BACKGROUND

The Corporation of The City of Calgary ("The City") is committed to making the workplace as safe as is reasonably practicable for employees, contractors and users of City services. This commitment is supported by this Policy, The City's Occupational Health and Safety (OH & S) Policy and the Respectful Workplace Policy and is reflected in The City's values and vision and mission statements.

The City has a duty under the Occupational Health and Safety (OHS) Act, Regulations and Code, Part 27 Violence and Harassment, to:

- ensure that City employees are not subjected to or participate in harassment or violence at the work site;
- develop a policy and procedures respecting potential workplace violence and harassment;
- inform and educate employees to recognize workplace violence and harassment; and understand mechanisms to report acts of violence;
- conduct hazard assessments;
- develop appropriate responses to workplace violence and harassment; and
- develop procedures for reporting, investigating and documenting incidents of workplace violence and harassment.

Based on these requirements, Corporate Security, in partnership with Human Resources and Environmental & Safety Management, has developed the Workplace Violence Prevention policy to focus on workplace violence prevention and response at The City.

PURPOSE

The purpose of this Administration policy is to adopt a proactive approach to the prevention of violence in the workplace, and outline the expectations of employees and The City in reporting and responding to violent incidents if they occur.

It is not possible to describe every instance of threats or violence in the workplace that employees must be aware of and refrain from and that The City will take steps to prevent, assess, investigate, and resolve. Workplace violence encompasses a range of threats and/or violent behaviours that may cause injury, damage to property, impede the normal course of work, or make employees fear for their safety. Incidents may involve, but are not limited to, employees, members of the public, contractors, domestic partners, and family members.

This policy is not intended to discourage an employee from exercising the employee's rights pursuant to any other law.

DEFINITIONS

1. **"Employee"** is defined as City of Calgary employees providing service for or to The City.
2. **"Police"** refers to the Calgary Police Service, unless the incident occurs outside the city, in which case it will refer to the police agency of jurisdiction.
3. **"Threat"** means any act, gesture or statement that gives an employee, or another person, reasonable cause to believe that there is risk of injury to themselves or another person or damage to property.
4. **"Violence"** whether at a work site or work-related, means the threatened, attempted or actual conduct of a person that causes or is likely to cause physical injury or psychological harm, and includes domestic or sexual violence.
 - a. Domestic Violence: when it occurs or spills over into the workplace, as it may put the targeted employee at risk and/or may pose a risk to co-workers.

Examples range from obscene name-calling to sexual assault. It includes on-line forms of sexual violence, including internet threats and harassment.

For the purposes of this policy violence includes damage to City property.
