important factor. But as the Board correctly noted, to be affected, the business must be in close proximity and there must be a possibility that the proposed development will affect the use, enjoyment or value of the property. An affected person must satisfy the Board that there will be a significant impact from the proposed development. The Board concluded that there was no sufficiently persuasive evidence from the applicant to demonstrate that he met the test. The applicant's concerns with increased traffic would be similarly shared by other businesses, some of which would be closer to the proposed site.

13. Therefore, the SDAB must examine the facts and planning context of this appeal to determine if an Appellant is "affected" by the approval of the subject development permit. Proximity is a significant factor in determining affectation.
14. It is significant that the Appellant resides at **439.61 metres (1442 ft)** from the proposed development. [Appendix A] This is a substantial distance. There is insignificant affectation in this case.
15. The Respondents submit that the Appellant has not demonstrated (a) how she is injuriously, genuinely and relevantly or seriously affected by the proposed development and (b) how the proposed development will affect the use, enjoyment or value of her property or residence.
16. The Board's Procedural Guidelines provide that the Board "may dedicate a time at the beginning of the hearing to determined jurisdictional issues" (section 67) and "may decide jurisdictional issues at any time during the appeal" (section 68). The Alberta Court of Appeal has held in [Dimant v Calgary \(City\), 2021 ABCA 396](#) (CanLII), at para 22: "By hearing jurisdictional matters before a full merits hearing, the Board may avoid delay and save time. Further, the MGA requires the Board to handle the appeal process expeditiously and sets tight timelines for the appeal process." Furthermore, the Court of Appeal has often held that the Subdivision and Development Appeal Board appeals are urgent, as they hold in limbo the right to use land: [Tymchak v. Edmonton \(Subdivision and Development Appeal Board\), 2012 ABCA 22](#) (CanLII), at para 48.
17. The Respondents submit that this appeal case is one of the instances where there are sufficient grounds for the Board to decide the jurisdictional issue at the Procedural & Jurisdiction Hearing. We submit that the process of a Procedural & Jurisdictional hearing was established for situations as this case, among others.

18. The Respondents respectfully request that the Board make a jurisdictional determination regarding the appeal at the Procedural & Jurisdictional Hearing.
19. Therefore, in accordance with section 685(2) of the MGA, in this case the Appellant has no right to an appeal. Consequently, the Board has no jurisdiction with respect to the appeal.
20. We have copied the Appellant regarding our submission. In advance of the hearing the Appellant has adequate notice of our request contained herein.

**Remedy Sought**

21. The Applicant and the property owner seek to have the Appeal struck.

Estimated time of presentation by the Respondents' team: 10 minutes.

Respectfully submitted,

A handwritten signature in blue ink, appearing to read 'Rick Grol', with a stylized flourish extending to the right.

- NOTES:
- A COMMON ACCESS AGREEMENT SHALL BE REGISTERED ON THE TITLE OF EACH LOT. THE EASEMENT SHALL BE 4.0m WIDE (2.0m PER LOT) AND EXTEND 3.5m INTO EACH LOT.
  - DEEP SERVICES TO BE INSTALLED IN A COMMON TRENCH CENTRED ON P/L SEPARATING TWO FRONT SERVICED LOTS. SERVICE ENTRY SHALL BE ON THE FRONT OF THE DWELLING.
  - SHALLOW UTILITY SERVICING IS TO BE INSTALLED FROM THE LANE OR ON THE OPPOSITE SIDE OF EACH LOT TO AVOID CONFLICT.
  - THE VERTICAL SEPARATION BETWEEN WATER, SANITARY AND STORM MAINS IN THE STREET SHALL NOT EXCEED 1.5m.
  - DEEP SERVICE LINES SHALL BE CONNECTED TO MAINS IN THE STREET AND INSTALLED IN A COMMON TRENCH WITH MINIMUM SEPARATION OF 300mm WITHOUT CROSSING.
  - WATER SERVICE VALVES TO BE LOCATED ON STANDARD LINE ASSIGNMENT IN THE ROAD RIGHT OF WAY.
  - THE DEEP SERVICE LINES ARE TO BE FLARED INTO SEPARATE TRENCHES INSIDE THE PROPERTY AND EXTENDED TO 3.5m INSIDE OF P/L OR 5.0m INSIDE OF P/L WHEN CROSSING THE SHALLOW UTILITY EASEMENT. A SINGLE LONG RADIUS 22½ DEGREE BEND IS PERMITTED ON THE STORM AND SANITARY SERVICES RESPECTIVELY, AND SHALL BE LOCATED ON PROPERTY AT THE P/L WITHIN THE MAINTENANCE RIGHT OF WAY.
  - WATER SERVICES SHALL MAINTAIN A MIN. OF 1.2m SEPARATION BETWEEN OPPOSING SINGLE OR DUAL WATER SERVICES.
