City Clerk's Office

Confidential Release Tracker

To meet privacy requirements, The City of Calgary classifies certain records as confidential. In Alberta, these requirements are guided by the *Access to Information Act (ATIA)* and the *Protection of Privacy Act (POPA)*.

City Council may decide that some confidential documents can be released in the future. When Council directs a document for future review to be released, the City Clerk's Office tracks it on the dataset provided below. Our website is regularly updated with items marked with a "Review Date". Any documents approved for release within the past year can be found under the "Recently Released" section.

As confidential documents become eligible for release, they are added to the public record and marked with the prefix "RELEASED". The city corporate records include meeting agendas, minutes, and documents that are provided in council meetings. Searching these records are made available to the public at this link.
