1. OPENING PRAYER

Mayor Nenshi gave the opening prayer at today's meeting.

MOMENT OF SILENCE

Mayor Nenshi advised Council that he recently attended the memorial service for former Mayor John (Jack) Clifford Leslie. He further stated that each time a citizen uses the Bow River pathway or Prince's Island Park, enjoys the Christmas lights at Confederation Park, or walks in a Plus 15, they are experiencing Mayor Leslie's legacy. Mayor Nenshi quoted a reflection on success which was read at the memorial service and he requested a moment of silence in tribute to Mayor Leslie.

TRIBUTE TO CITY OF CALGARY EMPLOYEES

Mayor Nenshi offered a tribute to the Roads Department staff who worked around the clock this weekend to ensure the morning commute was safe and efficient.

2. QUESTION PERIOD

A) AUTOMATED STREET LIGHTING STUDY (ALDERMAN JONES)

Recently I asked a question regarding outage of streetlights. Since then I have received an email from a constituent indicating the City has installed 92 streetlights on Sarcee Trail which contain technology to automatically turn on, off and dim during non-peak hours as well as to signal when not working properly. Has the City established a timeframe for the study of the lights and when might this technology be employed throughout Calgary?

Mac Logan, General Manager, Transportation, responded that the City is conducting a study on these type of lights and a report will be coming to Council mid-year through the SPC on Land Use, Planning and Transportation.

B) INFORMATION SHARING THROUGH THE PLANNING APPLICATION PROCESS
(ALDERMAN LOWE)

I have received a complaint from a constituent who submits building permit plans electronically to The City of Calgary. He indicated that he receives unsolicited emails from companies as a result of using the City's online service. He was advised that the City of Calgary forwards lists of applicants for building permits to various contractors throughout the City. I would like to know whether the City of Calgary releases personal information through the planning application process.

David Watson, General Manager, Planning, Development and Assessment, indicated that active lists of development and building permits can be accessed, but he is unaware of any circumstances where the City would forward contact information to contractors. Mr. Watson advised he will investigate and respond to Members of Council directly.

C) **USAGE OF THE ADDITIONAL TRANSIT FUNDING FOR EXPANDED OPERATING HOURS (ALDERMAN CARRA)**

I have received several emails of inquiry regarding the expanded transit hours approved through the Budget process. There is concern that these expanded hours are not being put towards peak service, but are being used to establish longer hours of service. Could I receive clarification on how the increased funding for extra hours will be deployed?

Mayor Naheed Nenshi advised that there was a circulation from Mr. Fred Wong, Director Calgary Transit, which itemized in detail which routes were being increased.

Mac Logan, General Manager, Transportation, responded by indicating there are three ways the additional funding is being utilized:

1. Increasing service on existing routes by additions or extensions to peak hours;
2. Increasing frequency on existing routes; and
3. Introducing new service in areas that do not currently have it.

He advised that Transportation is using a combination of these three service improvements which include bus, shuttle bus and LRT services. Mr. Logan also advised that the department utilizes as much of the existing fleet as possible during peak hour service. He indicated he would provide the breakdown of how much peak service increase has occurred as a result of the additional funding directly to Members of Council.

CALGARY HERITAGE AUTHORITY

Mayor Nenshi welcomed citizens in attendance and introduced the Calgary Heritage Authority Plaque Program, awards presented by the Calgary Heritage Authority recognizing historically significant places in the City of Calgary, along with those citizens who have helped identify, protect and manage these places of historical significance. The Mayor affirmed Council's support of this program, and called forward Mr. Scott Jolliffe, Chairman of the Calgary Heritage Authority to further introduce the program and the three sites being chosen to receive Community Heritage Plaques.

After thanking Members of Council for their support, Mr. Jolliffe stated that, since 1991, the Calgary Heritage Authority has been presenting these plaques to recipients who have been nominated by Calgary community groups and individuals in recognition of their contribution to historical sites important to Calgary's historical evolution. Mr. Jolliffe recognized Lesley Beale, CHA Public Awareness Chair, Darryl Cariou and Clint Robertson of the City Administration's Heritage Planning Group, and Melanie MacKenzie of the Land Use, Planning and Policy group for their planning efforts for this presentation. Mayor Nenshi then made the presentations of the three plaques, as follows:

The first plaque, introduced by the Mayor and presented by nominator and gardener Mike Ricketts to Gareth Lukes and Lori Losowy, the Vice President and Past President respectively of the Bridgeland-Riverside Community Association, recognized the historic significance of the Bridgeland-Riverside Vacant Lot Garden, the only remaining original Vacant Lot Garden.

The second plaque, presented to Lexie Shmyr, President, Art Matsui, Vice President, and Adele Sanoy, Director of the Ramsay Community Association, recognized the Old North Trail, whose Ramsay section, was renamed Spiller Road.

The third plaque, presented to Bob Lang, President of the Mission-Cliff Bungalow Community Association, commemorated the Mission Bridge, long time river crossing and gateway into the city's core.

Mayor Nenshi and Council thanked and congratulated the individuals and groups who had worked to have these places recognized as community heritage sites.

He advised that Freedom to Read Week affirms the rights of Canadians to exercise intellectual freedom guaranteed under the Charter of Rights and Freedoms.

Mayor N. Nenshi introduced Allison Inglis, a representative of the Calgary Freedom to Read Week Committee, who commemorated the week by presenting City Council with a book entitled, "The Adventures of Huckleberry Finn" by Mark Twain. Ms. Inglis spoke on how Mark Twain drew attention to slavery and racism in his book and that one hundred and thirty years later, there are those that believe that merely replacing some of the offensive words in the book will make history more palatable. She stated that history is full of unpleasant words, choices and tragic events and should not be brushed under the rug. Ms Inglis announced that Mayor N. Nenshi is the 2011 recipient of the Freedom of Expression Award sponsored by Fast Forward (FFWD).

Mayor N. Nenshi thanked Ms. Inglis and encouraged everyone to celebrate and participate in the events taking place during Freedom to Read week.

11. ADMINISTRATIVE INQUIRIES

WAIVE ADMINISTRATIVE INQUIRIES, Moved by Alderman D. Hodges, Seconded by Alderman R. Pootmans, that Council waive the reading of the Administrative Inquiries.

CARRIED

a) Transit Budget Management for 2009 and 2010 (Alderman A. Chabot)

In November of 2008 Council approved an increase to Transit's Base Budget of 150,000 service hours to increase service levels. Included within the Budget was a projected cost recovery of a approximately 45% of the Budgeted amount through increased ridership and we have been advised that ridership went down also in 2010 we reduced the Base Budget increase by 60,000 service hours and we have been given evidence that ridership went up by

1% compared to 2009.

So the question is, can Administration provide in writing to Council as to how Transit made up for the variance in projected revenue in 2009 and 2010 that wasn't realized.

b) Red Light Camera Refunds/Liability (Alderman P. Demong)

Recently Alberta Justice ordered the refund of approximately \$12.7 Million dollars in Red-Light Camera fines collected in Edmonton by the Edmonton Police Service (EPS), apparently due to faulty cameras being installed there under the supervision and procurement policies of the Edmonton Police Service.

1. Does the City of Calgary and/or the CPS have any issues or potential problems and liabilities in this regard, since CPS uses the same camera supplier as the City of Edmonton Police Service does?
2. Do we know if the manufacturer of these cameras is being held liable for the refund amounts, or is the City of Edmonton, or does Alberta Justice have to make up any budget shortfall as a result of this decision?
3. Is it clarified within the CPS here in Calgary as to who would likely be held liable in the event such an occurrence had happened or might happen here in Calgary? In other words, is the CPS indemnified by the manufacturer, or does the CPS otherwise hold insurance, to cover such a potential risk/loss?
4. Give that under the "Police Act of Alberta" the Corporation of the City of Calgary has no legal control over CPS operational decisions, expenditures and procurements, nor involvement in any other risks the City may be exposed to as a result of CPS operations, is the City ultimately financially responsible anyway if CPS were to ever occur any large liabilities by court order in future, for whatever reason? Is there insurance in place by the CPS to cover any potential very large liabilities or award settlements if so?

Please Report back through Council.

c) Fluoride Inventories (Alderman P. Demong)

Council decided to discontinue with water fluoridation as of 2011 February 09.

It is no clear what inventories are on hand currently, and whether or not any purchases have been authorized for any future deliveries of fluoride to be received after this date.

1. What were the inventory levels of supplies on hand for month end 2010 December and for 2011 January?
2. What orders are outstanding in terms of fluoride purchases currently agreed to for future delivery?

3. What date were those orders entered, if any?
4. What return policy do we have for any inventories of supplies needed for water fluoridation of Calgary?

And Report back through Council.

d) Enmax Ethics & Accountability (Alderman P. Demong)

Given that ENMAX has a Board approved and published "ENMAX Principles of Business Ethics" in place, which clearly states that it is applicable to all employees including the President/CEO as well as all members individually of the Board of Directors itself, and that strictly following these principles is expressly outlined as a condition of employment and/or continuation on the Board:

1. In the City's opinion, was the published ENMAX Principles of Business Ethics followed to the full extent of both the written letter and the legal intent with respect to any treatment or expectations placed upon the President/CEO, as well as all and any Members of the Board of Directors individually and collectively?
2. If not, is it the City's opinion that the Board of Directors could be held personally liable and accountable for any financial settlements and liabilities that were incurred under their approval and supervision?
3. If legally determined to have been upheld, would any present or future contemplated severance packages for either the President or any Member of the Board of Directors be payable legally and if so, why?
4. What potential redress financially might be available to the City of Calgary if pre-emptive actions and payouts were approved by the Board prior to any ruling in this matter?
5. If both the letter and intent of the ENMAX Principles of Business Ethics were determined to have been followed legally, are there any suggested changes needed to improve governance procedures and ensure appropriate and readdress able accountability in future?

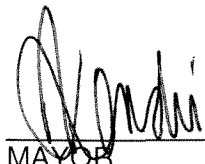

To Report back through Council.

13. ADJOURNMENT

(Continued from Page 2 of 5 of the Minutes)

DISTRIBUTION

"Growth Management Definition: Administration provide further information to substantiate the "stretched targets" within established areas, including but not limited to the type of housing, land redevelopment required, and the cost of infrastructure in established areas, in order to better understand the impacts city-wide, and better assess whether investments will be recovered.

The deliberate and integrated use of the planning, regulatory and fiscal authority of the municipality, through engagement with citizens and key stakeholders, to facilitate the pattern & timing of development and redevelopment in order to achieve growth that is socially, environmentally, and economically sustainable.

Principles – Land Supply

Maintain an optimally balanced land supply that supports the development of complete communities:

1. In developed areas by facilitating redevelopment that:
 - a. is planned in close collaboration with citizens and stakeholders affected by such intensification;
 - b. addresses change/intensification at the scale of the neighbourhood; and,

- c. concentrates intensification along transit supported nodes and corridors.
- 2. In developing areas by facilitating new growth that:
 - a. can accommodate intensification over time; and
 - b. is initially developed at a level of intensity (densities and degree of mixes of uses) appropriate to the current market-demand, and the transit and servicing immediately available.

Principles – Monitoring and Analysis

Make strategic growth decisions based on a qualitative (ie: human-scaled urban vs. automobile-scaled suburban) and quantitative foundation of timely and rigorous monitoring and analysis of growth trends, costs and benefits.

Principles – Sequencing and Prioritizing

Prioritize neighbourhood-based growth for developed and developing areas according to criteria that takes into account the city's strategic interests, logical, efficient and economical provision of services, the ability to accommodate change over time, and community and landowner interests.

Principles – Service Delivery

Define levels of service appropriate to different growth areas (eg., developed and developing neighborhoods, activity centres, corridors), the thresholds and resources necessary to achieve them, and established trigger points to increase service delivery to accommodate intensification.”

3. QUESTION PERIOD

(A) Cell Towers on Municipal Reserve (MR) Sites (Alderman R. Jones)

A couple of years ago I asked a question about allowing cell towers on Municipal Reserve (MR) sites, and particularly, on community sites so they could receive the benefit of the money. Since that time I have contacted several business units to find out whether a response is coming forward or should I prepare a Notice of Motion on this issue?

David Watson, General Manager, Planning, Development and Assessment, responded that there were several players involved and that all Aldermen have issues with cell phone towers in their wards. REPORT ON CORPORATE PROPERTIES (ALDERMAN SHANE KEATING)

With the City of Calgary currently undertaking the budgetary process for the next three years, I am cognizant of a need to review any opportunity to maximize funds where possible.

Franchise Fee Methodology (Alderman P. Demong)

Under current policies, The City of Calgary uses an uncommon methodology to calculate franchise fees, unlike Edmonton or almost any other municipality in Alberta. Edmonton is also significantly more competitive when it comes to franchise fee charges and rates as well. Calgary's methodology and overall take has received criticism from several groups such as the Canadian Federation of Independent Business (CFIB) and may be affecting overall competitiveness, possibly leading to loss of business from Calgary.

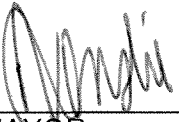

1. What would have been the financial ramifications over the past 3 years to the City of Calgary if we were using the same methodology for calculating Franchise fees as what Edmonton uses?
2. What would have been the financial ramifications for Calgary if we also matched Edmonton's franchise fee rates as well in order to remain competitive?

14. ADJOURNMENT

ADJOURN, Moved by Alderman D. Hodges, Seconded by Alderman R. Jones, that this Council adjourn at 6:35 p.m.

2. QUESTION PERIOD

A) PROGRESS ON CORPORATE PROPERTIES REPORT (Alderman S. Keating)

By Administrative Inquiry, I recently requested a Report on Corporate Properties owned by the City of Calgary. I did receive a reply that said a full accounting could be done within a year to possibly a year and three months. I am surprised that it will take a year to come up with this list. Is there something that could be done to shorten the time needed?

Brad Stevens, General Manager Corporate Services, responded that a report is being prepared that will answer some of those questions, coming later this year. The Administrative Inquiry included all City properties in its scope, and General Manager Stevens only manages some of those buildings, so he was unable to answer some of the information. General Manager Stevens advised that he would review and get back to Council with an updated timeline.

2. QUESTION PERIOD

a) Slave Lake Fires (Alderman J. Mar)

In light of the tragic fires that are happening in northern Alberta, and particularly the Slave Lake region, what is the City of Calgary doing to extend a helping hand to those communities that are so desperate for assistance?

Erika Hargesheimer, General Manager, Community Services and Protective Services, responded by advising that the City Manager, Owen Tobert has sent out information to Members of Council advising them that Canada Task Force 2 has been deployed and are now assisting residents in northern Alberta. Additionally, 11 units and 110 firefighters and equipment are also being sent to offer assistance.

b) Consumption of Alcohol at Baseball League Games (Mayor N. Nenshi)

There have been a lot of mixed messages from the media with respect to consumption of alcohol on public playing fields by baseball leagues. Can you confirm whether the City is moving to zero tolerance on this issue or whether enforcement is based on a complaint basis?

Can Administration advise Council on the cost and implications to remedy this unsightly and hazardous condition? Or provide recommendations on alternatives to remediate this issue.

1. OPENING PRAYER

Mayor N. Nenshi gave the opening prayer at today's meeting.

2. PRESENTATION(S)/RECOGNITION(S)

2.1 FEDERATION OF CANADIAN MUNICIPALITIES 2011 GREEN CHAMPION

Mayor N. Nenshi advised that he had accepted, on behalf of The City of Calgary, the 2011 Green Champion Award from the Federation of Canadian Municipalities on Sunday, June 05. The City of Calgary was the only city to receive this award and was one of only two recipients in the country.

He further stated that the Green Champion Award recognizes Calgary's commitment to environmental sustainability, which is demonstrated through leadership and innovation across so many municipal departments. The City's focus on community engagement, tangible reductions of environmental impact, and a systems-thinking approach to environmental sustainability means that Calgary is a true leader in our country.

He then advised that this is an award of which all citizens can be proud. The City continues to work hard to find effective and innovative ways to improve its environmental sustainability, however, the recognition from The City's peers across the nation is a reminder that The City is on the right track.

The Mayor invited the City Manager, Owen Tobert to accept the award on behalf of all the citizens of Calgary. Mr. Tobert spoke on behalf of The City of Calgary employees and advised that the City has concern for sustainability everyday and that is the reason City employees are concerned and care about The City, because just like citizens, The City's employees are in for the long-haul.

3. QUESTION PERIOD

a) \$15 Fee Associated with Fine Revenue (Alderman A. Chabot)

Now that the Provincial Government is not going forward with the implementation of the \$15 fee associated with fine revenue, what will be done with the recently passed Bylaw 42M2011?

Paul Tolley, City Solicitor, responded that although the Bylaw cannot be made retroactive, the policy can be made retroactive. Council has the ability to rule and indicate the \$15 fee will not be collected and that what fines have been collected can be rebated. The Bylaw would still come into effect on the date that it is passed.

Mayor N. Nenshi also responded that an item is going to be added to today's Agenda on this matter.

b) Glenmore Reservoir (Alderman R. Jones)

Releasing the dam on the Glenmore Reservoir caused flooding downstream. Why does The

City of Calgary wait for a major rain event before the dam is released rather than releasing it slowly over a period of time to prevent flooding?

Rob Pritchard, General Manager, Utilities and Environment, responded that The City follows procedures established by a specialized consultant in dam operation and that the inflow of water coming into the dam is monitored closely. Reservoir levels are dropped in advance of a rainfall event, although they cannot be dropped too far in advance in case the anticipated rainfall doesn't occur, as the reservoir is primarily for drinking water.

Mr. Pritchard indicated that a balance must be struck between creating room in the reservoir to manage incoming high flows to mitigate floods downstream, while preserving the reservoir for its main purpose as drinking water. He stated that The City is mindful of the conditions downstream and that if action had not been taken then far more serious implications would have occurred. He further indicated that June is historically the wettest month for Calgary and that The City works with Alberta Environment to maintain the reservoir. He advised that the reservoir level is as low as it can be which does cause safety and recreation issues.

c) Glenmore Reservoir (Alderman R. Pootmans)

Further to Alderman Jones' question, do you know when the safety patrol boats and other recreational users may be allowed on Glenmore Reservoir?

Mr. Rob Pritchard, General Manager, Utilities and Environment responded by advising that the reservoir is being operated in accordance with the procedures laid out by the consultant in dam operations. He stated that once July arrives, the water levels will be raised back up to the crest so that The City is assured of a drinking water supply over the summer. He advised that at the moment the water is low, contains a lot of debris and it is very dirty so that the patrol boats cannot get on the reservoir until the level is raised.

RE: Issuing Service Request Numbers for all Complaints

During my last term I received several phone calls from residents claiming that when they called 311 that their complaints were not remedied and that no record of service request number had been registered relative to the complaint.

Recently a resident has documented the time and date of calls made to 311 registering a complaint about a broken water line on public lands which resulted in a flooding issue on the resident's property. When the resident filed a claim for damages the resident was denied compensation because they could not reference a service request number for the initial calls.

I have personally called 311 and not been given a service request number for all the problems that I have called in, especially when I am transferred to a specific business unit.

As first time callers to 311 are not familiar with our system, what process can we implement to ensure that service request numbers are issued to all callers without necessitating the caller to ask for one?

1. OPENING PRAYER

Mayor N. Nenshi gave the opening prayer at today's meeting.

2. PRESENTATION(S) AND RECOGNITION(S)

CANADIAN ASSOCIATION OF MUNICIPAL ADMINISTRATORS (CAMA) 2011 ENVIRONMENT AWARD

Mayor Nenshi announced that the City Manager, Owen Tobert, accepted the Environment Award on 2011 June 1 on behalf of The City of Calgary from the Canadian Association of Municipal Administrators (CAMA). Mayor Nenshi advised that the Environment Award recognizes the commitment of a municipality to environmentally sustainable governance, to protecting the environment and to combating climate change.

Owen Tobert, City Manager, congratulated the Calgary Fire Department and the City of Calgary Parks Department for receiving the award for the Water Re-use Project housed at the Fire Training Academy. Mr. Tobert explained that the Calgary Fire Department is mindful of the environmental impact of its training operations and in one year, up to 150 million litres of water is used for fire suppression training. He advised that the water re-use project returns water used in training exercises back into an internal hydrant system and that the Academy has virtually ceased consumption and waste of potable water.

Mr. Tobert stated that the Parks Department assisted in the design of the treated wetland and associated infrastructure at the Training Academy. In 2010, 125 trees were planted in those wetlands to commemorate the Fire Department's 125th anniversary. Parks operates the water treatment system, as well as oversees the irrigation and maintenance of the grounds. He called upon Fire Chief Bruce Burrell and Parks Acting Director Kyle Ripley, to come forward to accept the award on behalf of their business units.

Mayor Nenshi remarked that he was proud that The City's efforts were being recognized in this manner and that this was a reflection of continued commitment to the environment.

SLAVE LAKE FIRE CHIEF JAIME COUTTS

Mayor N. Nenshi advised that in 2011 May, the Municipality of Slave Lake experienced several outlying wildfires that eventually made their way into the town overtaking the volunteer fire department, ravaging many homes, businesses and municipal buildings, as well as taking out essential services such as gas and power.

He stated the Provincial Operations Centre called on The City of Calgary to provide support to Alberta Health Services (AHS) for the Medical Centre in Westlock and for the Calgary Fire Department (CFD) to also help. Within two weeks the City of Calgary had deployed upwards of 200 personnel from the Calgary Fire Department, Calgary Emergency Management Agency (CEMA), Canada Task Force 2 and Public Safety Communications.

Mayor Nenshi related that as Incident Command, CFD Firefighters dealt with the firefighting operations within the municipality and conducted salvage operations and debris removal, and that they also responded to the helicopter crash that was involved with the wildfire suppression operations. CEMA was instrumental in establishing an effective Emergency Operations Centre as well as assisting with recovery planning. Canada Taskforce2 provided immense medical support to AHS and to the responding crews by providing an Emergency Medical Assistance Task Force, water filtration units, heaters, tents, power generators in

addition to a number of other resources.

Slave Lake Fire Chief Jaime Coutts expressed his desire to visit Calgary personally to convey his thanks for all the essential resources provided to Slave Lake when they were in such dire need. He commented on the expediency of the City of Calgary's assistance and volume of manpower that was provided. He expressed his appreciation for the multitude of tasks they carried out, the equipment provided and for maintaining calm throughout.

Fire Chief Coutts gave an example of how Calgarians helped his community by relating the story of Sarah Waugh, a 15 year old Calgary student from William Aberhart High School, who used a video placed on "Youtube" to organize 4 trailer and truckloads of products that were needed by the community. He spoke about how this young girl came to Slave Lake with her parents to work at the recovery centre and stepped up amongst huge tragedy to do a great job.

Fire Chief Jaime Coutts recognized and thanked Calgary Fire Chief Bruce Burrell, Deputy Fire Chief Tom Sampson, Acting Deputy Chief Ken McMullen, Deputy Fire Chief Len MacCharles, Assistant Deputy Chief Tyler Pelke, Susan Henry, Emergency Management Officer (CFD), John Price, Emergency Management Officer (CEMA), Brian McAsey, Public Information Officer (CFD) and Coby Duerr, Canada Task Force 2.

The Fire Chief presented Mayor Nenshi with a shirt which read "Fire Rescue, Proud Supporter, Response and Recovery" as a token of appreciation. The Mayor responded by saying the City was proud to be able to help the Municipality of Slave Lake and that he is particularly proud of the incredible skills exhibited by the people of Calgary in order to provide this assistance.

New development along 5 Avenue NW that is on a site greater than 70 metres in width is strongly encouraged to break up the massing of the building through design approaches such as mews, mid-block forecourts, courtyards, or publicly-accessible midblock pedestrian connections from the street to the park. These elements should be of a sufficient width and with an appropriate use of paving and landscaping to ensure they create visual interest and pedestrian activity. Building facades along such design elements should be activated by residential frontages, articulation, and glazing (windows) to prevent the creation of blank walls."

2. QUESTION PERIOD

Local Improvements to Primary Access Lanes (Alderman A. Chabot)

How does the City of Calgary deal with local improvements that involve digging into the primary access lanes situated behind residences for issues such as water servicing and sewer maintenance? These improvements often require resurfacing of the lane and severely restrict residence access.

Owen Tobert, City Manager, advised that there are not many residences whose primary access is through a lane and therefore these improvements are completed on a special request basis. He also indicated that repaving these lanes may require a Local Improvement Bylaw or that other options may be available. He assured Alderman Chabot that the Roads Department would investigate these options and respond to him directly.

Is there opportunity for Calgary Radio Aero Modellers' to extend their lease with the City of Calgary for an additional year (April 2012), in order for the business to relocate to an

alternate site?

Rob Pritchard, General Manager of Utilities and Environment, indicated that The City of Calgary has accommodated the lease since its expiration in April 2004 with a 9-month notice to vacate given in 2011 June. He informed that further extension cannot be given due to the planned construction and development of the property as a landfill site in the spring of 2012, at which time access to the site will be cut off and the area secured, as it is under license to operate under the City of Calgary, as a landfill site.

3.1 PROTOCOL FOR CYCLIST PATHWAY CLOSURES (ALDERMAN D. FARRELL)

In light of a recent serious cycling accident in East Village resulting from a pathway closure, are there protocols in place, with respect to the notification of closure of pathways for pedestrians and cyclists, similar to that given motorists to allow for an adjustment to their travel patterns?

Mac Logan, General Manager of Transportation, stated that he was unaware of a pathway closure notification protocol which would take into the consideration factors unique to cyclists. He agreed it was a concern, and stated that he was prepared to report back to Council as was appropriate.

3.1 IMPAIRED DRIVER AWARENESS SIGNAGE (MAYOR N. NENSHI)

With respect to the Report Impaired Drivers (RID) Program, has there been consideration by the City of Calgary to increase the amount of signage encouraging motorists to phone 911, should they witness an incident of erratic driving by an impaired motorist, relative to the greater amount of signage in other jurisdictions?

Mac Logan, General Manager of Transportation, replied that he was unaware of any conversation in regard to increased signage, but would report back to Council with what would be an effective use of that tool.

ADOPT, Moved by Alderman D. Colley-Urquhart, Seconded by Alderman P. Demong, that with respect to Alderman D. Colley-Urquhart's Revised Motion, NM2011-41, the following be adopted:

WHEREAS "lifestyle communities" provide citizens with the opportunity to experience diverse lifestyles, are promoted on the basis of an expected "lifestyle" offered by the recreational amenities in the built environment, and evolve on the premise that they are a permanent, **longer** commitment approved by Council; and

WHEREAS golf **courses, private lakes and other major recreational amenities** are considered lifestyle communities that represent small suburban communities with a specific form and character and a Special-Purpose – Recreation District (S-R) designation under Land Use Bylaw 1P2007, with Section 248 defining an Outdoor Recreation Area as a use where people participate in sports and athletic activities outdoors; and

WHEREAS golf courses, **private lakes and other major recreational amenities**, municipally-owned, or resident-owned, or privately-owned recreational uses, and the practice of identifying a golf course, **private lake and other major recreational amenity** within a community, in an ASP, is confusing and arbitrary, and does not clearly reflect the policy intent for golf courses, **private lakes and other major recreational amenities** because

ASP policy on golf course communities is derivative, rather than prescriptive; and

WHEREAS based on past practice and planning decisions, the integration of golf courses, **private lakes and other major recreational amenities** into residential communities has been assumed to be an acceptable practice in Calgary, and community-based golf courses, **private lakes and other major recreational amenities** are considered to be a positive feature in the City; and

WHEREAS some homeowners in “Lifestyle Communities” may assume that golf courses, private lakes and other major recreational amenities are integrated and permanent development within that community, leading to the creation of expectation that the use will continue indefinitely and subsequent investments; and

WHEREAS the creation of golf courses, **private lakes and other major recreational amenities** results from decisions by both the municipality and the developer, and these decisions result in homeowner confidence and certainty, but currently no policy that promotes or prohibits private golf course redevelopment within residential communities in the new Municipal Development Plan;

THEREFORE BE IT RESOLVED that Administration prepare a report directly to Council no later than 2012 January that outlines the legal and planning considerations associated with lifestyle communities and recreational land.

1. OPENING PRAYER

Mayor N. Nenshi gave the opening prayer at today's meeting.

2. PRESENTATION(S) RECOGNITIONS(S)

2.1 RECOGNITION OF THE OGDEN LEGION PIPE BAND

Alderman B. Pincott introduced 20 members of the Ogden Legion Pipe Band (OLPB), which included the Pipe Major, Ashley Muchka and the Drum Sergeant, Jake Kennedy. He advised that the OLPB includes 12 pipers and 8 drummers who placed among the top six at the World Pipe Band Championships held in August in Glasgow, Scotland. Alderman B. Pincott further informed Council that the OLPB competed against the best in the world receiving two first place awards. He also congratulated them on placing 5th in a competition against 230 other pipe bands.

3. QUESTION PERIOD

1) Compliance of Illegal Secondary Suites (Alderman A. Chabot)

With respect to bringing illegal secondary suites into compliance the *Municipal Government Act* indicates the City has the right to enter and inspect property. Why does the City have issues gaining entry to these properties to assess, bring them into compliance, and ensure safety and security since we have the legislative tools to do so?

Glenda Cole, Acting City Solicitor, responded that the interpretation Alderman A. Chabot is referring to in the *Municipal Government Act* refers to assessors entering properties to deal with assessment only. She advised that the City would not use that section of the Act to gain access for other purposes such as a Bylaw inspection. Ms. Cole indicated she would provide Alderman A. Chabot with further information on his question.

2) Recyclable Options (Alderman G-C. Carra)

I received a call from a constituent who had to drive to different landfills in the City in order to have more than three tires recycled at the same time. He was advised that the landfill sites only allow three tires to be recycled at one time and require payment to do so. He later discovered that there is an option provided by a third party that would pay him to recycle the tires. Although I know we can't endorse third parties could 311 provide more information and options to citizens when it comes to recyclable products?

Rob Pritchard, General Manager, Utilities and Environment, responded by saying that this has been an issue and that he will follow up and review the 311 use of scripting with respect to recyclables. He also indicated that there are links on The City of Calgary Recycling website that provide other options and are useful for the public.

3) Use of City Park for Remembrance Day Ceremonies (Alderman R. Pootmans)

When driving through my ward on Remembrance Day, I noticed an area near Signal Hill, where there are Battalion Numbers on the hill. Why are there no services held there? How can a Ward Alderman arrange for a Remembrance Day ceremony to be held in a City park?

Erika Hargesheimer, General Manager, Community Services and Protective Services, indicated that the various Legions and Armed Forces organize these ceremonies and that she would obtain more information on the process and send it to all Members of Council.

Mayor N. Nenshi indicated that his office contact various organizations with the goal of holding a Universal Remembrance Day ceremony for the community.

Staffing Levels in 2012 – 2014 Budget (Alderman S. Keating)

The City of Calgary is embarking on its 2012-2014 budget process.

Enclosed in the budget documents is a high level outline of the budgeted expenditures, net figures and the number of FTE's in each business unit.

Below is an example of how this illustrated in the high level budget document supplied to Council

(\$millions)									
Customer Service & Communications	2012			2013			2014		
	Expend	Net	FTE's	Expend	Net	FTE's	Expend	Net	FTE
	\$19.9	\$16.2	152	\$20.0	\$16.3	152	\$20.0	\$16.3	152

I would like to request a complete, consolidated outline separating the staffing levels of FTE Union and FTE Management Exempt list of all city FTE's in spreadsheet form separated by

- Business unit/department/category
- Listing of union and management exempt positions in each unit

The information requested through this Administrative Inquiry is available in the 2012-2014 budget document interspersed among the various pages, but not easily accessible in one format.

Below is an example to describe this inquiry

Year	Business unit	category	FTE union	FTE MGT Exempt
2012	Customer Service & Communications	311 Customer Service Centre & Dispatch		
2012	Customer Service & Communications	Public and employee Engagement/communications		

Decisions on Front – End Agreements (Alderman S. Keating)

In the past, the necessity of having certain projects 'front-ended' by a third party was critical in ensuring that communities and projects were initiated, and completed, in a timely manner as a partnership between the City of Calgary and the particular third part.

The benefit of this relationship was that work would be initiated, or completed, by a third party, the cost of which would then be reimbursed by upstream users through the City.

It has come to my attention of late that certain organizations have been asked to 'donate' their front-end arrangements to the city without having the costs of the work done reimbursed.

Who, or how, are the decisions made to go to a donation of front-end infrastructure?

Pine Creek Treatment Plant (Alderman S. Keating)

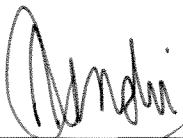

1. How many homes, and in what communities are connected to the Pine Creek Treatment Plant?
2. How many homes can the Pine Creek Treatment Plant accommodate?
3. Why are we pumping gray water from Fish Creek to the Pine Creek Treatment Plant?

14. ADJOURNMENT

CARRIED

MOTION ARISING, Moved by Alderman D. Colley-Urquhart, Seconded by Alderman R. Jones, that with respect to Report C2011-73, the following be adopted:

Whereas the Public Safety Communications Board of Governors had recommended growth in Public Safety Communications of 12 FTEs annually for each of the next three years in order to respond to call volume increases to the 9-1-1 line (as a result of population growth, increase in cellular calls, increased frequency of larger events that generate large call volumes), and

Whereas there is also a need for increased capacity to improve call answer performance for the non-emergency lines for Calgary Police Services and the Calgary Fire Department, and

Whereas the 2012-14 Budget could only accommodate modest increases to the PSC budget of \$425K (and 3 FTEs) in 2013 and \$775K (and 6 FTEs), leaving a potential shortfall in resources to this critical service,

Therefore be it resolved that Council direct Administration to report back to SPC on Community and Protective Services no later than September 2012 with:

- 1) A status update on current PSC performance outcomes as well as strategies to improve performance on both the emergency and non-emergency call evaluation and dispatch, and
- 2) Options for funding additional positions as required.

10.1 GREEN SHEET, **IMPROVING LATE NIGHT TRANSPORTATION OPTIONS IN RESPONSE TO ALBERTA'S BILL 26** (ALDERMAN COLLEY-URQUHART)

DISTRIBUTION

At the request of Alderman D. Colley-Urquhart, and with concurrence of the Mayor, the Acting City Clerk distributed copies of Alderman D. Colley-Urquhart's Motion, "Revised Green Sheet, Improving Late Night Transportation Options in Response to Alberta's Bill 26."

ADOPT, Moved by Alderman D. Colley-Urquhart, Seconded by Alderman D. Farrell, that Alderman D. Colley-Urquhart's item of Urgent Business, **Revised Green Sheet, Improving Late Night Transportation Options in Response to Alberta's Bill 26**, be adopted, **after amendment**, as follows:

WHEREAS the Province of Alberta has introduced new drinking and driving legislation that reserves the strongest sanctions for repeat offenders and for those who are criminally impaired with blood-alcohol content (BAC) over .08, and expands existing sanctions for drivers impaired with BAC from .05 up to .08;

AND WHEREAS other jurisdictions such as British Columbia that have introduced similar legislation experienced an increased demand for public transit and taxi service during weekend late-night peak periods;

AND WHEREAS The City of Calgary like many other municipal jurisdictions currently experiences a taxi shortage during the winter holiday season particularly during weekend bar closing times between 2:00 am to 3:00 am;

AND WHEREAS significant winter weather events have the effect of further reducing the compliment of taxis available to the public during a period already experiencing high demand;

AND WHEREAS other large Canadian municipalities such as Vancouver, Toronto and Montreal augment transportation options with public transit during the weekend late-night peak demand periods which complements the available taxi supply;

AND WHEREAS Calgarians who require accessible transportation such as accessible taxis are particularly vulnerable at this time of year because their transportation options are limited;

AND WHEREAS The City of Calgary has limited the number of taxi licenses at 1411 (3900 Licenced Drivers) which places a responsibility on the City to ensure there are sufficient taxis to provide service the public;

AND WHEREAS with Bill 26 the opportunity exists to explore the seasonal, special and night time plate concept with a night time fleet that could work year round from 6 pm to 6 am, and those plates could be used as full service daytime plates during major weather or special events;

AND WHEREAS the request for the release of seasonal plates for major events could also be integrated into the TLAC process by Tourism Calgary and/or the Calgary Hotel Association who have a pulse on demand requirements;

AND WHEREAS many taxi drivers cite personal safety concerns as one of the primary reasons for not working during the late-night peak period;

AND WHEREAS the governance model that has evolved with the Taxi & Limousine Advisory Committee (TLAC) continues to be more effective, and is in receipt of a number of reports from various consultants that provide recommendations on appropriate taxi supply and demand levels;

NOW THEREFORE BE IT RESOLVED **that TLAC be requested to work with City Administration to jointly** explore further opportunities in light of Bill 26 to enhancing transportation service to citizens during weekend, special events and seasonal holiday peak demand periods which may include but not be limited;

- a) increasing the current compliment of available accessible taxis,
- b) developing a non transferable special occasion taxi plate licensing program,
- c) imposing additional requirements and/or conditions on current taxi licenses, including piloting the release of a limited number of non-transferable “night time only plates”,
- d) alleviating driver safety concerns through the mandatory implementation of safety shields,
- e) developing complimentary options **and cost** to expand transit service.

And report back directly to Council with options including an evaluation of the associated risks with implementing the proposed options, no later than **2012 April 23**.
