LPT2004-67 FINANCING GROWTH STUDY – IMPLEMENTATION REPORT

SUMMARY/ISSUE

Sustainability is an important element of Smart Growth. Equitable cost sharing of growth-related infrastructure, services and facilities is essential to support this. This last report in a series of three outlines the proposed implementation plan for funding infrastructure and services based on the equitable cost sharing guidelines developed in the previous reports.

PREVIOUS COUNCIL DIRECTION

2003 June 9 Council approved the Terms of Reference for the Financing Growth Project.

2004 February 2 Council approved the first report of the Financing Growth Study entitled “Fundamentals of Growth”.

2004 June 7 Council approved the 2004 Standard Development Agreement (SDA) negotiated between The City of Calgary and the Urban Development Institute-Calgary (UDI-Calgary).

RECOMMENDATIONS OF THE ADMINISTRATION:

1. Receive this report for information;
2. Adopt the continued use of development levies and developer contributions through the Standard Development Agreement to fund growth-related infrastructure for roads, waterworks, sanitary sewers, storm sewers, parks and pathways as listed on page 6 of Attachment 1;

3. Recognizing the Standard Development Agreement cannot address the full costs of Community Infrastructure (as identified on pages 13 and 14 of Attachment 1), direct the Administration to return with a report considering the use of charges, or other funding options, at or after occupancy or sale of all properties to fund buildings, vehicles and equipment for Community Infrastructure;
4. In considering #3 above, determine whether the charges or other funding options at or after occupancy are to be applied as differential charges or city-wide charges;
5. Endorse The City, UDI-Calgary and Calgary Region Home Builders (CRHBA) continuing to work together and approach the Province to discuss Municipal Government Act (MGA) changes which are required to provide tax and revenue tools to fund capital, operating and upgrading requirements for municipal infrastructure and services; and
6. Direct Administration to prepare a work plan and budget for a continuing step of the Advisory Committee which considers Smart Growth principles in developing guidelines and implementation strategies for funding Community Infrastructure.

**RECOMMENDATIONS OF THE S.P.C. ON LAND USE,
PLANNING AND TRANSPORTATION, 2004 JULY 21:**

That Council:

1. Refer Report LPT2004-67, Financing Growth Study – Implementation Report to a Strategic Planning Session of Council in 2004 November, to place this within the context of a triple bottom line vision and Smart Growth;
2. That the Administration be directed to incorporate the Peer Review of this project for Council's review; and

APA2004-53(b) AOC04-55A RECOMMENDATION TO APAC TO INCREASE THE LIMIT ON THE PORTION OF THE WARD ALLOCATION AN ALDERMAN CAN BUDGET TO TRAVEL

SUMMARY/ISSUE

Should the maximum amount of the Ward Based Budget Package that an Alderman can budget for travel be increased from 5,000/yr. to 10,000/yr.?

2003 September 22 Council approved principles to govern policy changes relating to increased funding to wards. Among the principles adopted were the following:

IGA2005-02 APPLICATION OF THE MARKET BASKET MEASURE TO CITY INCOME-TESTED PROGRAMS

SUMMARY/ISSUE

The Market Basket Measure (MBM) is a new approach for determining income adequacy. This new approach is considered to be an "absolute" measure of poverty, as compared to the Low-income Cutoff (LICO) that is a relative measure and that has been traditionally accepted as the national standard. The MBM was developed by Statistics Canada at the request of various Provinces, including Alberta. At the present time it has not been formally adopted for use by any Federal or Provincial bodies.

Currently, City programs targeted to low-income people use a variety of income eligibility criteria, including the Low-Income Cutoff. This report assesses the impact of applying the MBM as a consistent eligibility criterion for City administered income-tested programs.

PREVIOUS COUNCIL DIRECTION

On July 14, 2003, Alderman Ceci moved that "Council direct Administration to report to a future Intergovernmental Affairs Committee meeting on the implications of using a Market Basket Measure approach versus the Low-income Cutoff measures approach for income tested programs and services." (Council reference: 31-2003-83)

That the Intergovernmental Affairs Committee recommends that Council endorse The City's existing eligibility criteria for programs and services, pending completion of policy recommendations from the Fair Calgary initiative.

C2005-18 WATERWORKS/WASTEWATER BUDGET TRANSFERS TO WATER CENTRE PROJECT

SUMMARY/ISSUE

To transfer existing funds within Waterworks' and Wastewater's operating/capital programs to allow for sufficient funds to award the tender for the Water Centre construction.

PREVIOUS COUNCIL DIRECTION

Council approved \$32 million in total over a three year period through the 2004 budget for the design and construction of a new building in Manchester to consolidate Waterworks and Wastewater operations.

The Administration took a status report on the Water Centre to the S.P.C. on Utilities and Environment in 2004 December, which was carried over and dealt with at the 2005 January 19 S.P.C. on Utilities and Environment (Attachment 1).

On 2005 January 19, the S.P.C. on Utilities and Environment directed the Administration to bring a report to Council's 2005 Capital Budget Review to explain how additional costs would be accommodated.

RECOMMENDATIONS OF THE ADMINISTRATION

That Council approve the following budget transfers:

- The transfer of \$3 million from Waterworks' Program 305 Feeder mains, Pumpstations & Reservoirs into Waterworks' Program 299-002 Water Centre; and
- The transfer of \$6 million from capital funding retained within the utilities equally shared between Waterworks and Wastewater into Waterworks' Program 299-002 and Wastewater's Program 591-002.

2005 STORM SEWER UPGRADE PRIORITIZATION LIST

SUMMARY/ISSUE

A motion was made at the S.P.C. on Utilities and Environment on 2005 January 19 to bring forward the list of unfunded projects contained in UE2005-04 to discuss funding options at Council's 2005 Budget Review.

PREVIOUS COUNCIL DIRECTION

At its 1992 December 14 meeting, Council approved the "Storm Sewer Evaluation System" outlined in report OE92-69. The evaluation system prioritizes projects identified to relieve historical flooding incidents in specific locations.

On 2001 January 22 (report C2001-06), Council approved 20 storm sewer upgrade projects totaling \$62.4 million, within the prioritization criteria, to be funded through the Infrastructure Canada-Alberta Program.

Annually, the Administration prepares a list of the storm upgrade projects in priority order to be adopted by Council. Projects are expected to be constructed in priority order as funding becomes available.

On 2005 January 19, with report UE2005-04 (Attachment 1), the S.P.C. on Utilities & Environment reviewed the list of projects, and Recommendation 4 directed “that the Attachment 2 (2005 Storm Sewer Upgrade Prioritization List) be referred to the 2005 February Budget discussion to consider other financing options”.

RECOMMENDATION OF THE ADMINISTRATION

That Council receive this report for information.

Moved by Alderman Lowe, Seconded by Alderman Fox-Mellway,

LPT2005-04 EXPANSION OF RESIDENTIAL PARKING ZONE "J"

[See Page XX for the Council decision with respect to this item.](#)

SUMMARY/ISSUE

Expand residential parking zone "J" to include the community of Rideau/Roxboro.

PREVIOUS COUNCIL DIRECTION

Typically, Calgary Roads uses the Residential Parking Zone System to address existing non-resident parking issues adjacent to institutional, commercial and other high traffic generator land uses. On occasion, the parking problem grows beyond the boundaries of the original zone. Council has approved the expansion of existing zones when this occurs, such as Zone "EE" on 2003 January 20 due to the expansion of Mount Royal College.

RECOMMENDATIONS OF THE ADMINISTRATION

The S.P.C. on Land Use, Planning and Transportation recommends that Council:

1. Direct the Law Department to prepare an amending bylaw to the Traffic Bylaw for the expansion of Residential Parking Zone "J" (Attachment).
2. Recommend that Council give three readings to the bylaw.
3. That the Law Department be directed to provide the City Clerk with a copy of the Bylaw for attachment to this report prior to being forwarded to Council.

URGENT BUSINESS

REPORT OF THE S.P.C. ON FINANCE AND CORPORATE SERVICES – DATED 2005 FEBRUARY 09

FCS2005-05 2005 BUSINESS TAX AND BUSINESS TAX RATE BYLAWS

SUMMARY/ISSUE

Formatted: Space After: 0 pt, Pattern: Clear

To approve the annual business tax bylaws (the 2005 Business Tax Bylaw and the 2005 Business Tax Rate Bylaw).

Formatted: Header, Space After: 6 pt, Pattern: Clear (White)

PREVIOUS COUNCIL DIRECTION

Formatted: Font: Bold

With respect to business tax, the 2005 Budget again calls for “no tax rate increase” for the 12th year in a row. Since 1999, this has been achieved by generating the same amount of business tax from the assessment base, before and after the reassessment. Thus, the business tax rate could go up or down depending on the annual market change in the assessment base.

RECOMMENDATIONS OF THE ADMINISTRATION:

The S.P.C. on Finance and Corporate Services recommends that Council:

1. Give three readings to the 2005 Business Tax Bylaw 8M2005, (Attachment 3); and
2. Give three readings to the 2005 Business Tax Rate Bylaw 9M2005 (Attachment 4).

NOTICES OF MOTION - DATED 2005 FEBRUARY 14

NM2005-03 BIODIESEL FUEL
(Alderman Fox Mellway)

WHEREAS one of Council's priorities is to reduce the City's corporate greenhouse gas emissions to 6% below 1990 emission levels by 2012;

AND WHEREAS an increasing number of Canadian municipalities now use, or are planning to use, biodiesel including Vancouver, Brampton, Oshawa and Toronto and many US jurisdictions under a variety of operational conditions and blend ratios;

AND WHEREAS The City of Calgary Fire Department led EcoFuel Biodiesel Pilot Project in partnership with The City of Calgary Waste and Recycling Services, The City of Calgary Environmental Management and the Province, Alberta Transportation and Alberta Environment has proceeded successfully, reducing pilot vehicle(s) Greenhouse Gas (GHG) emissions (primarily CO₂ -15.7% thus ~9,630 kg (9.63 tonnes) under a variety of environmental conditions and have demonstrated a strong interest in proceeding with wider usage of biodiesel);

AND WHEREAS The City of Calgary Fire Department panel truck and waste and recycling truck have been running without incident on the B20 blend since mid-March;

Regular Meeting of Council – 2005 February 14

Sue Gray 52

UNCONFIRMED MINUTES

Formatted: German (Germany)

AND WHEREAS one goal of this pilot was to transfer knowledge gained and opportunities for the Corporation as a whole;

AND WHEREAS health effects testing of (B100) biodiesel fuel has been demonstrated by United States Environment Protection Agency and Environment Canada to be non-toxic and biodegradable, posing no threat to human health;

AND WHEREAS among the findings of (B100) biodiesel emissions compared to petroleum diesel emissions in this testing:

- The overall ozone (smog) forming potential of the speciated hydrocarbon exhaust emissions from biodiesel is 50% less;
- The exhaust emissions of *carbon monoxide* (a poisonous gas and a contributing factor in the localized formation of smog and ozone) from biodiesel are 50% lower;
- The exhaust emissions of *particulate matter* (recognized as a contributing factor in respiratory disease) from biodiesel are 30% lower;
- The exhaust emissions of *sulfur oxides and sulfates* (major components of acid rain) from biodiesel are completely eliminated;
- The exhaust emissions of *hydrocarbons* (a contributing factor in the localized formation of smog and ozone) are 95% lower; and
- The exhaust emissions of *aromatic compounds* known as PAH (Polycyclic Aromatic Hydrocarbons) and NPAH (Nitrated Polycyclic Aromatic Hydrocarbons) compounds (suspected of causing cancer) are substantially reduced for biodiesel compared to diesel. Most PAH compounds were reduced by 75% to 85%. All NPAH compounds were reduced by at least 90%;

AND WHEREAS biodiesel is a renewable resource and may be produced from raw materials such as canola, and or recycled yellow grease (used grease) and/or by- products of rendering process (tallow), biodiesel production could potentially aid in supporting the Alberta agriculture industry;

AND WHEREAS in Budget 2003 the Government of Canada announced that the biodiesel portion of diesel blends is exempt from the federal excise tax; the Government of Ontario in June 2002 implemented a provincial tax exemption of 14.3 cents per litre for biodiesel fuel; and the Government on British Columbia showed its commitment to biodiesel in Budget 2004 when they announced the biodiesel portion of the blend of biodiesel and diesel is exempt from tax;

NOW THEREFORE BE IT RESOLVED that the Mayor request the Government of Alberta to consider the removal of the provincial fuel tax from biodiesel to make it more economically viable to use biodiesel and encourage its use;

AND FURTHER BE IT RESOLVED that the Administration be directed to bring forward a report to the Standing Policy Committee on Utilities and Environment by 2005 June, on the opportunities and constraints with regard to implementing the use of biodiesel in The City diesel fleet, including possible sources, blend, delivery and price options.

URGENT BUSINESS

C2005-27 COORDINATING CITY RESPONSE TO SCHOOL CLOSURES

SUMMARY/ISSUE

Council's response to School Board's notification of school program closures. Alberta Infrastructure's Closure of Schools Regulation AR 238/1997 requires that School Boards notify local municipal councils of school or program closures.

No guidelines were established for responding to Separate School Board program/school closure notifications as the ownership of their property resides solely with them.

1. Receive this report for information; and

REPORT OF THE S.P.C. ON LAND USE, PLANNING AND TRANSPORTATION, DATED 2005 MARCH 16

**LPT2005-25 BOW TRAIL WIDENING – SARCEE TRAIL TO STRATHCONA
BOULEVARD S.W.**

SUMMARY/ISSUE

36

Currently, Bow Trail from Sarcee Trail to the west of Strathcona Boulevard S.W., has reached capacity and is unable to accommodate additional traffic resulting from development to the west. This project was identified as a high priority in LPT2004-93 the "Catch-Up List."

The City has a functional plan in place that has guided the orderly development of Bow Trail and served as a basis for adequately servicing this area. In an attempt to improve capacity, it is proposed to advance the next phase of this corridor by widening from four to six-lanes. In addition, intersection improvements at Bow Trail and Strathcona Boulevard will be required.

Administration is requesting that Council approve the allocation of acreage assessment dollars to fund this project.

PREVIOUS COUNCIL DIRECTION

On 2005 February 07, Council gave first reading to Bylaw 2Z2005. Second and third readings of the Bylaw were withheld pending resolution of the downstream infrastructure issues. Administration was directed to provide a report on this matter to the 2005 March 21 Meeting of Council.

RECOMMENDATIONS OF THE ADMINISTRATION

The S.P.C. on Land Use, Planning and Transportation recommends that Council:

1. Approve capital appropriation of \$6 million to Program 739, Bow Trail: Sarcee Trail to Strathcona Boulevard S.W., to be financed from transportation acreage assessment levies; and
2. Direct Administration to proceed to detailed design, public consultation and construction.

LPT2005-26 BOW TRAIL CORRIDOR STUDY INTERIM REPORT

37

SUMMARY/ISSUE

The current four-lane section of Bow Trail between Sarcee Trail and 33 Street fails to accommodate the current and projected traffic volumes. It is proposed that Bow Trail be widened between 37 Street S.W. and Sarcee Trail with the intent of providing three lanes in each direction to increase capacity and provide safer roadway operations.

Administration is nearing completion of the Bow Trail Corridor Study and development of a long range transportation plan. In order to commence some improvements to Bow Trail east of Sarcee Trail in 2005, Administration is bringing forward this interim report for Council to consider a staged corridor improvement on Bow Trail.

PREVIOUS COUNCIL DIRECTION

At the 2004 Capital Budget meetings held 2003 November 26 and 27, Council approved a motion by Alderman Burrows to appropriate \$6.0 million in 2004 and \$9.0 million in 2005 for Transportation Infrastructure Investment Plan (TIIP) Project #OP 6, Bow Trail Widening; and further that Council relinquish the capital appropriations of \$9.5 million in 2004 and \$2.5 million in 2005 for (old #OP 6) Glenmore Trail: Sarcee Trail to Stoney Trail.

RECOMMENDATIONS OF THE ADMINISTRATION

The S.P.C. on Land Use, Planning and Transportation recommends that Council:

1. Approve the functional concept plan as presented in Figures 1 and 2 (Attachment 1);
2. Direct Administration to proceed to detailed design for the westbound lanes only, Figures 3 and 4 (Attachment 1); and
3. Approve the initiation of negotiations for acquiring land as illustrated in Figures 5, 6 and 7 (Attachment 1).

RECOMMENDATIONS OF THE S.P.C. ON LAND USE, PLANNING AND TRANSPORTATION

That Council:

1. Approve the functional concept plan as presented in Figures 1 and 2 (Attachment 1);
2. Direct Administration to proceed to detailed design for the westbound lanes only, Figures 3 and 4 (Attachment 1);
3. Approve the initiation of negotiations for acquiring land as illustrated in Figures 5, 6 and 7 (Attachment 1);
4. Direct that in conjunction with the final Bow Trail Corridor Study report the Administration outline a strategy to complete an urban corridor review of the proposed West LRT, the adjacent widening to Bow Trail between the Downtown and 37th Street SW and the associated community issues. The strategy should identify the scope of the study, proposed timelines for completion; the consulting budget required and anticipated stakeholders. The project should focus on achieving a balance between providing

mobility benefits, supporting land use decisions along the corridor and respecting the integrity of the neighbouring communities in a manner consistent with Council's TBL policy; and

5. Direct Administration to meet with St. Michael's Church to work on solutions to replace parking lost as a result of the Bow Trail widening and report back to the S.P.C. on Land Use, Planning and Transportation in conjunction with the final report on Bow Trail Corridor Study.

A) THE PROVINCE'S SMOKING BYLAW (Alderman McIver)

Can the Administration advise how the Province's proposed smoking legislation, if passed today, would affect Calgary's Smoking Bylaw? Does one law take precedence over the other and is The City of Calgary required to have our bylaw officers enforce the provincial legislation?

The City Solicitor advised that he had not examined the provisions of the proposed provincial legislation but commented that, should the Province pass such legislation, a municipal bylaw of the same subject matter would be rendered inoperative.

Mayor Bronconnier advised that upon first glance the Province's legislation would appear to be consistent with the Smoking Bylaw that City Council adopted a year and a half ago.

AOC05-31 CSIF REQUEST – BRILLIANT CITY! A CENTENNIAL CELEBRATION (FOIP Sections 24 (1) (a) and 25 (1) (c))

SUMMARY/ISSUE

Under the Council Strategic Initiatives Fund Guidelines (CSIF) the AOCC has authority to grant awards up to 25,000. The AOCC makes recommendations to Council on applications exceeding 25,000.

Brilliant City is a planned co-production of Epcor Centre for the Performing Arts and the Olympic Plaza Cultural District. The application seeks funding for two core events of a planned centennial celebration:

- Epcor Centre, Calgary Community Play, Sept. 1 – 4. 30,000 cash and 5,000 services in-kind.
- Olympic Plaza Cultural District, Street Festival, Sept. 1 – 3. 30,000 cash and 10,000 services in kind.

The Calgary Community Play will present Alberta's history in a Calgary context from many perspectives over four nights. The play will be staged throughout the downtown cultural area. It will conclude each night at the Olympic Plaza with pageantry and fireworks. Hallmarks of the play will be "inclusivity, diversity and access for all ages". It will be offered to all at no charge.

The Street Festival will take place in and around the Olympic Plaza. It will include "food, street performers, music, dance, theatre, creative play, stories, history and spectacle and everyone who attends will have an opportunity to actively participate in a variety of ways". Stories of Alberta's 100 year history will be highlighted. It will also be offered to all at no charge.

Purposes are:

- Engage, enrich and delight the creative spirit of Calgarians through interactive experiences.
- Wow Calgarians and make them proud
- Bring lively street life to the cultural district

Organizers expect 10,000 to 20,000 will take part, mainly Calgarians.

This is a one-time, non-profit event.

Economic and recognition impact are low to moderate. It is highly accessible by Calgarians.

PREVIOUS COUNCIL DIRECTION

The CSIF Guidelines were approved by Council 2004 June 21.

RECOMMENDATION OF THE ALDERMANIC OFFICE COORDINATING COMMITTEE

That, as this application is for in excess of \$25,000, the Committee refer the request to Council with a recommendation to decline. FCS2005-20 CONSTRUCTION COST ESCALATION

SUMMARY/ISSUE

Increased volumes of work in Western Canada, rising material costs and a shortage of skilled labour are all expected to lead to a substantial increase in construction prices over the next five years. This will strain budget funding.

PREVIOUS COUNCIL DIRECTION

Council recently approved expansions to the water treatment plants and a new wastewater plant at Pine Creek. Council priorities request the “fast-tracking” of some major new transportation infrastructure projects. These and other major projects will be impacted by increasing costs.

RECOMMENDATIONS OF THE ADMINISTRATION

The S.P.C. on Finance and Corporate Services recommends that Council:

1. Receive this report for information; and
2. Direct Corporate Engineering to report back on a quarterly basis on cost trends in the construction industry.

FCS2005-19 2005 CAPITAL BUDGET ADJUSTMENTS REPORT

SUMMARY/ISSUE

This is the summary of adjustments to the 2005 - 2009 Capital Budget. It details business units' recommended adjustments, approved by Administration and adjustments requiring Council approval. As well, it includes Council-approved adjustments during and subsequent to Budget Review.

PREVIOUS COUNCIL DIRECTION

Council approved the amended 2005 Proposed Budget on 2005 February 2.

Municipal elections were held in 2004 October, so Council scheduled its review of the 2005 Budget in late January rather than November. In previous years there was a Budget Finalization just prior to approval of property tax bylaws in early May. There will not be a budget finalization process for 2005.

Furthermore:

- There is only a short time between Council's approval of the amended 2005 Proposed Budget on 2005 February 02 and approval of the property tax bylaws.
- It will be consistent with the change to a single approval for three annual budgets (without an additional finalization step) in the new three-year business planning and budgeting process.

RECOMMENDATIONS OF THE ADMINISTRATION

The S.P.C. on Finance and Corporate Services recommends that Council:

1. Approve capital budget and financing adjustments as detailed on Schedule 1 (page 4 - 5) of the Attachment, with net reduction of \$1.280 million to the 2005 - 2009 Capital Budget;
2. Receive the remaining Schedules (2A to 4C) and Tables (1 to 3) for information.

LAS2005-78 PROPOSED METHOD OF DISPOSITION – ERLTON

SUMMARY/ISSUE

Authorization to negotiate disposition of land by land exchanges and listing with a realtor.

PREVIOUS COUNCIL DIRECTION

On 2001 April 2 Council considered LA2001-45 being the sale of a portion of the property. The matter was referred back to the Administration for further review.

On 2003 May 5 Council considered LA2003-81 which approved the sale of a portion of the property. The transaction was not concluded because the purchaser did not complete the conditions precedent.

On 2003 May 26, Council approved LA2003-103 Review of Corporate Properties – Phase One, which included procedures for disposing of stand-alone parcels. The approved procedures require that any stand-alone parcel to be sold must be presented to Council through Land Committee in a Land Report with recommendations for its disposal, the method of disposal and a rationale for this method. Furthermore, LA2003-103 identified possible exceptions to the use of a public offering, whereby a direct negotiation may be considered by Land Committee and Council (See Attachment 3 - Process 1(b)).

That the Land and Asset Strategy Committee recommend that Council authorize the Administration to negotiate the disposition of land as outlined in the recommendations in Attachment 2.

10TH ANNIVERSARY OF THE COMMISSIONING OF H.M.C.S. CALGARY

Alderman Burrows advised that on the weekend, he and several Members of Council attended the 10th Anniversary of the Commissioning of H.M.C.S. Calgary in Victoria, British Columbia. On behalf of Commander Tulloch, Alderman Burrows presented Mayor Bronconnier, Members of Council, and the citizens of Calgary, a picture of H.M.C.S. Calgary on patrol. Alderman Burrows also advised that Council was presented with the gift of a blank 50mm shell as a souvenir.

Mayor Bronconnier thanked Members of Council for participating in the ceremonies.

QUESTION PERIOD

A) Taxation of Parking Spaces at RM4 Developments (Alderman Erskine)

With respect to the issue of taxation of parking spaces at RM4 developments, it was my understanding that, as The City was appealing this taxation, that property owners could delay any payments in the meantime until the matter came before the Court of Queens Bench. There is now a situation where a property owner has been before the Assessment Review Board and is required to pay the taxes. If The City is successful at Court of Queens Bench, what happens with the property owners who had to pay the parking tax fees?

General Manager Watson replied that the Court of Queens Bench Appeal will take a period of time to complete. He advised that the Assessment Review Board, on a case by case basis makes its decisions and once rendered the taxes are due and payable. He advised that, if subsequently, The City is successful and there is a reversal, then The City will have to work through how the money will be refunded.

He advised that he would provide Members of Council with an update on the current situation with respect to these types of appeals.

Alderman Erskine requested that General Manager Watson also include in the update a clarification to the RM4 property owners with respect to this matter.

B) Transit Needs and Preference Study for SE Industrial Area (Alderman Ceci)

With respect to a study that was carried out by the Chamber of Commerce with the employers in the SE Industrial Area regarding transit needs for employees, does the Administration plan to provide an update to the Transit Needs and Preference Study for the SE Industrial Area?

Alderman Ceci
&
General Manager,
Transportation

<p>City Manager Tobert replied that he had discussed the matter with the Director of Transportation and that the Chamber of Commerce had been working for some time with particular business owners. He advised that it was felt however, that to study service in the SE quadrant only would be insufficient.</p> <p>He further advised that this was a substantial issue and Calgary was being compared to other cities having a 24 hour service. He advised that the Administration had not intended to undertake a re-study of the area, however, if Council wished to have additional work carried out, the Administration would undertake it.</p>	
---	--

C) Clark Inspection on Ward 10 Voting Irregularities (Alderman McIver)

<p>With respect to the Clark Inspection on Ward 10 voting irregularities can the City Manager advise what policies and procedures have changed as a result?</p> <p>City Manager Tobert replied that he had learned a lot personally and that the Administration had become more politically sensitive with respect to issues such as this. He advised that no policies and procedures had changed as a result of the Ward 10 Election, Ward 10 Bi-election and the Clark Inspection.</p> <p>He further advised that the Administration has instructions from Council to pursue settlement of legal disputes and that is the way that things stand today.</p>	<p>Alderman McIver & City Manager & City Solicitor & City Clerk's – Returning Officer</p>

He advised that Chief Morris, a dedicated public servant, has had a diverse career spanning thirty-nine years with the Calgary Fire Department and is known for his innovation, and dedication to Aquatic Rescue and Technical Rescue Programs throughout North America.

He advised that, amongst the many initiatives that Chief Morris implemented, the most recent was a Labour Management Program – RBO (Relationship by Objectives) which is a new way of involving Fire Fighters in the future of the fire service and improving current service to the citizens. He advised that RBO brings the principles of innovation, involvement, and career enrichment to The City's Fire Fighters based on a foundation of trust and respect from both sides of the table.

He further advised that The City of Calgary hosted the 1997 World Police and Fire Games and that Chief Morris was instrumental in securing the bid and subsequently became the Chief Executive Officer to the most successful Games to date.

Mayor Bronconnier further advised that most recently, Chief Morris was presented with the Award of Excellence from the Canadian Association of Fire Chiefs for his outstanding work in community safety and service and prides himself in having one of the most progressive and effective Departments in Canada.

Chief Morris advised that he was humbled and honoured to be in attendance at Council today to receive this very special presentation. He advised that he looked back on his thirty-nine years of service with great affection and thanked Council for the support he had received every step of the way. He advised that throughout Canada, the Calgary Fire Department is recognized for its community initiatives such as the needle pick-up program, new types of fire stations such as "fire houses", and the cadet program. Alderman Ceci also recognized The City of Calgary's Administration and advised that they deserved significant acknowledgement for their work in this area.

Mayor Bronconnier thanked Alderman Ceci for accepting the award on behalf of The City and its Administration.

RECOGNITION

Alderman Erskine, on behalf of his mother and family, thanked Members of Council, City Manager Tobert, the staff of the Aldermanic Offices and members of the Administration for their support and the gift of flowers following the passing of his father, Commissioner James Laird Erskine.

GOVERNOR GENERAL'S CERTIFICATES OF COMMENDATION

On behalf of Her Excellency the Right Honourable Adrienne Clarkson, Mayor Bronconnier advised that he would be presenting Calgarians Dr. Pauline Head and Ms. Lisa Lee-Johnson with Certificates of Commendation reflecting their efforts to assist others in peril.

Mayor Bronconnier advised that on 2003 August 3, while boating with friends, Dr. Pauline Head assisted in the rescue of three people in danger of drowning on Lake Okanagan near Peachland B.C. He advised that one individual, who was unconscious and floating under the surface of the water, was dragged into a boat where Dr. Head performed CPR to revive her. He further advised that the two other individuals were also pulled into the boat and also received assistance from Dr. Head.

Mayor Bronconnier requested that Dr. Pauline Head come forward to accept her Certificate of Commendation and sign the Official Registry.

Mayor Bronconnier advised that on 2004 September 5th, Ms. Lisa Lee-Johnson rescued a man who had fallen into the Robson River and was hooked on a log jam unable to get out of the river. He advised that Lisa was able to scramble down the river bank and unhook his bag from the log jam, freeing him and assisting him to safety. Mayor Bronconnier further advised that the Robson River is fast-flowing and Lisa's quick action was credited for saving the man's life.

Mayor Bronconnier requested that Ms. Lisa Lee-Johnson come forward to accept her Certificate of Commendation and sign the Official Registry. Mayor Bronconnier also advised that Lisa was a new Calgarian who, two years ago, moved from New Zealand to Canada.

Mayor Bronconnier advised that Dr. Head and Ms. Lee-Johnson are two individuals that did something extraordinary putting their safety and needs aside in order to save the lives of people they didn't know. On behalf of the Governor General, City Council and the citizens of Calgary, Mayor Bronconnier congratulated them on receiving their Certificates of Commendation and on being inspiring role models for the rest of us.

ALBERTA CONSERVATION ASSOCIATION – COOPERATIVE FISHERIES INVENTORY PROGRAM

Mayor Bronconnier introduced Mr. Kevin Fitzsimmons from the Alberta Conservation Association (ACA) to come forward to make a presentation to Mr. Rob Pritchard, General Manager, Utilities and Environmental Protection.

Mr. Fitzsimmons advised that he was a Fisheries Biologist for the ACA working out of the Cochrane office, and that the ACA was a not-for-profit organization receiving revenues from the sale of fishing and hunting licenses sold in Alberta and from other contributions. He advised that the ACA's mandate is to promote conservation through collaboration.

Mr. Fitzsimmons advised that in 2001, 2002 and 2003 the Conservation collected fish and fish habitat information from 323 locations in prioritized stream drainages in the upper Bow River Watershed. He advised that the data was collected through a program entitled, The Cooperative Fisheries Inventory Program and that the data collected was important for fish management and fish populations in the Upper Bow River Drainage as well as aiding in important land use management decisions in the Upper Bow River. He further advised that updated fish information was also important as many fish were sensitive to aquatic and environmental change which could be utilized as indicators of water quality and aquatic ecosystem health.

Mr. Fitzsimmons advised that the success of the program was made possible by financial contributions by the ACA and from other program partners of which The City of Calgary was a major financial contributor, and, as a result, comprehensive data reports had been provided to The City as deliverables from the program.

Mr. Fitzsimmons offered his sincere thanks to The City for the financial contributions to conservation efforts in the Bow River Drainage, and as a token of appreciation, he presented Mr. Pritchard with a print of an original water-colour painting commissioned by the ACA. Mr. Fitzsimmons advised that the print depicts two bull trout on a spawning bed, and that the bull trout were Alberta's native fish and endemic to the Bow River Drainage where the studies were conducted. Mr. Fitzsimmons acknowledged Mr. Paul Fesko, Manager of Strategic Services, Waterworks, for liaising in this program and also making it a tremendous success.

Mr. Rob Pritchard, General Manager, Utilities and Environmental Protection, thanked Mr. Fitzsimmons for the print and advised that one of Council's priorities was to ensure that the City had an adequate water supply and to ensure the protection of the watershed. He further advised that one of the strategies used to achieve this goal was by forming partnerships with organizations who shared similar goals. He further advised that participating in the Cooperative Fisheries Inventory Program provided valuable insights into activities in the Elbow River Watershed.

On behalf of Mayor Bronconnier and Members of Council, Mr. Pritchard advised that he was pleased to accept the gift of the print and looked forward to many more projects with the ACA in the future.

Mayor Bronconnier thanked Mr. Fitzsimmons and Mr. Pritchard and his staff, and advised that environmental protection was something that was paramount to all of us.

CALGARY PUBLIC LIBRARY

Mayor Bronconnier advised that the Calgary Public Library, earlier this year, was honoured with three high profile awards.

2005 John Cotton Dana Award

Mayor Bronconnier advised that, in January, the American Library Association in Boston awarded the Calgary Public Library with the 2005 John Cotton Dana Award, which is the most prestigious award of the Association, for outstanding library public relations. He advised that Calgary was honoured this year by its "Rediscover – Phase II" Campaign which featured the Library's Superbus, movie theatre advertisement and its new "Storytime" TV commercial.

Mayor Bronconnier advised that Mr. Gerry Meek, Director of the Calgary Public Library will be accepting the award, on behalf of the Library on 2005 June 27 in Chicago. Mayor Bronconnier requested that Mr. Meek stand and be recognized by Council.

2005 Alberta Library Trustees Association Honorary Life Membership Award

Mayor Bronconnier advised that Board Chair and City of Calgary employee, Ms. Judith Umbach, had been named one of the recipients of the 2005 Alberta Library Trustees Association Honorary Life Membership Award which is presented to trustees who have provided on-going excellent service to their community.

Mayor Bronconnier personally congratulated Ms. Umbach and requested that she stand and be recognized by Council.

Award of Excellence

Mayor Bronconnier advised that the third award presented to the Library was the Award of Excellence, established to recognize Library Boards that have enabled and supported their libraries to provide on-going excellent service to their communities over a five-year period. Mayor Bronconnier advised that the award had been presented to Ms. Judith Umbach on behalf of the Calgary Public Library Board in April at the Alberta Library Conference.

Mayor Bronconnier congratulated the Calgary Public Library Board on these outstanding achievements by providing the best library service in Canada.

QUESTION PERIOD:

A) Lilac Festival and the War Memorial (Alderman McIver)

<p>With respect to some business and political activities which occurred at the war memorial during the Lilac Festival, does the Administration have adequate policies in place to prevent these types of activities from occurring in the future in order to protect and respect this important site?</p> <p>City Manager Tobert replied that the Memorial Park was a public space and that some of the Festival activities did spill over into the war memorial site. He advised that he would be requesting the General Manager, Community and Protective Services, to review the policies and enforcement process to see whether they were adequate.</p> <p>Mayor Bronconnier requested that the Administration provide all Members of Council with a copy of the response.</p>	<p>Alderman McIver & General Manager, Community and Protective Services</p>

B) Paving of Back Lanes (Alderman Jones)

<p>With respect to a back laneway in my Ward that was paved and then dug up again the day following by a utility company, in these circumstances:</p> <p>1. Can The City fine Telus or Shaw and can they be made to repair a certain segment of the laneway, rather than just the patch they create; and</p>	<p>Alderman Jones & General Manager, Transportation</p>

<p>2. Can the Administration investigate why the 311 complaint that was called in by a citizen on 2005 May 16 with respect to this matter has still not been responded to as of 2005 June 8?</p> <p>Mayor Bronconnier requested that Alderman Jones provide details on the 311 request as he would like to follow up on the matter.</p> <p>City Manager Tobert requested that Alderman Jones also provide him with a copy of the 311 complaint for follow up. City Manager Tobert advised that back laneways were often subject to subsequent utility repairs the timing of which were difficult to predict. He advised that he would have the file investigated and report back to Alderman Jones and the citizen concerned.</p>	
---	--

C) Parking Assessment Appeals (Alderman King)

<p>With respect to those 85% of tax payers who successfully appealed their parking assessment, why is The City now appealing their success?</p> <p>General Manager Watson replied that The City was appealing the entire matter of parking assessments to the courts as it is felt that the Municipal Government Board made an incorrect decision.</p> <p>He further advised that the court case would take some time to complete however, and that not to appeal could possibly weaken The City's case.</p>	<p>Alderman King & General Manager, Planning, Development & Assessment & City Solicitor & City Clerk's - ARB</p>

E2005-06 EAST VICTORIA PARK INFRASTRUCTURE REQUIREMENTS AND COSTS

SUMMARY/ISSUE

The approval of The Rivers Tax Increment Finance (TIF) District has implications on the East Victoria Park Land Use, Transportation and Infrastructure Study (East Victoria Study), the Victoria Park School Site Special Development Agreement and the Cost of Growth Study. This report is to update Council on how Administration is handling these various issues.

PREVIOUS COUNCIL DIRECTION

In 2004 Council approved a Land Use Re-designation on the Victoria School Site for a high density mixed-use development. The vehicle to determine this was to be the East Victoria Park Land Use, Transportation and Infrastructure Study. Council had requested a

Included in that Study was a small group of the major landowners in the area, The City and the Calgary Exhibition and Stampede. The Victoria Crossing Business Revitalization Zone and the Community Association were also part of the Study process. A number of meetings were held and initial infrastructure costs were determined.

AND WHEREAS the City of Calgary already has a bylaw prohibiting the use of engine retarder brakes within the corporate limits;

(Alderman King)**

WHEREAS metered on-street parking is a key tool in managing parking supply and maintaining successful urban retail districts;

AND WHEREAS short and long term parking facilities are in short supply in the downtown core as well as other Business Revitalization Zones in Calgary;

AND WHEREAS current on-street metered parking pricing policy defines it as a private good which is priced according to market conditions;

AND WHEREAS pricing should balance the need to maintain successful retail districts in the inner city, in light of competition from shopping malls offering free parking, with market forces to ensure the sustainability of both residential and business communities in the inner city;

AND WHEREAS triple bottom line accounting should underlie all strategies and actions, as outlined by Council's 2006-2008 Priorities, meaning that any review of parking policy must reflect more than the impacts on the economic market;

NOW THEREFORE BE IT RESOLVED that the Calgary Parking Authority undertake a review of metered on-street parking pricing policy so as to ensure that it reflects the social, as well as environmental and economic impact of such pricing;

AND FURTHER BE IT RESOLVED that the review reflect an acknowledgement of the economic, social and environmental benefits of having successful Business Revitalization Zones;

A) Separate Land Use Classification for Methadone Clinics (Alderman King)

With respect to methadone clinics that are classified under the Land Use Bylaw as Medical Clinics, can the Administration advise whether the classification can be changed to a separate classification and how quickly can the change occur as an urgent matter?

Mr. Craig Meyers, Law Department, advised that amendments to the Land Use Bylaw could be brought forward to deal with this matter however this would likely take four to five months considering circulation and advertising. He further advised that a Bylaw change would not affect the current situation because bylaws of that type are not retroactive.

C2005-56 DRAINAGE BYLAW REVIEW

SUMMARY/ISSUE

Drainage Bylaw 26M98 is required to be updated to provide protection of City infrastructure, City workers, the general public, and manage The City's environmental liability with respect to water quality within The City of Calgary.

PREVIOUS COUNCIL DIRECTION

Implementation of two new bylaws, Community Standards 5M2004 and Lot Grading 32M2004, has created the need to update the Drainage Bylaw 26M98.

REPORT OF THE S.P.C. ON UTILITIES AND ENVIRONMENT DATED 2005 JUNE 22

UE2005-23 CURRENT STATUS REPORT ON CONSTRUCTION COSTS

SUMMARY/ISSUE

A number of factors are having a major impact on the estimated costs of major City projects. These factors include:

1. Significant increases in the prices of materials, labour and land;
2. Increases in prices due to current market conditions in Alberta; and
3. Finalization of the scope of projects to respond to regulatory, operational, and growth requirements.

Administration has previously advised Council of the situation, undertaken a further due diligence review and is updating Committees and Council as to the changes to budgets required to address these challenges.

In some instances significant work has already been undertaken on major programs including Pine Creek WWTP and the Glenmore/Bearspaw WTP upgrades. In order to continue with construction to meet legislated, growth and operational requirements, adjustments to project budgets will be required.

Increases in the cost of construction require that project budgets be updated and presented to Council for review and approval. Revised estimates are not the same as cost over runs.

Revised estimates prior to tendering for construction reflect the result of better information based on a new understanding of changed construction cost factors, including specifically revised material and labour inflation rates and an increased volume of work in the industry in general.

PREVIOUS COUNCIL DIRECTION

The Transportation Department previously presented a report to the S.P.C. on Finance and Corporate Services (FCS2005-20). As part of this report Council asked Asset Management & Capital Works (AM&CW) to report back quarterly on construction cost trends and construction cost mitigation strategies.

RECOMMENDATION OF THE ADMINISTRATION

The S.P.C. on Utilities and Environment recommends that Council receive this report for information.

LAS2005-123 AFFORDABLE HOUSING DEVELOPMENT ACTION PLAN (ALL WARDS)

SUMMARY/ISSUE

Council has requested that The City take a leadership role to develop 200 units per year which represents a commitment to develop one-half of the Calgary Homeless Foundation Community Plan target to develop 400 non-market housing units a year. The current approved 2006-2008 budget guidelines enable The City to develop 100 units in 2006 and 28 units in 2007 and 2008 and are therefore insufficient to meet the 200 unit target without additional funding. This plan identifies what actions are required to achieve Council's priority and identifies the need for on-going increased federal and provincial commitment to affordable housing.

PREVIOUS COUNCIL DIRECTION

Affordable housing is a City Council priority as identified in *Looking Ahead, Moving Forward, 2002 – 2004 (City of Calgary, 2002a)*.

On July 23, 2002, City Council approved the Corporate Affordable Housing Strategy CPS2002-57, which identifies and defines The City's roles in affordable housing including the direct funding and development of affordable housing (City of Calgary, 2002b).

On July 9, 2003, City Council approved the Affordable Housing Implementation Plan C2003-44, which directed the Administration to develop a sustainable resource management plan to guide development of the City's affordable housing resources (City of Calgary, 2003). In addition, Council identified the goal of creating 200 new units of affordable housing per year, by making maximum use of capital funding from the Canada-Alberta Affordable Housing Partnerships Initiative (AHPI) program. Two roles were identified for The City of Calgary in achieving this goal:

- (1) The City would provide non-financial assistance to private and non-profit organizations intending to develop non-market housing using AHPI funds; and
- (2) Where appropriate, the City would acquire housing, either acting as or working with a developer.

In March 2003, The City of Calgary received \$9.15 million in AHPI funding for the 202 unit Manchester project.

On July 26, 2004, City Council approved the Affordable Housing Sustainable Resource Management Plan Phase I (SRMP 1). The report directed Administration to take a leadership role in the development of 200 units of affordable housing annually to maximize the AHPI funding and to initiate a proposal call process to determine the level of private sector interest in partnering with The City of Calgary to develop the units. The City's Expression of Interest, released in September 2004, received only minimal response from the private sector. The report also directed the Administration to begin the process of applying for AHPI funding, prior to the end of March 2005, to develop an additional 200 units of non-market housing (The City of Calgary, 2004b). The City of Calgary applied for and received \$6.4 million in AHPI funding for the 128 unit Crestwood development, constituting part of the SRMP 1 implementation efforts. Experience has shown that the current \$50,000/Unit AHPI contribution represents on average 40%-50% of the total construction costs (in 2004) and is insufficient to meet development costs in Calgary.

RECOMMENDATIONS OF THE ADMINISTRATION

That Land and Asset Strategy Committee to recommend Council:

- 1) Confirm Council's direction to build 200 units of affordable housing per year, and direct administration to bring forward the budget request of \$2.5 million in 2006 and \$3.8 million each in 2007 and 2008 for a total of \$10.1 million during budget planning guidelines in September prior to the 2006-08 budget deliberations. (2006 includes the extension of Council's approved \$1.3 million beyond 2004-2006)
- 2) Approve the "Acquisition of Affordable Housing Lands for Municipal Purposes Policy" as set out in Attachment 1.
- 3) Approve the Affordable Housing Development Action Plan (Attachment 2) that identifies several initiatives for Administration to undertake to increase the supply of affordable housing such as but not limited to:
 1. Investigate alternative development and financing options;
 2. Investigate the options, feasibility, and impact of developing guidelines that encourage the consideration of non-market housing in the disposition of City owned lands;
 3. Initiate a short-term development strategy to use appropriate municipal lands for direct development or lease in strategic partnerships;
 4. Develop principles to establish roles and responsibilities for partnerships in affordable housing;
 5. Seek donations of land and capital to further offset Municipal contribution requirements;
 6. Develop a long term affordable housing development strategy to evaluate the affordable housing needs in Calgary as the city grows and acquire land accordingly to meet those needs. This strategy would include the development of a comprehensive plan as well as the participation various City initiatives (e.g. in long range planning processes, transit station planning, road improvement projects, surplus school site committees).
- 4) Direct Administration to work with other levels of government to achieve:
 1. A signed Federal/Provincial funding agreement for Phase 2 of the Affordable Housing Partnerships Initiative (AHPI) program;
 2. Ongoing AHPI program beyond Phase 2;
 3. An increase in per door AHPI contributions to a minimum of \$90,000/door; and

4. An increase of the total Federal and Provincial investment contribution to \$36,000,000/year to Calgary to achieve 400 units/year.

RECOMMENDATIONS OF THE LAND & ASSET STRATEGY COMMITTEE

1. That the Administration Recommendations contained in Report LAS2005-123 be approved; and
2. That Report LAS2005-123 be forwarded as an item of Urgent Business to the 2005 July 4 Regular Meeting of Council.

FCS2005-29 SOUTH FISH CREEK RECREATION ASSOCIATION (SFCRA) LEASE

SUMMARY/ISSUE

The South Fish Creek Recreation Complex Association (SFCRA) lease requires amendment to allow investment of the Capital Maintenance Reserve Fund and Operating Reserve Fund.

RECOMMENDATIONS OF THE ADMINISTRATION

The S.P.C. on Finance and Corporate Services recommends that Council:

1. Amend Section 14.1 of the SFCRA Lease by removing the words “interest bearing” so that the clause reads as follows: “The Society will, by the effective date of this lease, set up a Capital Maintenance Reserve Fund, separate from other SFCRA funds”. The initial amount of the Capital Maintenance Reserve Fund will be EIGHT HUNDRED AND TEN THOUSAND DOLLARS (\$810,000.00);
2. Approve the SFCRA investment policy with clarification that in Section 3 of the Investment Policy, Fund Overview, the collective ‘Reserve Fund’ as referenced, is solely for use in the context of investment management and that the Lease, not the Investment Policy, governs the use of the funds. This section also applies to both the Capital Maintenance Reserve Fund and the investment return generated, and the Operating Reserve Fund and the investment return generated;
3. Add Section 14.1 (a): The Capital Maintenance Reserve Fund will be invested in accordance with the approved Investment Policy of the SFCRA. This policy and any material changes to it as approved by the Association’s Board of Directors must be in form and substance acceptable to The City of Calgary.
4. Amend Section 14.2 and 14.7 by replacing “the interest generated’ with “the investment return generated”; and
5. Add Section 10.10 (d) “a report on investments in the Capital Maintenance Reserve Fund and Operating Reserve Fund.”

FCS2005-30 CONSTRUCTION COST TRENDS AND MITIGATION STRATEGIES (STATUS REPORT #1)

SUMMARY/ISSUE

A number of factors are significantly impacting the estimated costs of major City projects. These factors include:

1. Significant increase in the prices of materials and labour;
2. Increase in construction costs due to current market conditions in Alberta, based on the large volume of work within Alberta and British Columbia; and

In some instances significant work is already underway on major programs, including Pine Creek Waste Water Treatment Plant, the Glenmore/Bearspaw Water Treatment Plant upgrades, and transportation projects such as Glenmore/Elbow/5th. AOC05-66 CSIF REQUEST – THE CALGARY FOUNDATION 50TH ANNIVERSARY CELEBRATION ANNOUNCING HARVEY PASSAGE [FOIP 24(1)(a)]

SUMMARY/ISSUE:

Under the Council Strategic Initiatives Fund Guidelines (CSIF) the AOCC has authority to grant awards up to \$25,000. The AOCC may make recommendations to Council on applications exceeding \$25,000.

This is a dual purpose event at Prince's Island to celebrate the 50th Anniversary of the Calgary Foundation and to announce the "Harvie Passage", the reconstruction of the Bow River weir and eventual park.

The Calgary Foundation helps public-spirited citizens find ways to achieve their charitable goals and make Calgary and area a better place to live. They handle over 700 endowment funds and last year assisted in \$25,000,000 in financial assistance being passed to 515 different charities.

The Calgary Foundation has played a key role in the re-construction project of the Bow River weir. Harvie Passage will be a river park in the heart of Calgary that will complement and support Calgary's communities, parks and public facilities on the Bow River.

The organizers plan an event to celebrate 50 years and announce the re-construction project and Harvie Passage river park to 5,000 invited guests.

Premier Klein and Mayor Bronconnier are expected to speak at the event.

This is a one-time, non-profit event. It has a low economic impact factor and a medium recognition factor. It is not open and accessible to Calgarians.

ITEM DIRECTLY TO COUNCIL

NOTICE OF MOTION, DATED 2005 OCTOBER 17

NM2005-35 HIGHWAY 22X (MARQUIS OF LORNE TRAIL) BRIDGE TWINNING
(Alderman Fox-Mellway)

WHEREAS concern for safety on Highway 22X has been a priority for me and a long standing concern for residents, which led to my getting the 1998 Safety Audit done which identified the need for the twinning of the roadway between Deerfoot Trail and Macleod Trail including the twinning of the bridge;

AND WHEREAS Highway 22X is within the Transportation and Utility Corridor and has always been designated as a Provincial responsibility;

AND WHEREAS in 2002 Council passed my Motion Arising regarding Micro-simulated Computer Traffic Modeling and the subsequent report identified the need to twin Highway 22X from Macleod Trail to the Bow River which has now been completed;

AND WHEREAS when the road widening was approved in 2004, the Province had stated that the bridge twinning, including all the environmental issues in Fish Creek Provincial Park would follow the road quite quickly;

AND WHEREAS Council approved my Motion, December 6, 2004 "that the Mayor request the Province to confirm they will provide funding in the amount of \$25.4 million for the Hwy. 22X bridge as part of the Provincial Ring Road to be built in conjunction with the Hwy. 22X widening scheduled for 2005";

AND WHEREAS in response to a letter from Mayor Bronconnier regarding the Motion of December 6, 2004, on January 27, 2005, Dr. Lyle Oberg, Minister of Infrastructure and Transportation stated "Highway 22X safety issues with this section remain within the City's jurisdiction....we have established the northwest portion of the Calgary Ring Road as the highest priority for completion";

AND WHEREAS the Minister has recently announced that he is investigating taking a look at the possibility of the Ring Road being much further south, (which would exclude Hwy. 22X) as part of the Ring Road and this is a major concern;

AND WHEREAS Calgary is lacking mobility corridors east/west;

NOW THEREFORE BE IT RESOLVED that Administration take into account the Safety Audit Report and the Micro-simulation Computer Traffic Modeling report in their review of the upcoming TIIPS.

CITY MANAGER'S REPORT

C2005-71 TRANSPORTATION INFRASTRUCTURE INVESTMENT PLAN UPDATE (TIIP) (2006-2015)

SUMMARY/ISSUE

This report identifies the current progress of The City's transportation infrastructure initiatives and identifies recommended priorities for the period 2006 to 2015. It represents an update to the existing 2005-2014 TIIP program to reflect new funding sources and changes to project schedules and cost estimates.

The TIIP update follows the strategic direction for transportation as outlined in the Municipal Development Plan (MDP) and Calgary Transportation Plan (CTP). The projects and programs recommended in this report will help to meet the mobility needs of Calgarians while moving towards a more sustainable transportation system.

RECOMMENDATIONS:

That Council:

1. Approve the list of projects contained in Appendix 1 of the Attachment as the TIIP list for 2006 – 2015 and direct Administration to use it as the basis for the 2006 – 2015 Capital Budget presentation; and
2. Use the information in this report when considering the potential to allocate additional funds to transportation infrastructure as part of the 2006 Capital Budget deliberations.

CLERICAL CORRECTION

He advised that Melanee was also a candidate for a major political party in the 2004 federal election, and is currently a nominated candidate for the upcoming federal election. Melanee is involved with the Graduate Students' Association at the University of Calgary and hopes to complete her MA by early 2006.

INTRODUCTION

Municipal Intern, Town of Canmore

Mayor Bronconnier welcomed David Wheeler, Municipal Intern student with the Town of Canmore to today's Council Meeting. He advised that Mr. Wheeler was job shadowing for the morning with the City Clerk's Office and requested that he stand and be recognized by Council.

PRESENTATION

Presentation of Council's Priorities 2006-2008

Mayor Bronconnier presented to Council the document titled 'Council's Priorities 2006-2008 Looking ahead Moving Forward'. He advised that it had been a busy year for administration as well as City Council, as we move forward to adopting a new approach to business planning and budgeting. He further advised that the document was a commitment, endorsed by Members of Council that sets out the priority areas for 2006 through 2008, and identifies the action items, projects and programs that will help deliver on the priorities.

Mayor Bronconnier advised that in addition to confirming its priorities for the 2006 to 2008 term, Council has included specific projects and tactics to deliver on those priorities. The document is Council's response to the areas of concern and decision making identified by the citizens of Calgary.

QUESTION PERIOD

A) United Way Fundraising (Alderman Ceci)

<p>With regard to The City's United Way fundraising, are we close to reaching our targets?</p> <p>General Manager Hargesheimer responded that the fundraising campaign officially closed on October 31, and they were optimistic the goal would be reached.</p>	<p>Alderman Ceci</p>
---	----------------------

B) Bus Shelters (Alderman Larocque)

<p>Alderman Larocque indicated her office had received complaints regarding bus shelter damage. Based on the contract The City has with the provider, how quickly are they responding or is The City responsible for the clean up? There are a number of shelters that have not been attended to for more than a week where the glass has remained on the road. What is the timeline for response to cleaning up the damaged shelters?</p> <p>General Manager Vennard responded he will get the specific locations from Alderman Larocque, check with Transit and provide a response to Alderman Larocque and Members of Council in writing.</p>	<p>Alderman Larocque & General Manager, Transportation</p>
--	--

C) Storm Water Damage (Alderman McIver)

<p>Alderman McIver indicated he understood that The City of Calgary is under a court order to deal with storm water management issues in south east Calgary relating to discharges in the western irrigation district canal. He asked whether his understanding was correct that the schedule to complete is not until 2008.</p> <p>Mayor Bronconnier clarified there was not a court order but an agreement in place between The City of Calgary, Alberta Environment, the Western Irrigation District, the Town of Chestermere and possibly one other party. City Manager Tobert responded that the Administration had reached an agreement with the parties. He advised the solution was a good one and enhances a substantial amount of land in the southeast quadrant of The City. He further advised the stormwater management components will be completed on time. Mayor Bronconnier indicated there were two components to the project, one involves the Province of Alberta with regard to access to what is referred to as 'the ditch'. He advised The City of Calgary project was on time for 2007 and as mentioned, the acquisition of land is under the jurisdiction of the Province.</p>	<p>Alderman McIver & City Manager</p>

M2005-04 COMMUNICATION FROM THE CITY CLERK RE: 2006 COUNCIL
CALENDAR
(Continued on Page 41)

SUMMARY/ISSUE

Discussion, at Council's direction, of two additional iterations of the 2006 Council Calendar.

Revised Alternative 2 is the Mayor's Calendar which was distributed at the 2005 Organizational Meeting. This Calendar has been changed to mirror Alternative 1 for committees, Subdivision and Development Appeal Board (SDAB), and Calgary Planning Commission (CPC) but still only has two Council meetings per month. The exception being for the month of October which schedules the 2006 Organizational meeting as well as Combined Public Hearing/Regular Council meeting.

Alternative 3 indicates as much as possible the changes proposed by Members of Council. Members of Council's suggestions have been incorporated, where possible, into an Alternative 3 for consideration. As Alternative 1 was the calendar preferred by the majority of those who contacted the Office of the City Clerk, Alternative 1 has also been revised. Alderman Ceci's suggestion of four additional meetings could be added to Revised Alternative 2 should Council desire.

In accordance with Section 193(1) of the Municipal Government Act, all Members of Council must be in attendance in order to adopt the Council Calendar.

RECOMMENDATION OF THE CITY CLERK

That Council select Alternative 1, or Revised Alternative 2, or Alternative 3 for the 2006 Council Calendar.

REPORT OF THE ALDERMANIC OFFICE COORDINATING COMMITTEE DATED 2005
NOVEMBER 14

AOC05-19 ELECTION CONTRIBUTION AND EXPENSE REPORTING

SUMMARY/ISSUE

Following the last election some confusion arose regarding the reporting of campaign contributions received through fund raising events.

Uncertainty developed over

- 1) whether just the net from fundraising could be reported and, if so,
- 2) whether a contribution of more than \$100.00 to a fundraising event needs to be disclosed in Schedule 'C'.

The current bylaw provides in Schedule 'B' for the reporting of "Net Revenue from Fundraising Functions". This allows for reporting of the net amount raised through such functions, rather than requiring the reporting of all gross revenues and expenses related to such functions.

The definition of a "campaign contribution" in the bylaw includes "revenue raised from a fundraising function by the sale of tickets or otherwise...".

The bylaw also requires the candidate to report "each contributor whose cumulative contributions exceeds \$100.00..." .

The AOCC asked the Returning Officer for clarification of point 1 above and were advised that it is acceptable to report just the net of fundraising functions.

Subsequently the AOCC decided to review the matter further with the intent of clarifying these matters through possible amendments to the bylaw.

It came to light in discussions at Committee that there also appeared to be some confusion over the accounting certification or designation that is required of the person signing the "Statement of Auditor".

The Committee had discussions with representatives of Law and Finance on these matters.

AOCC RECOMMENDATIONS:

That the Committee recommend to Council that Council direct the Law Department to prepare amendments to the Campaign Expenses and Contributions Bylaw to promote consistency of disclosure and reporting among candidates by establishing in the Bylaw that:

- 1) any contributor of a cumulative contribution of more than \$100.00 must be disclosed, even if the whole or any part of the contribution is received through a fund raising event and
- 2) the 'Statement of Auditor' must be undertaken by a person registered as a member in good standing of a professionally recognized accounting body certified to conduct this type of activity in Alberta.

REFER, Moved by Alderman Fox-Mellway, Seconded by Alderman Farrell,

That Report AOC05-19 be referred back to the Aldermanic Office Coordinating Committee to design a separate schedule to reflect campaign expenses that nets actual dollars to the candidate and prepare a bylaw amendment prior to the last meeting of Council in 2006 February. AOC05-86 NM2005-31 – CAMPAIGN FINANCE RULES

SUMMARY/ISSUE

2005 September 26 Council referred NM2005-31 – Campaign Finance Rules (Alderman McIver) to the AOCC for a report back to Council no later than 2005 December 12. A copy of the NM2005-31 is attached.

The AOCC reviewed NM2005-31 on 2005 October 20. The meeting was attended by representatives of Law and Finance who were available to the Committee members for information and advice relating to the matters raised in NM2005-31.

Prior to discussing NM2005-31 the AOCC dealt with a separate related item which had been on its Agenda for sometime. That is AOC05-19 Election Contribution and Expense Reporting. The decision of the AOCC on that item touches on some of the issues raised in NM31-2005. The recommendation of the AOCC relating to AOC05-19 Election Contribution and Expense

Reporting is also before Council today. The recommendations of the Committee on that matter are as follows:

“That the Committee recommend to Council that Council direct the Law Department to prepare amendments to the Campaign Expenses and Contributions Bylaw to promote consistency of disclosure and reporting among candidates by establishing in the Bylaw that:

- 1) any contributor of a cumulative contribution of more than \$100.00 must be disclosed, even if the whole or any part of the contribution is received through a fund raising event and
- 2) the 'Statement of Auditor' must be undertaken by a person registered as a member in good standing of a professionally recognized accounting body certified to conduct this type of activity in Alberta.”

After discussion of NM2005-31 and bearing in mind the recommendations of the AOCC relating to AOC05-19 the Committee approved the recommendation below in relation to NM2005-31.

AOC05-88 NM2005-33 – POSTING OF ALDERMANIC WARD BUDGETS AND EXPENSES

SUMMARY/ISSUE

2005 September 26 Council referred NM2005-33 – Posting of Aldermanic Ward Budgets and Expenses (Alderman Burrows) to the AOCC for a report back to Council no later than 2005 December 12. A copy of the NM2005-33 is attached.

The AOCC reviewed NM2005-33 on 2005 October 20. The Committee considered NM2005-33 and a report presented by the Manager, Office of The Aldermen.

Each ward has an annual ward budget. Aldermen receive monthly statements of expenses. Each ward has space on The City's external web site. Everything needed to post the budgets and expenses of Aldermen on a regular basis is available.

Current policy of the Office of the Aldermen states one of the key philosophical underpinnings of the office is:

“To hold each Alderman as the person accountable for the manner in which the resources allocated to their ward are used.” (Budgeting and Accounting – Office of the Aldermen, Paragraph 1, Item 3).

Aside from aspects of the records which might infringe upon a persons privacy under the Alberta FOIP Act, the budgets and expenses of the Aldermen are available to the public on request.

The interests of transparency and accountability will be enhanced by the implementation of this Notice of Motion. In addition, it may reduce the number of FOIP requests received by the wards and the corresponding time spent responding to those requests.

The Committee has decided to recommend the posting of ward budgets and expenses to Council.

Should Council approve this recommendation the Committee would then determine a format which respects the privacy of individuals. Summary information only will be posted and the information will be formatted to ensure individual salaries are not revealed.

AOCC RECOMMENDATIONS:

1. That the AOCC recommend to Council that it direct the Office of the Aldermen to post all Aldermanic Ward budgets annually and expenses quarterly to The City’s external web site starting 2006 January.
2. That the format of the posting be as approved by the AOCC from time to time and taking in to consideration the need for confidentiality of individual salaries of persons other than elected official

AMENDMENT, Moved by Alderman Ceci, Seconded by Alderman Farrell that Recommendation 2 contained in Report AOC05-88 be amended by deleting the words “the AOCC” following the words “as approved by” and substituting with the word “Council”.

AOC05-91 CSIF REQUEST – CALGARY SPORT COUNCIL AND CALGARY SPORT TOURISM AUTHORITY

SUMMARY/ISSUE

Under the Council Strategic Initiatives Fund Guidelines (CSIF) the AOCC has authority to grant awards up to \$25,000. The AOCC may make recommendations to Council on applications exceeding \$25,000.

Each of these two groups has made an application for 75,000 from the CSIF. The application has been made jointly because the groups see themselves as part of a three party partnership under the umbrella of the Calgary Sports Policy. The third partner is The City of Calgary.

The Calgary Sports Policy is intended to enhance the reputation of Calgary as a leader in the promotion and programming of sport and active lifestyles for its citizens.

Last year the Calgary Sport Policy received 25,000 in funding from the CSIF.

The Calgary Sport Council plans to use the proposed funding to:

- Develop a vision for growth of amateur sport in Calgary.
- Act as a resource for amateur sport in Calgary.
- Act as an advisory council to sport stakeholders in Calgary.
- Provide a unified voice for amateur sport in Calgary and
- Increase the profile of amateur sport in Calgary.

The Calgary Sport Tourism Authority plans to use the funding to:

- Develop a sport bidding and hosting plan.
- Develop a decision-making framework for a strategic approach to sport event tourism.
- Coordinate with the Federal and Provincial Hosting and Bidding Strategy.
- Align stakeholders and encourage public and private sector partnerships for bidding.
- Make recommendations to Council with respect to Calgary's involvement in hosting sport tourism events.

This application is in the nature of an initiative rather than an event. The criteria for an initiative are to promote the goals of Council. The applicants submit they are promoting Council goals by:

- Investing in things that enrich Calgarians lives,

- Enhancing collaboration with other agencies and partners,
- Creating safe, healthy communities; promoting recreation and healthy living and
- Addressing recreation gaps.

A copy of the full application is attached.

PRESENTATION

“THE BRIDGES” REDEVELOPMENT CONCEPT PLAN AWARDS

Mayor Bronconnier advised that, in 1997, when the Calgary Health Region closed the Calgary General Hospital, The City of Calgary became heir to the redevelopment site which ultimately became The Bridges Project.

Mayor Bronconnier advised that The Bridges Redevelopment Project Team received the following awards in 2005:

- Mayor’s Urban Design Award of Excellence for 2005 for an Approved or Adopted Urban Design Plan;
- 2005 MIPIM (International Real Estate Forum) Architectural Review Future Project, Award Mention in the Master-Planned Communities Category;
- 2005 Canadian Urban Institute Brownie Award – Finalist in the Green Design and Technological Innovation Category;
- Canadian Society of Landscape Architects, Professional Awards Program; and the
- Alberta Association of the Canadian Institute of Planners.

Mayor Bronconnier advised that The Bridges Concept Plan was the only North American entry to win an Award Mention by the 2005 MIPIM (International Real Estate Forum). He further advised that these awards showcase the world’s most impressive recently developed real estate projects and that The Bridges was one of three projects commended in that category.

Mayor Bronconnier requested that the following team members in attendance in the public gallery stand and be recognized by Council:

Land Use Planning & Policy:

Susan Palmer, Senior Planner
Glen Radway, Senior Planner

Corporate Properties & Buildings:

Colleen Roberts

Sturgess Architecture:

Jeremy Sturgess
Lesley Beale

Carlyle & Associates:

Doug Carlyle

Glenn Lyons Consulting Ltd:

Glenn Lyons

D. A. Watt Consulting:

David Watt
Nick Finn

Mayor Bronconnier also recognized the members of the citizens Planning Advisory Committee and the Bridgeland/Riverside Community Association, The City of Calgary’s Parks, Urban

Development, Transportation Planning, Calgary Roads, and Development & Building Approvals Business Units for their work on the project.

Mayor Bronconnier then requested that Team Leaders, Susan Palmer, Colleen Roberts, General Manager David Watson, Acting City Manager Brad Stevens, and Jeremy Sturgess come forward to receive the awards on behalf of the team.

General Manager Watson advised Mayor Bronconnier and Members of Council, that the accomplishments achieved by The Bridges project were significant for several reasons. He advised that the Corporate Properties & Buildings Business Unit and Land Use Planning & Policy Business Unit exemplified effective collaboration between two City business units. He further advised that the planning process delivered a forward thinking plan that realized The City's first comprehensively planned transit-oriented development which is a significant accomplishment for a process that began amid much controversy and which is located in the heart of an historic inner city community.

He further advised that, as the land developer, The City has achieved the vision set out in the Bow Valley Centre Concept Plan. He advised that The Bridges will leave a legacy for all Calgarians – not only in the public improvements such as Murdoch Park – but also through the projects that will be funded when the Calgary General Hospital Legacy Fund is created.

QUESTION PERIOD:

A) City of Calgary's Kyoto Targets (Alderman Ceci)

<p>Can the Mayor update Council on what The City of Calgary is doing in order to reduce greenhouse gases and protect the climate?</p> <p>Mayor Bronconnier replied that The City is in a very enviable place and is the only city in Canada, and quite likely in North America, which will not only achieve, but likely exceed, its Kyoto target. He advised that many cities in Canada do not have a strategy around greenhouse gas reduction.</p>	<p>Alderman Ceci & General Manager, Utilities & Environment</p>

LPT2005-86 CONVERTING 11 AND 12 AVENUES SOUTH TO TWO-WAY TRAFFIC

SUMMARY/ISSUE

This report summarizes the overall impacts and merits of converting 11 and 12 Avenue S from one-way to two-way traffic operations. Rationale and benefits of a conversion are detailed in ATTACHMENT 3.

ADMINISTRATION RECOMMENDATIONS

The S.P.C. on Land Use, Planning and Transportation recommends that Council:

1. Not convert 11 and 12 Avenues South to two-way operation at this time;
2. Plan for two-way conversion in the long term, within the existing right of way, when major transportation improvements are in place to help mitigate any loss of roadway capacity. At

that time, the ultimate conversion to two-way operation should be reviewed to ensure it still aligns with overall City goals and objectives;

3. Direct Administration to develop a pedestrian/cycle enhancement plan along 10, 11 and 12 Avenues within the existing one-way operation and rights of way and report back to Council with concepts and funding alternatives by 2006 March;
4. Direct Administration to begin preliminary design and costing of 10 Avenue/14 Street S.W. intersection reconstruction as an at-grade intersection to allow full east/west through traffic.
5. Direct Administration to place the at-grade reconstruction of 10 Avenue/14 Street S.W. as a candidate project under the TIIP program; and
6. Direct Administration to review the feasibility and appropriateness of converting to two-way operation on 11 and 12 Avenues S, west of 14 Street W, after intersection improvements at 10 Avenue/14 Street S.W. are in place and in consultation with the Sunalta and Scarboro communities.

COMMITTEE RECOMMENDATIONS

1. That Report LPT2005-86 be filed.
2. Direct administration to undertake an urban design streetscape plan for 11th Avenue between 5th St. S.W. and 11th Street S.W. within the existing one-way operation, right-of-way and bylaw setback. This plan should be developed in concert with an overall pedestrian/cycle enhancement plan for 10th, 11th and 12th Avenues, with a report back to S.P.C. on Land Use, Planning and Transportation with concepts and funding alternatives by 2006 May.

CITY MANAGER'S REPORT, DATED 2005 DECEMBER 12

C2005-84 2006 – 2008 ENMAX EQUITY FUNDING FOR THE REGULATED
ASSETS BUSINESS
(FOIP Sections 23 (1) (b) and 24 (1) (c))

SUMMARY/ISSUE

Council approval is required to continue the application of a municipal surcharge to collect equity funding to finance ENMAX's distribution system capital expenditures.

In 2004, the Alberta Energy and Utilities Board ("EUB") disallowed the long-standing practice of collecting equity funds directly through ENMAX's rates (EUB decision #2004-66). Council subsequently approved a municipal surcharge pursuant to Section 138 of the Electric Utilities Act to collect these funds. This request to Council is to continue collection of these funds beyond 2005 December 31 for at least a three year time period to coincide with the multi year budget approach adopted by Council.

ADMINISTRATION RECOMMENDATIONS

That Council:

1. Approve the continuation of the municipal equity rate rider for ENMAX's regulated distribution business at the rate of 0.191 cents per kWh effective 2006 January 01; and
2. Direct that the **Attachment to the Report** remain confidential under Sections 23(1)(b), 24(1)(c) of the Freedom of Information and Protection of Privacy Act.
