Input from Calgarians	54
Reputation and performance	60
Respondent profile	67

Background and methodology

Telephone survey conducted with a randomly-selected sample of 2,502 Calgarians aged 18 years and older between March 2 and March 26, 2023.

- Both cell phone (60%) and landline (40%) sample were used.
 - The average interview length was 29 minutes.
-

Final data were weighted to ensure the overall sample's quadrant, ward, and age/gender composition reflects that of the actual Calgary population aged 18 or older according to 2019 Municipal and 2021 Federal Census data.

The margin of error (MOE) for the total sample of 2,502 is ± 2.0 percentage points, 19 times out of 20. The margin of error for the young adults (18-24) sub-group of 112 is ± 9.26 percentage points, 19 times out of 20, and the margin of error for the older adults (25+) sub-group of 2,336 is ± 2.03 percentage points, 19 times out of 20. The margin of error of each question will vary slightly depending on the total number of respondents who answered the question.

Not all questions asked within the Spring Survey of Calgarians are represented within this report. Results are compared between the young adults (18-24) and older adults (25+) subgroups. Statistically significant differences are noted throughout the report:

- \uparrow indicates number is significantly higher than the other group.
- \downarrow indicates number is significantly lower than the other group.
- * Some results in this report are subject to rounding adjustments.

Significant differences are an indication that a difference is not due to chance. A mathematical formula is used to calculate each difference independently. Whether or not a difference is considered significant depends on a few factors including the total sample size and the variability of responses. Larger sample sizes mean that smaller differences are significant. Additionally, variability of responses means that the more alike the responses are the more significant a change will be.

Equity-deserving communities

Calgary’s Equity-Deserving Communities (EDCs) are defined as groups of people who generally have less access to opportunities, resources, and systems of power because of their actual or perceived identity or identities. EDCs often experience social and financial disadvantages because of systems of oppression, which takes many forms including, but not limited to, racism, sexism, and ableism. The City would like to better understand the perspective of equity-deserving communities through the lens of the annual Spring and Fall Surveys of Calgarians. The data in this report are from the most recent (2023) Spring Survey of Calgarians, focusing on demographics of interest, specifically those that differentiate equity-deserving communities. Both seasonal surveys are conducted in English to manage time and cost restraints. The City acknowledges the ability to speak English may be a barrier for potential participants. Inclusion in all EDC groups is based on self-reported demographic data captured within the general population survey.

This is one report in an overall set of nine reports on Equity-Deserving Communities. Each report focuses on a different EDC. The EDCs, and the demographic variables used to categorize EDCs, are as follows, with the EDC category noted in bold text:

Gender:

- Male
- **Female**

Note: the number of respondents who identified with another category is too small to report separately

Household Income:

- **< \$60,000**
- \$60,000+

Note: self-reported pre-tax annual household income

Racialized People:

- **Yes**
- No

Seniors:

- 18 to 64 years old
- **65 years old or older**

Disability:

- **Yes**
- No

Note: “Yes” includes respondents with a disability as well as respondents who have a household member with a disability; respondents were not asked to identify the specific disability/disabilities

Born in Canada:

- Born in Canada
- **Born outside Canada**

Note: foreign-born respondents were not asked for their specific country of origin

Young Adults:

- **18 to 24 years old**
- 25 years old or older

2SLGBTQIA+:

- **2SLGBTQIA+**
- Non-2SLGBTQIA+

Indigenous:

- **Indigenous**
- Non-Indigenous

Note: Includes First Nations, Métis, Inuit, or an Indigenous self-description.

Key findings

Key findings

Quality of life

Calgarians between the ages of 18 and 24 tend to be more optimistic than those 25 years old and older in terms of their outlook on the current state and the future of Calgary.

- The majority (78%) of Calgarians rate the current overall quality of life in Calgary as ‘good’, with no significant differences between subgroups.
- Eighteen to 24 year olds are more likely to agree that the quality of life has improved (20% vs. 12%) or remained the same (50% vs. 37%) compared to those over the age of 25.
- They are also less likely to ‘strongly disagree’ that Calgary is on the right track to be a better city 10 years from now (3% vs. 9%).

Inclusivity

Overall, Calgarians aged 18 to 24 do agree with more of the statements regarding inclusion, however, most differences between those aged 25 and up, are not significant.

- Perceptions of inclusions for all Calgarians and all statements are around over the 50% mark with ranges from 53% to 69%.
- The one area where 18 to 24 year olds agree at significantly higher rates than those 25 years old and older are in the context of the City of Calgary fostering a city that is inclusive and accepting of all (79% vs. 68%).

Green Line LRT

The overwhelming majority Calgarians perceive the Green Line LRT to be an important factor in Calgary’s future (92%), adding to the transportation network (91%) and enabling Calgarians to be better connected (92%).

- Eighteen to 24 year olds, compared to Calgarians who are 25 and older are more likely to think the Green Line is important (97% vs. 91%), and even more so, ‘very important’ (86% vs. 76%).

Key findings

Green Line LRT (continued)

- Similarly, younger Calgarians are also more likely than those aged 25 and older to ‘strongly agree’ (81% vs. 70%) that the Green Line LRT will be an important addition to the network, and better connect people (82% vs. 68%).

The environment

Overall, Calgarians aged 18 to 24 are less satisfied with how the environment is doing.

- Where the environment is concerned, younger Calgarians between the ages of 18 to 24 are more likely to give ‘poor’ ratings (9% vs. 4%) on the current state of the environment, be less satisfied with the job The City is doing to protect the environment overall (27% vs. 15%) and be less likely to give ‘very satisfied’ (17% vs. 28%) ratings than Calgarians who are 25 years old or older.
- In general, ratings are quite positive for the state of the environment (94% ‘good’) and Calgarians are mostly satisfied with the job The City is doing to protect the environment (84%).

Service equity

For the most part, Calgarians aged 18-24 years old agree at similar rates as those older than 25 with regards to services and programs.

- Calgarians between the ages of 18 and 24 are mostly in agreement with those aged 25 and older when it comes to satisfaction with services with the exception of lower satisfaction with emergency management and continuity services (77% vs. 90%) and higher satisfaction with property tax management (82% vs. 67%).

Key findings

Service equity (continued)

- Younger Calgarians aged 18 to 24 are less likely than those 25 and up to want The City to invest more in police services (47% vs. 65%) and the Calgary Fire Department (40% vs. 58%), and more likely to want investment in appeals and tribunals (47% vs. 28%) and records management, access and privacy services (39% vs. 22%).
- The only service where Calgarians aged 18 to 24 indicated wanting The City to invest less in compared to those aged 25 and older was parking and enforcement (41% vs. 21%).

Taxation

There are no major difference between Calgarians aged 18 to 24 and those aged 25 and older, and responses are in line with Calgarians in general.

- Around one-half (52%) of Calgarians rate the value they feel they receive from their municipal property tax dollars as 'good' with no significant differences between those aged 18 to 24 and those 25 and older (55% vs. 52%).
- In line with this, a small majority (55%) are in favour of a tax increase to deal with the increased cost of maintaining services, again with no significant differences between age groups (56% 18-24 vs. 55% 25+).

Customer service

Younger Calgarians are slightly more satisfied with some aspects of customer service.

- Calgarians of ages 18 to 24 are more likely than those 25 years old and older to perceive City communication as good (82% vs. 70%) and agree that their expectations are met (86% vs. 77%).
- Younger Calgarians, however, they are less likely to agree (56% vs. 66%) than their counterparts that The City responds quickly to requests and more likely to disagree (44% vs. 34%).

Key findings

Input from Calgarians

Younger Calgarians between the ages of 18 and 24 are more likely than their older peers to have positive perceptions related to input from Calgarians.

- They are more likely to agree that The City allows Calgarians to have meaningful input into decision making (75% vs. 62%), is working to improve how it includes Calgarian's input into decisions (83% vs. 66%).
- They are also less likely to 'strongly' disagree that The City uses the input from Calgarians (6% vs. 14%).

Reputation and performance

Calgarians between the ages of 18 to 24 tend to view The City more favourably than those aged 25 and older, in general.

- Calgarians aged 18 to 24 are more likely (61% vs. 47%) to trust the City and less likely to distrust (12% vs. 23%) in comparison to those aged 25+.
- Younger Calgarians are more likely to agree that The City practices open and accessible government (81% vs. 69%).
- Younger Calgarians are significantly more likely (70% vs. 59%) to be satisfied with Council, and while not significant, more likely to be satisfied with The City as a whole (78% vs. 70%) than Calgarians aged 25 and older.
- Those aged 18 to 24 are also more likely to agree that the City Council and Administration work collaboratively to make the best possible decisions for the future of Calgary (82% vs. 67%). They are also less likely to disagree with this statement in all aspects: overall (18% vs. 33%) , 'somewhat disagree' (14% vs. 23%) , and 'strongly disagree' (4% vs. 10%) in comparison to those aged 25 and older.

Detailed findings

Quality of life

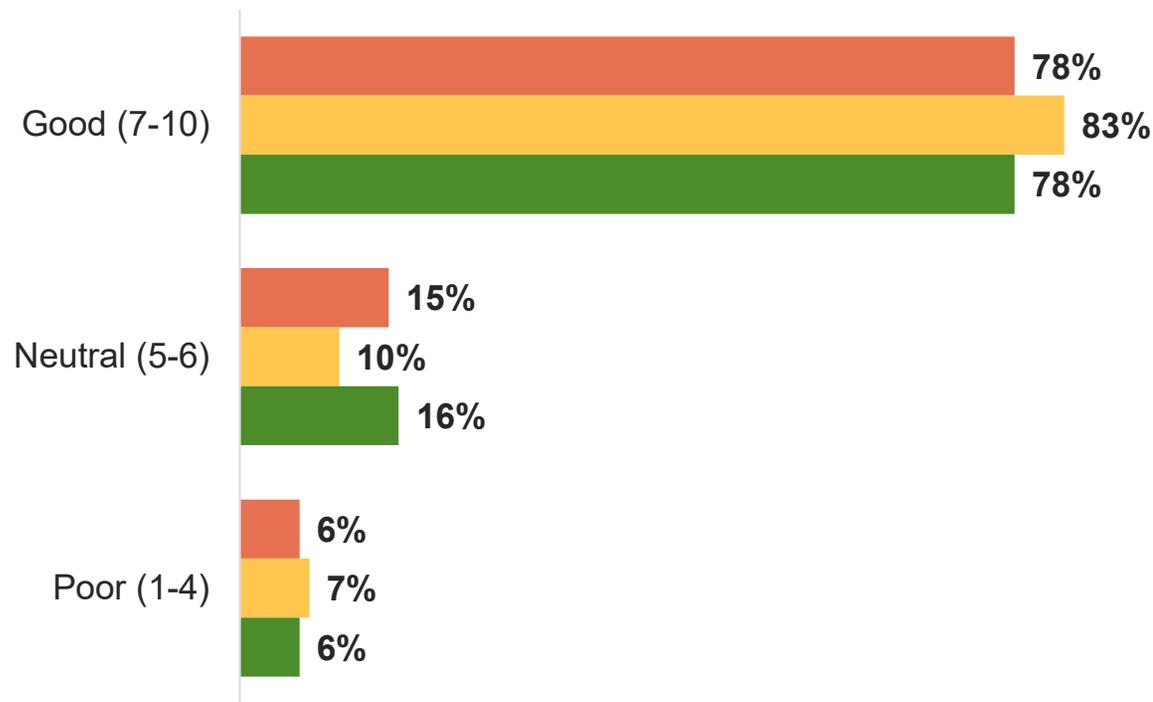

Overall quality of life in Calgary – 18 to 24 years old

The majority (78%) of Calgarians are in agreement that the quality of life in The City of Calgary is “good”, with no significant differences between groups (83% 18-24 years old vs. 78% 25 years old or older).

“How would you rate the overall quality of life in The City of Calgary today?”

- All Calgarians
- 18-24
- 25+

Q. On a scale of “1” to “10” where “1” is “very poor” and “10” is “very good” how would you rate the overall quality of life in The City of Calgary today?

Base: Valid respondents (All Calgarians, n=2,500; 18-24, n=112; 25+, n=2,334)

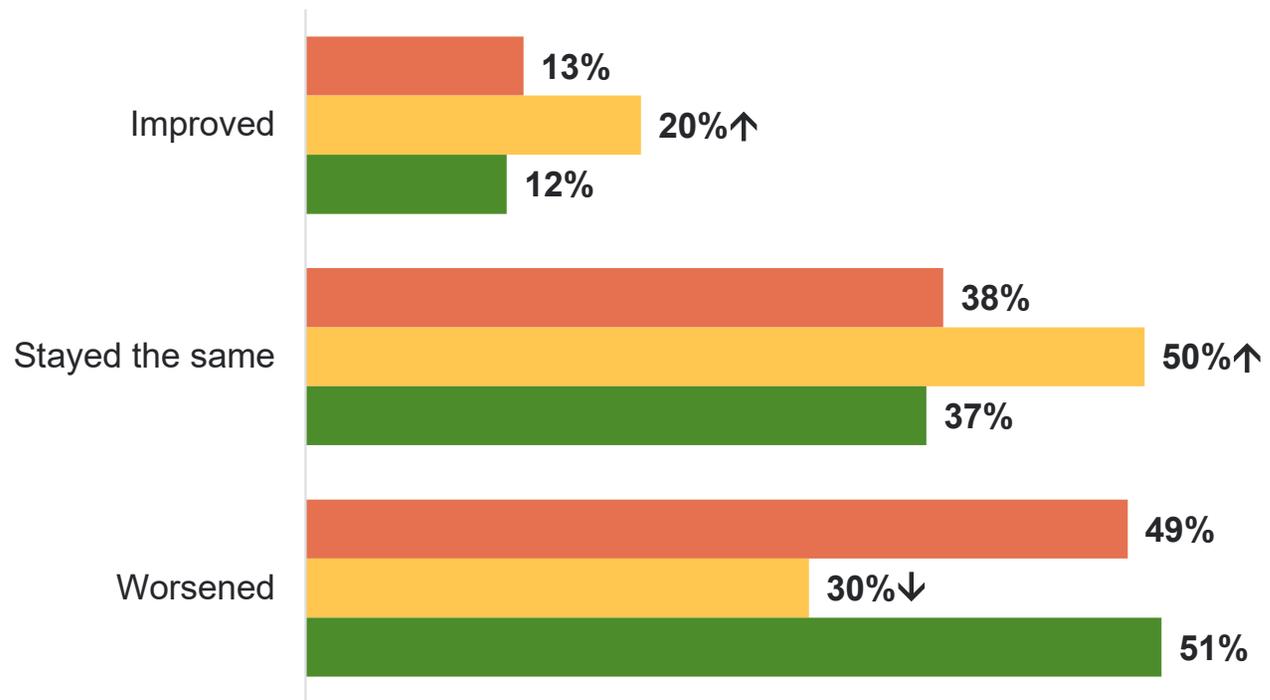

Perceived change in quality of life – 18 to 24 years old

Calgarians between the ages of 18 and 24 years are more likely than those who are 25 or older to report that the quality of life has either improved (20% vs. 12%) or stayed the same (50% vs. 37%) in the past three years. Younger Calgarians are also significantly less likely to report that it has worsened (30% vs. 51%).

“Do you feel the quality of life in The City of Calgary in the past three years has...?”

- All Calgarians
- 18-24
- 25+

Q. Do you feel that the quality of life in The City of Calgary in the past three years has ...?
 Base: Valid respondents (All Calgarians, n=2,465; 18-64 18-24, n=111; 25+, n=2,303)

↑ Statistically higher than subgroup
 ↓ Statistically lower than subgroup

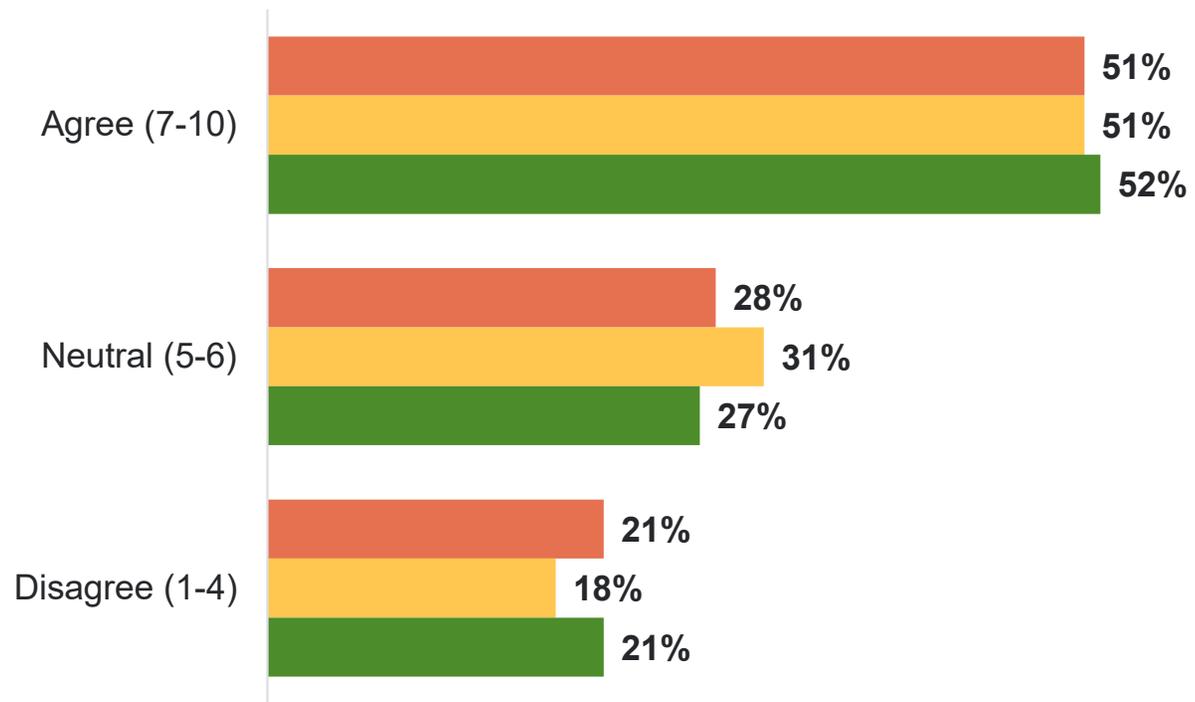

Moving in the right direction – 18 to 24 years old

One-half (51%) of all Calgarians, regardless of age agree that Calgary is moving in the right direction to ensure a high quality of life for future generations (51% 18-24 years old vs. 52% 25 years old or older).

“Calgary is moving in the right direction to ensure a high quality of life for future generations.”

- All Calgarians
- 18-24
- 25+

Q. Next, I'm going to read you a series of statements that some people have said about life in Calgary. Please indicate if you agree or disagree with each statement using a scale from "1" to "10", where "1" is "completely disagree" and "10" is "completely agree".

Base: Valid respondents (All Calgarians, n=2,490; 18-24, n=112; 25+, n=2,325)

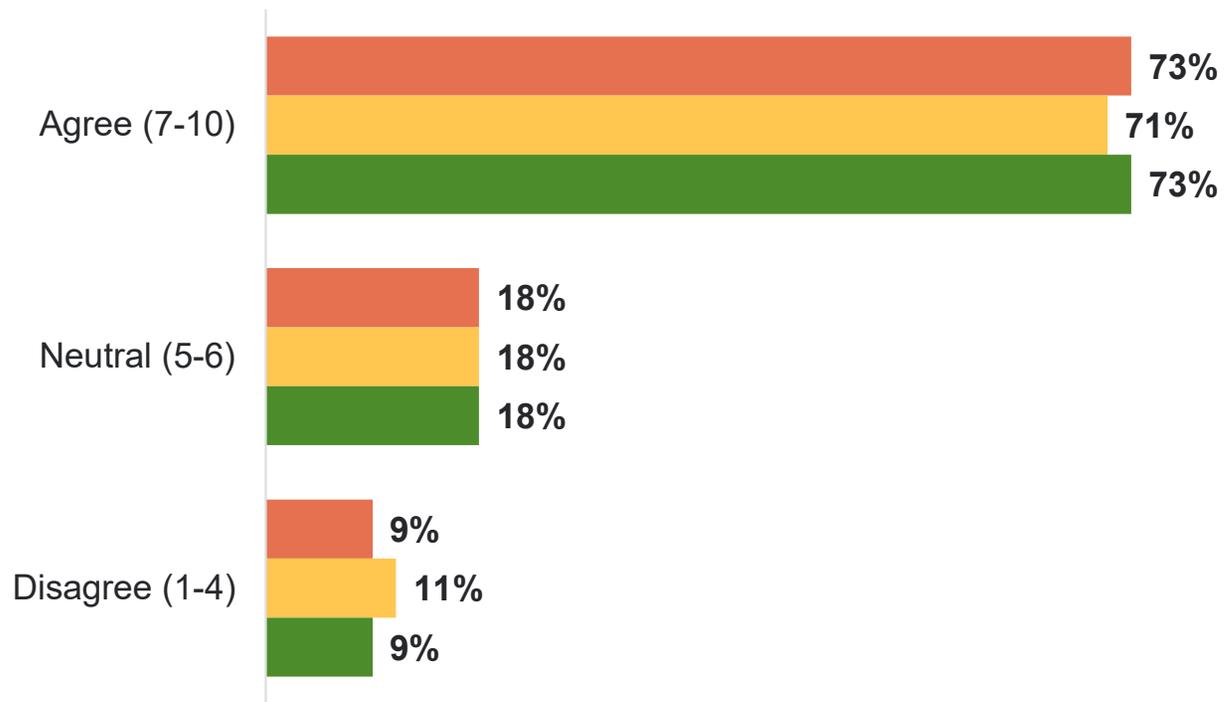

Great place to make a living – 18 to 24 years old

Regardless of age, the majority (73%) of Calgarians agree that Calgary is a great place to make a living (71% 18-24 years old vs. 73% 25 years old or older).

“Calgary is a great place to make a living.”

- All Calgarians
- 18-24
- 25+

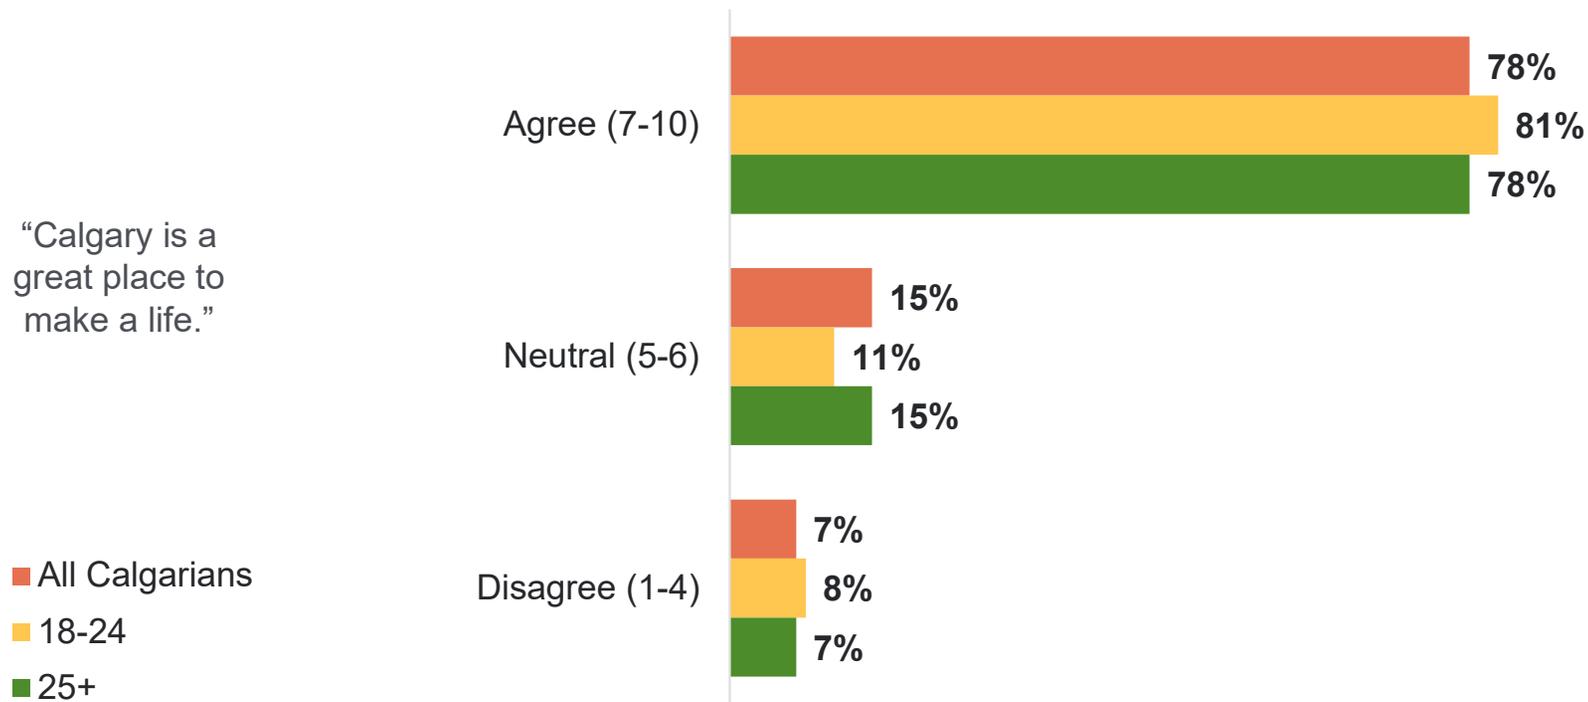

Q. Next, I’m going to read you a series of statements that some people have said about life in Calgary. Please indicate if you agree or disagree with each statement using a scale from “1” to “10”, where “1” is “completely disagree” and “10” is “completely agree”.

Base: Valid respondents (All Calgarians, n=2,497; 18-24, n=112; 25+, n=2,332)

Great place to make a life – 18 to 24 years old

Nearly four-fifths (78%) of Calgarians agree that Calgary is a great place to make a life. Both Calgarians aged 18-24 (81%) and those 25 and older (78%) agree similarly.

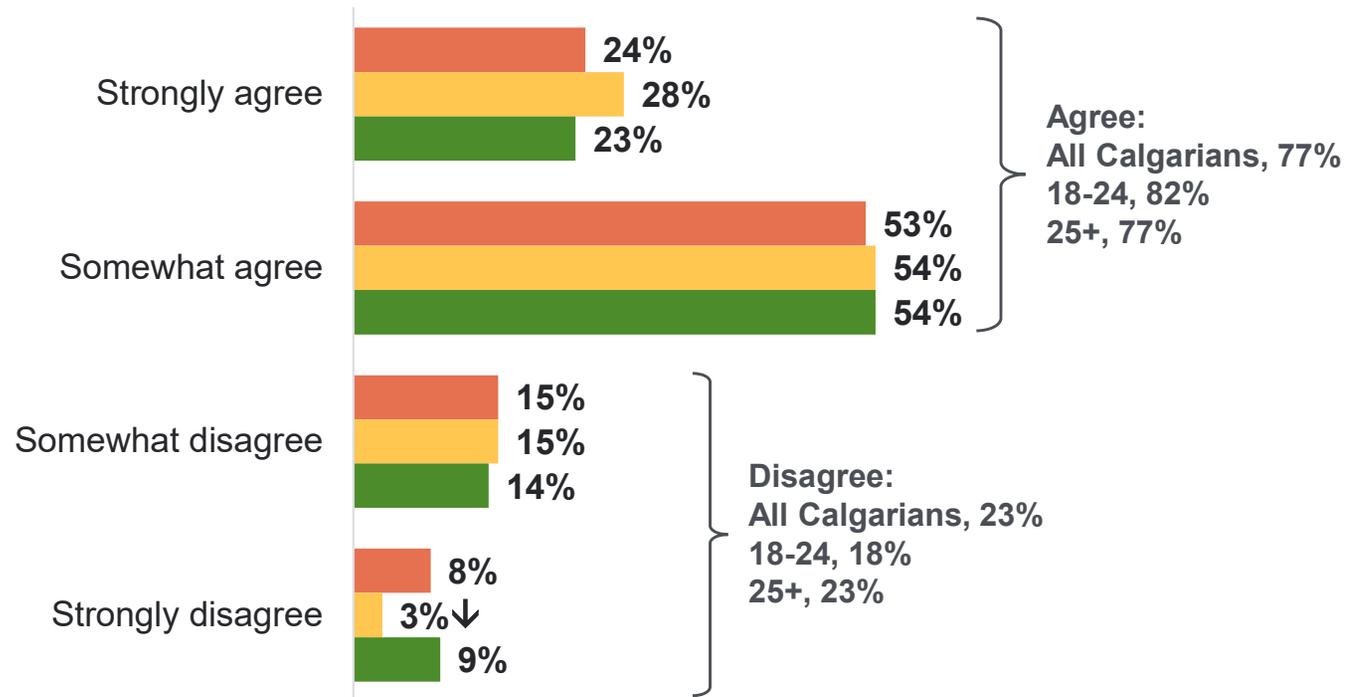

Q. Next, I'm going to read you a series of statements that some people have said about life in Calgary. Please indicate if you agree or disagree with each statement using a scale from "1" to "10", where "1" is "completely disagree" and "10" is "completely agree".
Base: Valid respondents (All Calgarians, n=2,502; 18-24, n=112; 25+, n=2,336)

On track to be a better city – 18 to 24 years old

While the majority (77%) of Calgarians overall agree that Calgary is on the right track to be a better city 10 years from now, Calgarians aged between 18 and 24 years old (3%) are less likely than those aged 25 years and older (9%) to ‘strongly disagree’ with this statement.

“Calgary is on the right track to be a better city 10 years from now.”

- All Calgarians
- 18-24
- 25+

Q. There are challenges facing The City of Calgary today, but also success stories. Do you agree or disagree that...?

Base: Valid respondents (All Calgarians, n=2,487; 18-24, n=111; 25+, n=2,323)

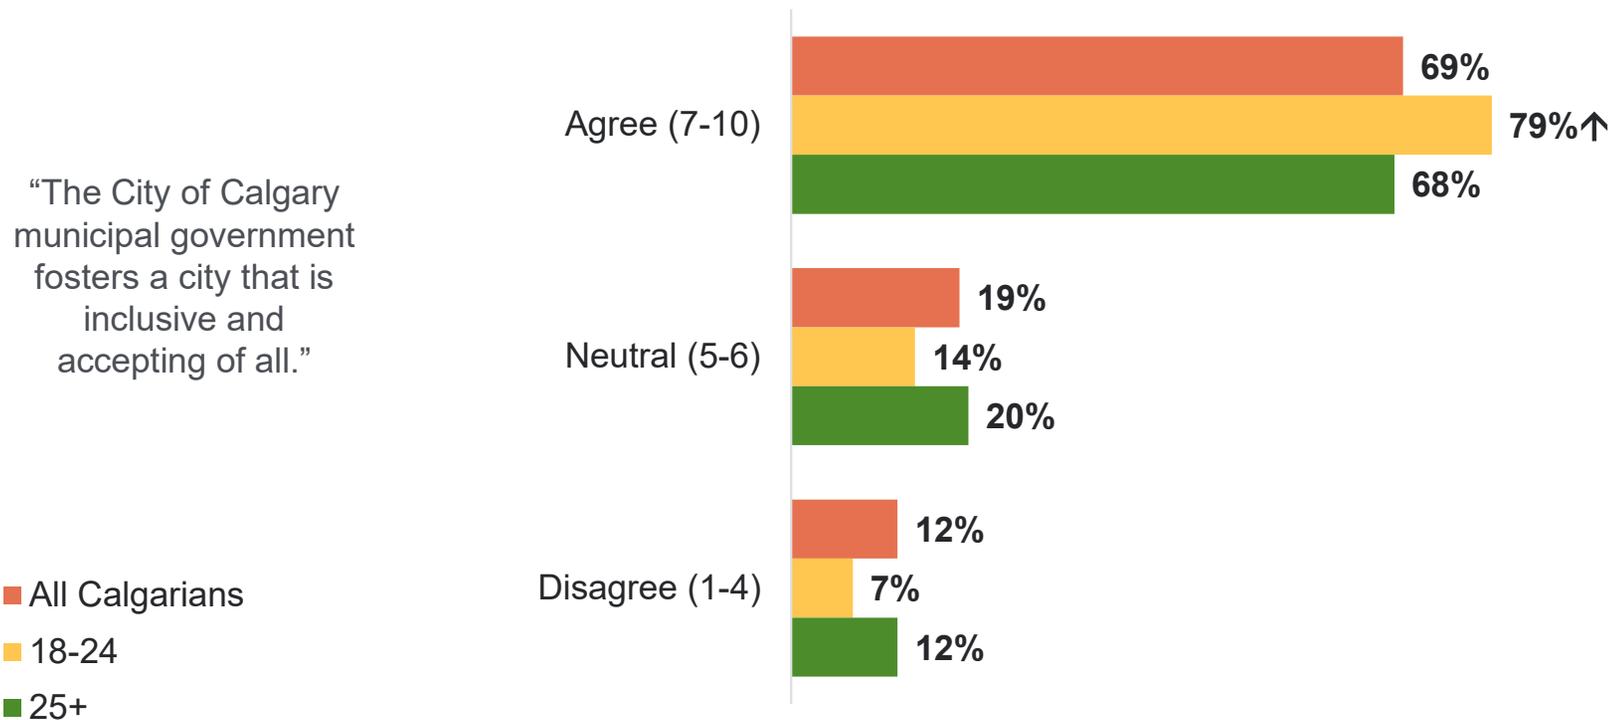

↑ Statistically higher than subgroup
↓ Statistically lower than subgroup

Inclusivity

Perceptions of inclusion – 18 to 24 years old

A majority of Calgarians (69%) agree that The City of Calgary municipal government fosters a city that is inclusive and accepting of all, however, Calgarians aged 18 to 24 (79%) are more likely than those aged 25 years and older (68%) to agree.

Q. Next, I’m going to read you a series of statements that some people have said about life in Calgary. Please indicate if you agree or disagree with each statement using a scale from “1” to “10”, where “1” is “completely disagree” and “10” is “completely agree”.

Green Line LRT

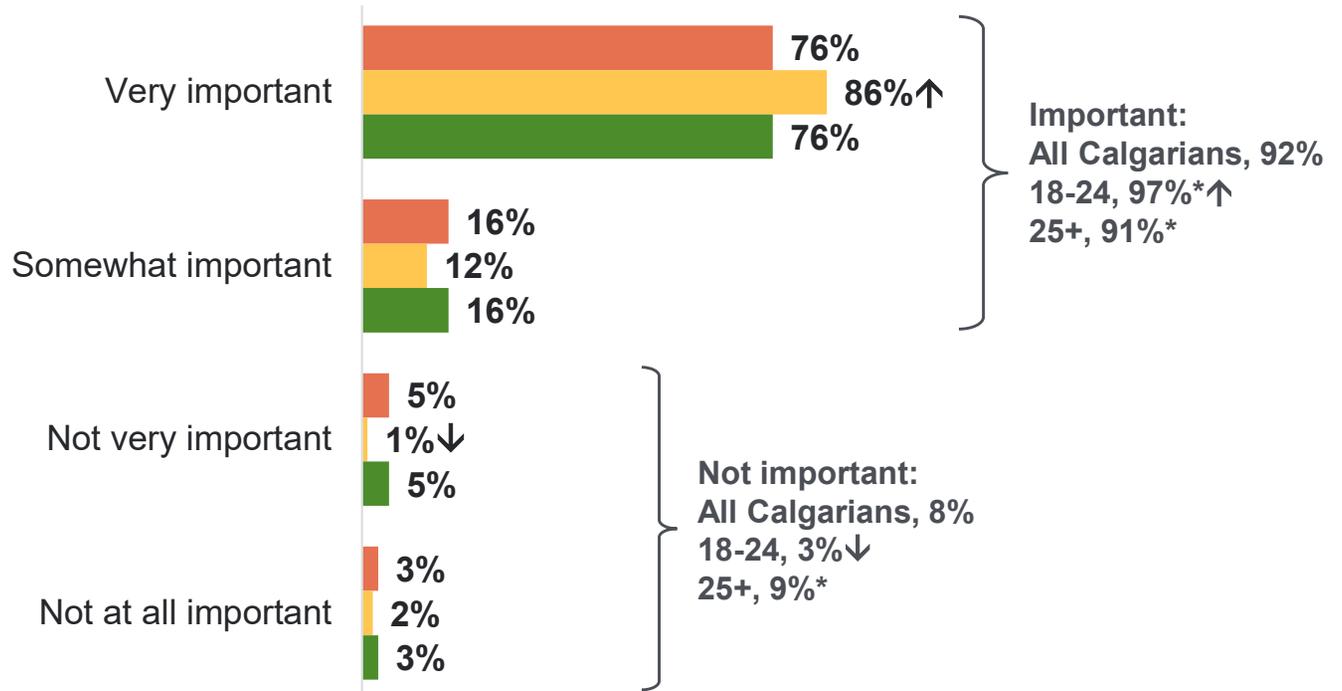

Importance to Calgary's future – 18 to 24 years old

The vast majority (92%) of Calgarians agree that the Green Line LRT is important to the future of Calgary. Calgarians aged 18 to 24 years are more likely than those aged 25 years or older to agree that it is important overall (97% 18-24 years old vs. 91% 25 years or older) and also think it is 'very' important (86% 18-24 years old vs. 76% 25 years or older). Younger Calgarians (3%) are also less likely to think the Green Line LRT is not important compared to older Calgarians (9%).

“How important is the Green Line LRT to the future of Calgary?”

- All Calgarians
- 18-24
- 25+

Q. The Green Line is Calgary's next LRT line. When complete, it will connect communities between Keystone in the North and Seton in the Southeast to downtown and various other destinations along the way. How important do you think the Green Line LRT is to the future of Calgary, 10 years down the road and beyond?

Base: Valid respondents (All Calgarians, n=2,490; 18-24, n=112; 25+, n=2,325)

Taxation

Value for tax dollar – 18 to 24 years old

Around one-half (52%) of Calgarians rate the value they feel they receive from their municipal property tax dollars as 'good'. There are no significant differences in perceptions of value between Calgarians who are 18- to 24-year-old and those who are 25 years old or older (55% vs. 52%).

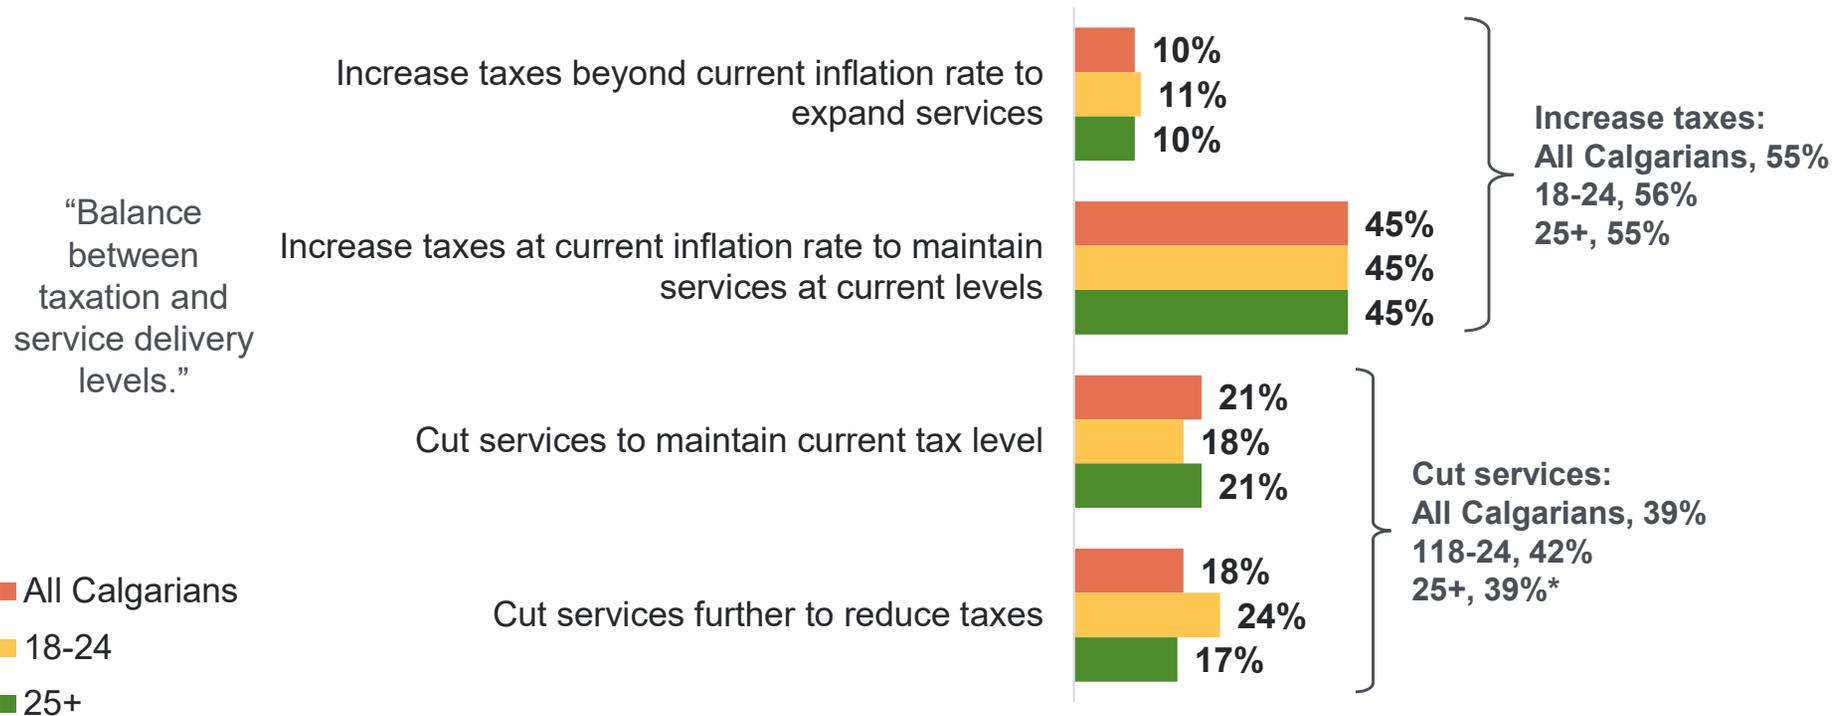

Q. Property tax dollars are divided between The City and the Province. Approximately two-thirds of residential property tax payment goes to The City to fund municipal services. Considering the services provided by The City, please rate the value you feel you receive from your municipal property tax dollars using a scale of 1 to 10 where “1” is “very poor value” and “10” is “very good value”.

Base: Valid respondents (All Calgarians, n=2,476; 18-24, n=108; 25+, n=2,315)

Increase taxes or cut services – 18 to 24 years old

A small majority (55%) of Calgarians would be willing to let The City increase taxes to deal with the increased cost of maintaining current service levels and infrastructure. There were no significant differences between Calgarians aged 18-24 and those aged 25 or older (56% vs. 55%).

Q. Municipal property taxes are the primary way to pay for services and programs provided by The City of Calgary. Due to the increased cost of maintaining current service levels and infrastructure, The City must balance taxation and service delivery levels. To deal with this situation, which of the following four options would you most like The City to pursue?

Base: Valid respondents (All Calgarians, n=2,471; 18-24, n=111; 25+, n=2,309)
